**CALENDAR OF EVENTS**  
 June 14, 15, 16—State convention of the G. A. R.  
 June 17-August 5—Summer Normal School.  
 July 10 to 16—Ellison-White Chautauqua.  
 September 22, 23, 24—Annual Pendleton Round-Up.

## Fruit Is Shipped

A carload of Tartarian early cherries were shipped yesterday by the Milton Fruitgrowers Union, says Fred Bension, county agent. The Bings and Royal Annas are not yet ready to be picked. The entire cherry crop, say growers, is lighter than was expected, because trees are still in a weakened condition due to the severe winter of 1920. The strawberry season, Mr. Bension says, has passed the peak. Growers are receiving a good price, considering the low figure quoted in other sections. George Tillison, owner of the largest strawberry acreage in Freewater, has 70 pickers and 18 packers employed.

## To Ship Pueblo All Free.

"Account of the Pueblo flood disaster you are authorized to accept and transport free money and supplies for relief purposes addressed to the mayor of Pueblo, American Red Cross or other recognized organizations of relief at Pueblo or at other devastated towns in that vicinity," according to a telegram from the district superintendent of the American Express Co., at Portland to E. F. Garbough at present in charge of the Pendleton office. No public movement has been made by local people toward sending any relief to the flood stricken area owing to the distance of the district from Pendleton.

## Cloth Maps Arrive

Official cloth maps of the city of Pendleton have arrived and are at the office of City Engineer F. B. Hayes. There is a limited number of them above what will be needed by the municipality and these will be sold.

## Motorist Fined

R. L. Farnham was fined \$5 this morning by Magistrate Thomas Fitz Gerald when he pleaded guilty to a charge of permitting the engine of his car to run while it was on the streets unattended. The fine was paid.

## Seek Building Permit

Repairs estimated to cost \$40 will be made by Joe Gibson on his property on Cobble street. An application for a building permit was filed yesterday in the office of the city recorder.

## Weather is Cooler

Despite cloudy weather, there is but little prospect of rain, says Major Lee Moorhouse, weather observer, who reports that the barometer is rising. The maximum today is 88 and the minimum 52. The barometer registers 29.65.

## Will Attend Lodge

Pendleton men who will attend the thirty-second annual session in Oregon of the grand lodge of Masons to be held in Portland June 13, 14 and 15, are Grover M. Traylor, worshipful master; H. E. McLean, senior warden and C. H. Conroy, junior warden, representing the Blue Lodge; Hans Pahl, William E. Ringold, and A. J. Owen, representing the Royal Arch chapter.

## Work On Display

An attractive display of hand embroidery, crochet, painting and other artistic work done by the pupils of St. Joseph's Academy is shown today in the display window of The Peoples Warehouse. The display shows careful work and skillful execution. Particularly unique is a pillow embroidered in tapestry design, showing by solid satin stitchery a scene in which an Indian maiden is paddling a canoe.

## Maps Are Made

Maps showing the acreage of grain crops, hay crops and potato crops in Oregon have been prepared at the county agent's office and reveal many interesting facts regarding the size of the various crops. The cultivated land in Oregon is surprisingly small, the maps reveal. Oregon's entire farm acreage is no larger than Umatilla county's area and the area of 20 townships of Grant county, according to the maps.

## Wheat Good Near Condon

Chief Al Roberts returned this morning from Condon where he appeared before the grand jury yesterday in connection with a larceny case in which the man had figured in local police annals. The chief declares that wheat in the Condon district is in splendid condition. There were heavy rains in that vicinity four or five days ago, and the crops are booming. Prospects are that the yield will be excellent.

## Mary Motanic Dies

Miss Mary Jane Motanic, daughter of Parsons Motanic, well known reservation Indian, died today at 8 o'clock at the age of 22 years. Her death was caused by complications attending appendicitis. The funeral will be held Saturday at Tutuilla church. Miss Motanic was beloved among the Indians of the reservation and her death is regretted. She was a graduate of Chemawa and was prominent in the church work of the Presbyterian Indian mission.

## Natorium Opened Today

The city "Nat" was thrown open for the season this afternoon. Extensive repairs have been made on the building and the painting has not been finished. The inside work is far enough along, however, that the presence of swimmers will not be bothersome. The high dive is a feature that met with the approval of those in attendance. John Brown is custodian of the building. The pool was filled day before yesterday. The water was rather bracing, bathers on the first day reported.

## Will Discuss Wage Scale

Discussion of a wage scale for Umatilla county during the coming harvest is the object of a meeting of the labor committee of the Umatilla County Farm Bureau, to be held next Saturday in the office of Fred Bension, county agent. The wage scale adopted recently by the Sherman county Farm Bureau will be discussed and is as follows: Haying work, \$2; common labor, including header tender, sack jig, roustabout, box driver, hoe down, straw haulers, and wheat haulers, \$3; loaders, \$2.50; sack sewers, drivers, header punchers, oilers, drivers and sewers on small combines, truck drivers, \$4; caterpillar men, \$5; separator tender, \$8; cooks, \$3; picking up sacks and piling in field convenient for hauling with trucks, a cent and a half. All wages are very much lower than last year.

