TOWN OF AMERICAN FALLS WILL BE MOVED TO HIGHER SITE

This is Done to Make Way for Huge Irrigation Project; Railroad Also Will be Moved.

POCATELLO, Idaho, June 2.—(A. P.)—Removal of the entire town of American Falls, Idaho, with its population of 2000, two or three miles to a new site higher than its present location, is to be attempted within a few months by engineers working on a huge irrigation project.

Waters of the Snake River, on which American Falls is located, are to be dammed, according to present plans, and will be used to reclaim some 3000,000 or more acres of arid land now given over to the sage brush.

Engineers say the project is one of the largest ever attempted. The big dam itself will have an abutment of one mile in length, will be sixty feet high and will have a base sufficiently strong to stand an additional thirty feet should it ever be deemed necessary to add to its height.

The big reservoir to be filled by the waters backing up from the dam will cover some 75 square miles and will

have an impound of 3,000,000 square feet. Its waters will extend from American Falls to Blackfoot, a distance of about twenty miles. The reservoir will have a short line of nearly 100 miles and, at its widest point, it will be four miles across and, in places 30 feet deep.

Besides moving the town of American Falls, it will be necessary to tear up the Oregon Short line railroad and move it to higher bench land. A railroad bridge will be raised and a new one constructed farther up the Snake River. The Idaho Power Company's plant furnishing light and power to the southeastern section of the state will be removed.

The dam site has been surveyed and preliminary work in the form of drilling for a solid rock foundation has been started.

NEW REFORM SCHOOL OPENED

HELENA, Mont., June 2.—(A. P.)—A "reform school without a lock, bar or guard" is the sort of institution being maintained at the State Vocational School for Girls in Helena valley. Thirty-five healthy young women operate—and enjoy—the 240 acres comprised in the farm occupied by the institution, although, as Miss Edith Kassing, the superintendent, explains, considerable of this acreage is taken up with the crops that meander through it and the brush that invades them.

Fishing, swimming, skating and camping are among the amusement features of the institution, and for the latter it is planned to erect a permanent

cabin in the nearby mountains in a short time. There is plenty of work on the farm, and much of it is performed by the girls themselves. One is an expert driver of a four-horse team and others drive big motor trucks. Modern machinery has reduced the drudge in the domestic work to a minimum.

EAT NO MEAT, DON'T WORRY AND KEEP CALM RULES FOR LONG LIFE

Dr. Peebles, 90 Years of Age Writes Book Telling How to Grow Old Gracefully.

LOS ANGELES, Calif., June 2.—(A. P.)—Dr. James Martin Peebles, physician and author, who not long ago celebrated his 90th birthday anniversary and who write a book on "How to Live a Century and Grow Old Gracefully," ascribes his long life in large measure to abstinence from eating animal flesh.

Asked what he considered the greatest contributory cause to his long life he instantly replied:

"One cannot strengthen life by living on death. I cannot bear the idea of eating dead cows and dead hogs; and it is not necessary. See how strong are horses and oxen; they do not live on dead flesh." Other rules he made for himself and which he said he believed had helped him to reach his advanced years included:

"Got to bed every night at 8:30. Out of bed every morning at six. Never use tobacco. Never use intoxicating liquors. Never complain.

"Avoid all worry and keep an harmonious mind. Worry is among the worst things in the world. Have a strong will-power. Always look for the new. Keep clean."

On his 90th birthday, Dr. Peebles walked erect only occasionally using a cane; his sight was good although he used spectacles for reading; his hearing "as good as ever," and his appetite and digestion he declared excellent. His long white beard and hair gave him a truly venerable appearance.

Asked what his plans for the future were he replied:

"To live a number of years more and to write at least another book. This will be on the progress of Christianity when it is preached, showing how preachers are leaving hell fire, brimstone, purgatory and many other old-time dogmas behind."

"What a variety of mighty changes since my birth!" he exclaimed. "Napoleon then had just died on the Island of St. Helena; old Hickory Jackson," as he was then called, had just been elected President of the United States; Ohio was then a budding state and the great wide west was dotted with Indian wigwams.

"Later came telegraph, telephones, railroads, electric lights and machinery, wireless flashes on ocean and land, airships sailing through the skies and automobiles dashing madly across the continent.

"There is life in everything. Crush the acorn to earth and the germ looks toward the mountains. In every marble block there is an angel's form awaiting the sculptor's chisel. God is good. There is no absolute evil in the universe, because God made it."

Dr. Peebles was born March 23, 1822 at Whitingham, Vt., and was graduated from Oxford Academy, Chenango County, N. W., in 1842. He has traveled around the earth five times.

Congressman H. J. Dwyer of Florida, isn't superstitious. He introduced a bill to add a thirteenth month to the calendar. He'd call it "Center" and have it come between June and July.

"Dead Men Tell No Tales"

A FILM MASTERPIECE

The triumph of photography over the spoken drama.

A PRODUCTION THAT WILL LIVE AFTER OTHER FILMS ARE FORGOTTEN

Tom Terriss has achieved a great success in making one of the most spectacular sensations of the age.

The Lady Jermyn, a schooner carrying a cargo of gold and several hundred passengers, was destroyed by an explosion of gunpowder on the high seas. The men who staged the deed planned that all should perish. They wanted no evidence against them and their theft of the gold. One man lived. For days he drifted on a hatchway, part of the wreckage of the Lady Jermyn. He matched his wits against the plotters, who said
