Hearing trials of cases in law and marrying people has been the business for many years of W. J. R. Beach, a justice of the peace at Forest Grove. He was recently elected for another six years, so he hasn't anything to worry him. Mr. Beach arrived here yesterday to attend the state encampment of the Grand Army of the Republic.

## DRUM CORPS MEN HAVE SEEN HISTORY MADE

J. K. Butler, department commander of the G. A. R., is the only survivor of the four Butler "boys" of Clinton Wisconsin, who enlisted to save the Union during the stirring days of the Civil War. Mr. Butler was under age when the war broke out but when he became of age he joined the 49th Wisconsin and was in the service for nine months. He arrived here today for the G. A. R. convention.

Mr. Butler's home is in Gladstone, Oregon, where he settled after coming from Wisconsin in 1907. He is a member of the G. A. R. drum corps which will play here tomorrow and uses the sticks he used while in service. There are seven drum corps members, two of whom, P. S. Vaughn, bass drummer, and W. H. Brooks, snare drummer, played at the funeral of Lincoln. E. R. Grant of Gladstone, leader of the corps, uses the sticks he used in playing "Hail to the Chief," when Lincoln reviewed the troops at Petersburg. T. M. Kellogg one of the fifers, played in the first Wisconsin cavalry when Jefferson Davis was captured.

Mr. Butler says he feels honored to be commander, but that he would not again be a candidate. He asserts that C. W. Williams, also of Gladstone, for the past 14 years assistant adjutant general, will be the next commander of the Oregon G. A. R.

its place as the parade moves past, and in this way, all the participants will have the opportunity to see the parade.

A special appeal has been made by Perry Idleman to the members of the American Legion to turn out in a body for the parade.

"Legionnaires show a tendency to remain out of parades," Mr. Idleman said today. "I hope that this will not be true during the encampment of our comrades, the G. A. R. It will be our last opportunity in Pendleton to pay them our homage, and men of the days of '17 should let nothing interfere with our plans to honor our comrades of '41 and '45."

## PORTLAND WOMAN GAINS 33 POUNDS

**Mrs. Chance Says That Was the Least of the Benefits She Received from Tanlac.**

"When I began taking Tanlac I weighed only a hundred and five pounds, but I now weigh a hundred and thirty-eight, a gain of twenty-three pounds," said Mrs. C. P. Chance, 546 Seixler street, Portland, Ore.

"Do I consider my big gain in weight the smallest of the benefits I have received from Tanlac," she continued, "for it relieved me of a case of stomach trouble that had completely wrecked my health.

"After meals awful pains would strike me in the pit of my stomach and almost drive me wild. Even the sight of food would often nauseate me and I would vomit up my food. My nerves were so badly upset that I would shake all over. My sleep was unsteady and I always got up in the mornings feeling sick and all tired out. I ached all over and had an awful pain under my shoulders.

"I got two bottles of Tanlac and before the first bottle was gone my appetite was better and I didn't feel sick when I got up in the mornings. Soon I began to gain weight and to feel stronger. I have taken several bottles of Tanlac now and don't believe I ever enjoyed such splendid health as I do now. I sleep like a child at night and feel well and strong all the time and I really weigh more than I ever did in my life before."

## CREATION OF LIFE ONLY SCIENTIFIC MYSTERY

WASHINGTON, June 13.—(Russell Browning, U. P. Staff Correspondent.)—If you are living a couple of hundred years hence don't be started if you see a sign something like this, "Smith, Jones & Co., Manufacturers of Rats, Rats, Birds and Humans. Name your species. Prices reasonable."

Professor Austin Clark, head of the biological department of the Smithsonian Institute, declared today that "scientists of the future will be able to 'manufacture men'."

Clark was asked to comment on the announced discovery by French savants of a method of creating organic life from certain quartz and meteoric stones.

"Maybe its true, maybe not," said Clark. "Many able scientists have been fooled into believing that they have created 'life.' Nearly every other scientific mystery of biology has been solved except this one supreme puzzle. It is now possible to construct all the organisms of a living creature. They are chemically and anatomically perfect—but they won't work when it comes to 'living.' If this problem has not been solved, it will be some day.

"If a primitive form of life can be modified, we now know that we could modify and develop that form to any form of higher animal life. The external circumstances that created the different species of life are now known and can be artificially applied. The reason that we cannot take the so-called simple forms of life now and develop them into higher animals is that there are no real primitive forms of life left on the earth. The simplest animals have developed from the common starting point into a tremendously complex being. A hundred million years of heredity has fixed its life form and traits until artificial modification is now very limited.

