**MARJORIE**

The house is as it was when she was here. Yet here are her possessions as they were.

There's nothing changed at all about the place; The books she loved to read are waiting near. As if tomorrow they would see her face; Her room remains the way it used to be.

Here are the puzzles that she pondered on; Yet since the angels called for Marjorie. The joyous spirit of the home has flown.

All things grow lovely underneath her touch. The room was bright because it knew her smile. From her the tiniest trinket gathered much. The cheapest toy became a thing worth while.

**OUR TENANT FARMERS**

IN Umatilla county 24.2 of the farms are operated by tenants, according to statistics compiled by the last census. In the number of tenant farmers this county is fourth from the top in Eastern Oregon.

Comparative figures on the number of farms operated by owners and by tenants are contained in the following table.

| Counties  | Operated by |         | Pct. by Tenants |
|-----------|-------------|---------|-----------------|
|           | Owners      | Tenants |                 |
| Baker     | 1275        | 219     | 14.5            |
| Crook     | 510         | 49      | 8.7             |
| Deschutes | 640         | 105     | 14.             |
| Gilliam   | 300         | 139     | 30.6            |
| Grant     | 647         | 64      | 8.8             |
| Harney    | 521         | 47      | 8.              |
| Jefferson | 289         | 277     | 48.4            |
| Malheur   | 1075        | 213     | 16.1            |
| Morrow    | 57          | 113     | 16.3            |
| Sherman   | 255         | 201     | 43.7            |
| Umatilla  | 1739        | 570     | 24.2            |
| Union     | 1031        | 236     | 18.5            |
| Wallowa   | 918         | 219     | 19.1            |
| Wasco     | 1098        | 206     | 15.14           |
| Wheeler   | 333         | 20      | 5.6             |

The Umatilla reservation, with its large amount of leased land, tends to run up the tenant percentage in this county. In Sherman county, where the percentage of tenant farmers is heavier than here, the situation is largely due to the large amount of land still owned by the Eastern Oregon Land Co., which holds the remnant of the military road grant. In Umatilla county 44 ranches are listed as operated by managers.

**FEDERAL EXPENSES HIGHER**

NEWS that the government expenditures are within the federal income is encouraging (if really true) but does not mean there has been any reduction in federal expenses or taxation. At least as much may be assumed from recent remarks in the senate by a noted republican leader, Borah. The following is from the record:

"I wish to ask our republican friends on this side of the chamber what are you going to do about the question of economy? What is your program? What is your plan? There is no provision anywhere for reducing expenses or reducing taxes. . . I should like to know, in view of the constant discussion of the question upon the part of republican leaders that the taxes are now unbearable and that they must be reduced, when and where are they going to reduce them? Where is the program?"

Senator King (Dem., Utah) interrupted to say:

"The senator from Utah (Mr. Smoot, Rep.) stated that there would be an increase, so I say to my republican friend from Idaho that his party not only will not reduce taxation and not produce economies, but increase taxation and will increase the expenses of the government."

"That is not the kind of doctrine I wanted to hear, but I am afraid it is true," replied Senator Borah.

Nor will there be any real reduction in federal expenses until the world gets some sort of effective program for insuring peace and disarmament. More than 90 per cent of all federal expenditures is for war purposes, direct and indirect, and this state of affairs will continue so long as Uncle Sam persists in a policy of isolation.

**AMPLE HARVEST LABOR**

ADVICES received by the department of agriculture from its agents in the field indicate that there will be no general shortage of labor for the wheat harvest, and that in some areas there will be a decided surplus.

In Kansas, where the harvest begins about June 15 in the southern tier of counties, the supply of labor is already in excess of the demand. In that state wages for shockers do not run over \$3 a day with board and lodging.

In Texas, where harvest is already in progress, there seems to be labor enough to meet all demands, with the possible exception of the "Panhandle" district. In Texas harvest wages run from \$2 to \$2.50 a day.

In the northern wheat states the situation has not yet developed sufficiently to make possible reliable estimates as to demands for outside labor, but it seems probable that the labor market will be comparatively easy in most localities, with the prevailing wage not over \$3 a day.

The Til Taylor memorial fund is in safe hands and is drawing interest with the result the fund is growing. It is more important that this fund be expended, when it is spent, for the purpose intended—the honoring of our late sheriff's memory, than that it be quickly spent. The East Oregonian has no patience with those who would use this fund in a manner that would bring criticism upon Pendleton.

