Willis' Uncles See the President

Frank B. Willis, Ohio senator, is showing the sights of Washington to his four uncles. Left to right they are John B. of Boston, Brainard, Senator Frank A. and E. K. Willis, all of Delaware, O. The youngest of the uncles is over 80. Snapped at the White House where they shook hands with President Harding.

THE OLD HOME TOWN

By Stanley

THIRTY-TWO YEARS

The American National Bank is long past the experimental stage, at the age when it might be considered, speculative. It has stood up under the most trying conditions and every time has come through a stronger financial institution. Such a bank which has stood the test is the best one for your money. The American National is especially equipped to handle commercial accounts.

AEROLUX
VENTILATING
Porch Shades

More Home to the House

THE PORCH SHADE OF GREATEST SERVICE, ECONOMY AND COMFORT

Quality Porch Shades are an investment in comfort—not a luxury. This year of all times be careful of the porch equipment you buy. You want shades which will not only look well while new but which will stand up under the strain of this year's use, next year's and the years to come. Such are the AEROLUX Shades and we heartily recommend them.

Besides durability there is more genuine satisfaction in AEROLUX than any other porch shade we know of.

With the "Hang Easy" attachment anyone can install them in less than five minutes' time.

Spines uniform in width and uniformly woven form a scientifically correct fabric which gives absolutely uniform ventilation from top to bottom and ample protection against the weather—there are no loosely woven sections nor uneven spaces where sun and rain might enter.

Adjustable "No Whips," bend only on Aerolux, hold the shades securely in place and prevent them from whipping and flapping in the wind.

Both Copper Cord Glides, instead of sticking pulleys or rusting steel slides give a permanently smooth, clean surface for the raising cords—reducing wear and friction to the minimum.

They are smoothly finished—they are permanently stained in attractive, sunbony colors—there are also to fit every porch opening—and they are reasonably priced.

A complete line of Porch and Summer Furnishings awaits your inspection.

LIFE IN WILD NORTH IS SAFER THAN IN CITIES

SEATTLE, June 20.—(I. N. S.)—Life in Alaska is as safe as a federal reserve bank compared to the hazardous crossing of streets in Seattle, according to the belief of Andrew M. Taylor, who came "outside" for the first time this spring since 1898.

"Talk about facing perils in the North! Why, I'd rather drive a dog team across a glacier at 50 below than take chances of crossing Third avenue at Union street," he said. "And the noise! You folks seem to think you have got to be hardy to live up north. But I'd give anything to get out of here, where a person can hear himself talk."

Taylor came out to meet John B. Burnham, of New York, president of the American Game Protective Association, whom he will guide on a hunting and scientific expedition in Siberia. The party will go to Nome, then cross the Bering sea. They will return from

Siberia the same way and take the last boat down to Seattle about October 1. Burnham is in quest of a number of varieties of Siberian sheep not to be found on this continent, and plans to bring back specimens of these animals.