## MOTION IS DISCUSSED

SEATTLE, June 9.—(U. P.)—The sailing of vessels was unhampered by the strike. Court arguments on the government motion to secure a permanent injunction to prevent striking seamen and members of the marine unions from picketing the shipping board vessels, or otherwise interfering with the activities of the merchant marine was resumed before Federal Judge Jeremiah Netter.

Wheat—There was general buying early, stimulated by the bullish interpretation placed on the government report and continued rains in the southwest where cutting of wheat is just getting under way. There was an abatement in the demand until an advance of about 1-2 cents had been registered in the July delivery. Shortly before the close the market turned very weak based on the fear of adverse of about 1-2 cents had been registered in the July delivery. Shortly before the close the market turned very weak based on the fear of adverse legislation in Springfield. The situation at the moment is extremely confusing with so many factors of an influential sort that it is difficult to reach a definite conclusion. In favor of buyers there is a strong cash position, and possibility of a wet harvest retarding the early movement of the new wheat, and also railroad strike threatened. In opposition to these arguments there is the fear that legislation might interfere with marketing conditions, a serious depression in foreign exchange to prevent export business and an unsettled financial and industrial situation as evidenced by the extreme weakness in securities.

**MEN THREATEN WORKERS**  
 GREAT FALLS, Mont., June 9.—(A. P.)—Alleged threats of violence by union men against city garbage workers taking the places of men now on strike were reported here yesterday, according to police. A conference between city officials and the strikers resulted in a deadlock. Owners of a downtown store decided today to remove garbage at their own expense, it was said.

**SEARCH IS MADE FOR CONVICT**  
 LETHBRIDGE, Alta., June 9.—(A. P.)—Search is being conducted on both sides of the international boundary last night for W. Denyer, who escaped yesterday from the Lethbridge jail in the warden's automobile, after putting all other cars at the jail out of commission. Denyer was a trusty. He is believed to have crossed the border into the United States.

## MILITIA TAKES CHARGE OF PUEBLO UNTIL ALL EMERGENCY IS PASSED

City Cannot be Properly Managed With Both Civilian and Military in Authority.

PUEBLO, Colo., June 9.—(A. P.)—With the arrival of 200 additional national guardsmen, announcement was made here last night that all civilian guards on duty in the areas swept by the floods of last week will be withdrawn immediately and control of the city pass directly into the hands of the military until the emergency has passed. "A city cannot be properly managed with both civilian and military in authority in a situation like this," Colonel Hamrock said. "In this case the military authority must be supreme in police matters." In addition to these troops, 41 army trucks are on the way, well manned to aid in distributing supplies and in cleaning up. Will Construct Refugee Camp. A refugee camp that will accommodate several thousand persons today was ordered constructed at once, Colonel Hamrock has directed Major John I. Martin to organize the camp. A seven ward hospital is now ready. Colonel Hamrock said, and will accommodate 1000 persons in case diseases such as smallpox and typhoid fever develop into an epidemic. At present the number of these cases is not menacing, it was said. The Mexican population will be inspected daily by physicians. A military proclamation was issued today cautioning residents of the south side to use water for cooking and drinking purposes only. In the flooded district water may be used for washing out buildings also. Red Cross Makes Survey. A survey of the havoc wrought by flood here last week, was started today by the Red Cross. An effort will be made to ascertain the needs of every victim and emergency aid will be given to all persons unable to help themselves. The Red Cross, its officials said, will try to put everybody on a self-supporting basis and leave the rest to the local authorities. Telephone and electric light service were restored in a tentative way today. Local officials and relief work offices were connected up. Light, power and communication will not be on a normal basis again in less than two weeks, it was said. By that time local newspapers will be published on power presses again, their editors said. They are still issuing as hand-bills. Carloads of Food Destroyed. One of the difficulties in giving relief here is that several carloads of food standing in the railroad yards was destroyed, leaving little surplus. The city each day now must depend entirely on an uncertain railroad service for what it will eat the next day. Funerals to Be Held. Funerals of the unidentified dead are to start at once. Those, officials say, will be quiet and without ceremony in order that the sorrow may be put behind as soon as possible.

**ROMANS TO ENJOY SEASIDE**  
 ROME, June 9.—(A. P.)—The Roman people will soon enjoy a pleasure of the Caesars. The seashore is to be brought so near the city that a Roman can live on the seashore and com-

mute to Rome. A new electric rapid transit line between Rome and Anzio, which Nero had his seashore palace, will soon be put in operation. The journey is expected to take but 45 minutes while trains will be run every half hour. The undertaking will be affected by electrifying the present state railroad which runs to Anzio.

## MARKET INTERIOR LUMBER.

SYDNEY, N. S. June 9.—Suggestions have been made in Auckland that American timber merchants are attempting to dump quantities of second-grade Oregon pine on the New Zealand market at extremely low prices. If this is allowed local millers claim, conditions will be the same as they were in 1907 when local timber men were unable to market lower grades of local lumber and consequently numbers of workers were thrown out of employment. Suggestions have been made that a duty be placed on lumber imported for building purposes.

**JUNE 15 LAST DATE TO PAY TAXES.**