Portland people took the bit in their teeth Saturday and voted down a school levy even though it had been pared to such an extent it was regarded as insufficient to carry on the schools next year. Portland has been growing too fast. It would be better all around if about 100,000 people in the metropolis would scatter out over the state and get some real life.

**14 MILES OF TRAVEL COST CYCLIST A CENT FOR GAS IN TRYOUT**

**Goodyear Tires Used When New Low Record Was Made on a California Track.**

Fourteen miles for a cent! Sounds like kiddin', doesn't it? 'Tis hard to believe but 'tis true.

For super economy Otis Hackett, a motorcycle rider of Santa Ana, California, has just hung up a mileage record that eclipses anything heretofore known in the motor vehicle world.

Mounted on an Indian scout model machine, Hackett covered 14 laps over a 5.4 mile measured course—57.2 miles—on a single quart of gasoline, making the best showing of ten crack riders entered in the Orange County Motorcycle Club economy test.

With gasoline at 27 cents per gallon the new record shows a cost of 6 2-4 cents for the 57.2 miles—14.4 miles for a cent. At this rate Hackett could have traveled 288.8 miles on a gallon.

When compared with existing figures the new mark sounds so preposterous that even the most enthusiastic motorcyclist might well doubt its authenticity were it not for the official report of the judges of the contest.

At the start all gasoline tanks were drained and a quart of fuel supplied in sealed cans. This was poured in an improvised auxiliary tank lashed to the machine and fed directly into the carburetor, thereby precluding any possibility of "fixing" a standard tank.

Sharing in the new economy record were the Goodyear tires with which Hackett's machine was equipped. Their tractive and power saving properties added greatly to the victor's success.

**DYNAMITE DISCOVERED IN SHACK NEAR CAMP**

TACOMA, June 20.—(U. P.)—Camp Lewis authorities are mystified over finding a cache of 150 pounds of dynamite in a deserted shack behind the camp remount depot and the hasty flight of three rough looking civilians when an army officer chanced upon their rendezvous. It might have been bomb plotters, bank robbers or jail breakers. One theory is that the discovery has frustrated a plot to blow up the cantonment buildings. An artillery private found the cache two days ago and notified the officers. No arrests have been made.

**PASTIME SUNDAY AND MONDAY GLADYS WALTON COMING IN 'ALL DOLLED UP'**

Gladys Walton, the heroine of "Pink Tights," "Rich Girl, Poor Girl" and other recent successes, will be seen at the Pastime Theatre next Sunday and Monday in "All Dolled Up," a story by John Colton produced for Universal under the direction of Rollin Seargeant.

"All Dolled Up" concerns a pretty little shop girl and a rich spinster whose love affairs become strangely involved. As the story opens the shop girl is seen selling a very frisky trousseau to the spinster who whispers to her that she is to marry Nedolphi, the famous tenor. Poor little Maggie, the shop girl, smiles enviously, for the only approach to love which she had experienced was the suggestive advance of the sleek floor walker.

**ALTA SUNDAY AND MONDAY**

Elizabeth Meehan Williams, who appears in "The Plaything of Broadway," Realart's second starring vehicle for Justine Johnstone, was the center of a maelstrom of comment last summer concerning the appearance of women in public in bathing costumes.

Miss Williams, one of the best known American women swimmers, was in charge of the municipal bathing beach at Detroit. Daily lessons were given there to women, and to excite interest in the beach and its advantages Miss Williams and city executives planned a mermaid's frolic.

Many of Detroit's best known daughters agreed to appear in the frolic, which included a parade through the business section of the city. The parade was staged, the participants, in costumes a la Mack Sennett, riding on large trucks.

**PRIEST DIES AT 102**

WINNIPEG, Man., June 20.—(U. P.)—Father Demase Dandurand, said to be the oldest Catholic priest in the world, is dead at St. Boniface, a suburb of Winnipeg. He was 102 years old. Father Dandurand was born at La Prairie, Quebec, in 1819. The record of his birth is still in the parish archives. He was appointed to Ottawa in 1844 when the present capital of Canada was known as Bytown and labored there thirty years. He came to St. Boniface in 1875. Winnipeg, across Red River, was a group of cabins under the walls of Fort Garry. The young priest saw the buffalo vanish and the settlers come. He saw wigwag villages give place to towns and cities and the prairie wilderness change into prosperous farms. On his 100th birthday two years ago, he celebrated his mass in St. Boniface cathedral. He was present a little later at the reception of the Prince of Wales in Winnipeg.
