ALLIES WILL STOP WAR IN NEAR EAST

By ALFRED J. WEST
United Press Staff Correspondent

LONDON, May 27.—When Greece and Turkey have become thoroughly "fed up" on war, and either one or both countries are on the verge of physical and economic exhaustion, the Allies will step in and dictate the terms of peace—regardless to the desires of either of the combatants.

This, in effect is the strategy the Big Four have adopted to the warfare in the Near East, according to Downing Street officials.

Greece launched her attack against Turkey after the London conference, against the advice of the allies. Turkey invited the attack by refusing to compromise with the Greeks on questions which would undoubtedly have been settled in favor of the Moslems—chiefly because the Greeks were the parties concerned.

Although the offensive of late January and the recent one have both proved disastrous for the Greek army, Athens has informed the foreign office that she is far from through and that the Hellenic troops under the leadership of King Constantine, will yet float the royal emblem over St. Sophia's in Constantinople.

No importance is attached to their boast either in London, Paris or Rome, first because the venture is an impossible one for the Greek arms, and secondly, because it is greatly undesired by the Entente. The allies have long since decided that the Turk shall be allowed to remain unmolested. Also it has been decided that Greek domination of Smyrna and possibly Thrace is an "allied impossibility." Consequently, even though the Greek army may vanquish the Nationalists—an extremely improbable supposition—the mediating allies will decree its withdrawal from Asia Minor.

It has also been established that Athens is fighting the Turk-Greek campaign on pure air. Paper money, unbuckled by even promises of allied loans, is paying the bills. The Greek drachma before Venizelos' repudiation, was quoted at approximately six to the dollar. Now you can buy nearly fifteen for an American greenback. And the end is not yet in sight.

Reports of a British loan to the National Bank of Greece have been repeatedly denied in London and the admission by Controller Maximes that "negotiations were provisionally unsuccessful" constitute additional proof that the Goumari cabinet is riding towards disaster. Greece already is groaning under eight years of continuous war and more than a score of years maintenance of government by borrowed capital.

Allied notes already dispatched, have intimated broadly the futility of continuing the warfare in the Near East, and entente protests against "slaughter of innocents" and "disregard for the rules of civilized warfare" have been dispatched to both Gami Bey and the Goumari cabinet.

YOU certainly want to save money, and you would like to have better bakenings.

Then use Calumet. It's the biggest thing you can do to improve the quality of your bakenings—and lower baking costs.

Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality.

It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

RAISES THE QUALITY—LOWERS THE COST OF ALL BAKINGS.

CALUMET
BAKING POWDER

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit.

It is used by more housewives, domestic scientists and chefs than any other brand. That would not be the case, if it were possible to secure a higher quality leavener.

It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.