"This would not be true of newly created life. Such an organism would be tremendously impressionable. It would mould and develop under the stimulus of artificial conditions as plastic clay in the hands of the sculptor. Practically any form of life now existent could be created from this primitive cell.

"It would probably take a couple of million generations to produce an animal like a dog or man," said Clark, "but the length of life of each generation could be speeded up and the whole transformation got through within say 200 years.

"No doubt a lot of monstrous freaks would be created by mistakes in administering the stimulus."

## WINDY CITY PREPARES FOR HUGE PAGEANT OF PROGRESS IN JULY

**10,000 Singers Will Meet in Chicago and Participate in Coming Exposition.**

CHICAGO, June 13.—(A. P.)—Chicago is preparing to offer to the country its Pageant of Progress Exposition, to be held here July 26 to August 14.

The scene of the exposition will be the city's \$5,000,000 municipal pier, extending 2,000 feet into Lake Michigan. The exposition is primarily a great business show, but combined with the business and industrial display will be a gigantic amusement and entertainment program. The exposition will be the greatest event of its kind that this city has seen since the Chicago World's Fair.

Two great sheds, each 2240 feet long and 87 feet wide, on the upper deck of the Municipal Pier, will house the main portion of the exposition. Here will be placed the exhibits of furniture, shoes, furs, automobiles, both passenger cars and trucks, food products, clothing, building materials, office appliances, electrical devices, machinery, chemicals, dry goods, beverages and other products. Twenty-one republics of Central and South America will have exhibits of the products which they export to the United States.

Mayor Thompson, president of the exposition, a corporation not for profit, insisted from the first that the position be "twenty-five percent business and twenty-five percent cultural."

The naval reserves of six lake states will hold their annual summer practice maneuver off the Municipal Pier during the exposition. Five gunboats, three destroyers, and a craft with full crews of members of the United States naval reserves, will participate in sham battles and naval evolutions.

At a song festival more than 700 church choirs and singing societies, including in their membership more than 10,000 trained singers, will take part. At night 1,000 singers will be placed on each gunboat. The gunboats will be ranged in a circle off the pier, and on a barge in the center of the circle will be a band of 200 pieces, directed by a leader with an electrical-lighted baton, which will accompany the great chorus in popular and patriotic songs, in which the entire crowd on the pier will be invited to join.

## MOTION PICTURE NEWS

**ALTA SUNDAY AND MONDAY**

Mary Miles Minter, the Realist film star who is now at the Alta Theatre in "All Souls' Eve," was brought up on a commendable dramatic diet of Shakespeare and Browning. At the age of eight the young star, then a child actress, could repeat whole plays and poems without a break.

"Classical training is invaluable to persons with dramatic inspirations," says Miss Minter, "it affords a solid, worthwhile foundation that one can get in no other way. Every girl who hopes for a screen or stage career should know her Shakespeare thoroughly."

**ARCADE SUNDAY AND MONDAY**

The beautiful Yosemite Valley, one of the famous garden spots of the world, formed the background for many of the exterior scenes filmed for Wallace Reid's latest Paramount picture, "The Love Special," which will be presented at the Arcade theatre Sunday and Monday.

Mr. Reid and his company under the direction of Frank Urson, went to the location where they remained for more than a week getting the necessary "shots" and when the company returned to the studio, a replica of the interior of the inn was made.

The new picture, which is an adaptation of Eugene B. Lewis of "The Daughter of a Magistrate," a story by Frank H. Spearman, is a big outdoor production on the order of "The Valley of the Giants," in which Mr. Reid starred two years ago. In this he plays the role of a railroad construction engineer—a real man, big, virile and thoroughly western. The delightful romance is enhanced by the presence of Arnes Ayres in the leading role. Miss Ayres will be recalled in several recent notable productions, including "Held by the Enemy," "The Furnace," and "Forbidden Fruit."

Others in the cast are Theodores Roberts, Lloyd Whitlock, Sylvia Ashton, Alexander Gaden, Clarence Burton, Ernest Butterworth, Snoot Edwards and Zelma Mads.

**Chamberlain's Colic and Diarrhoea Remedy.**  
Every family should keep this preparation at hand during the hot of the summer months. It is almost sure to be needed, and when that time comes, is worth many times its cost. Buy it now.

**Why Suffer from Rheumatism?**  
Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism.

**The Home of the Soul**  
In olden times it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They only cost a quarter.
