NEWS OF FARM AND RANGE

500,000 POUNDS OF WOOL SOLD IN POOL OF SHANIKO GROWERS

Prices Range From 13 to 20 With Fine Stuff Taking the Premium Over Coarse Grade

The most important wool sale of the season was held at Shaniko yesterday. The clip of that section of the state was offered for sealed bids and

the sale attracted all the buyers and representatives of foreign and eastern mills. Five hundred thousand pounds were sold. Prices on good wool ranged from 13 to 20 cents at the opening, averaging 19 cents.

Thirty-one growers disposed of their wool at yesterday's sale. Seven buyers purchased 22 lots of fine wool amounting to 350,000 pounds, at prices ranging from 13 to 20 cents. Among those selling their clips were Ronald MacDonald of Astoria, who disposed of 29,000 pounds at the top price of 20 cents. This lot was bought by Mr. Sharp, representing the Boston mills.

Three lots of coarse wool, amounting to about 125,000 pounds, were sold for 13 cents, and the remainder of 125,000 pounds averaged 16 cents.

There has been no material change in the general wool situation this week. The eastern trade is closely watching operations in the west, where most of the business is now being done. Prices are on a steady basis and apparently the unsettlement of the securities market has not affected wool as it has some other commodities. The eastern mills continue generally

well occupied on old contracts and duplicate orders and prices are fully maintained. Spinners and combers report little change in the situation. Some of the handlers of foreign tops report continued demand for English fine tops at up to about \$1 for the best lots of 64s, which is about 19c under the market for domestic descriptions. Nevertheless, the combers are able to do some business and have been in the market for fine and fine medium wools of the territory types at about 70 cents, clean basis. The latest figures of the government on wool consumption for the month of April at 46,000,000 pounds bring the industry back to normal consumption, which has undoubtedly been maintained fully during May and June.

In noting the effect of the tariff law on the industry, the Merchants' National bank of Boston says:

"The importance of the emergency tariff act just passed, and of the permanent act to supersede it later, is indicated by the rapid increase in imports of manufactures of wool during the first four months of this year. Imports in April compared with those in January were, respectively, as follows:

Wool: Tops, 4,067,553 pounds against 371,530 pounds; woolen and worsted cloth, 1,494,930 square yards against 274,837 square yards; dress goods, 599,047 square yards against 405,220 square yards; yarn, 1,273,245 pounds against 126,658 pounds. It is expected that the pressure of this foreign competition will be reduced to some extent by the emergency tariff act, and more particularly by the permanent tariff act which is now pending in congress.

"Experts of manufacturers of wool have continued to decline in recent months, reaching new low levels in April."

From Mount a Top—J. L. Barker was here visiting and taking care of business affairs yesterday. His home is in Meacham where he is one of the pioneers. The pride of Mr. Barker's life right now is a fine five-acre orchard of many different kinds of fruit. Although the altitude is above 4000 feet and the orchard is located near the top of the crest, he reports that his crop this year will be a bumper. Apples, peaches, apricots, cherries and plums are among the different kinds of fruit which he will have in abundance.

Smythe Bros. to Ship—Twenty carloads of fat lambs will be shipped to the Chicago market June 23 by Smythe

Bros. Sheep Co. This will be the first shipment made by the local firm this season. The lambs are in good condition. Range is holding up in good shape, according to a statement by Dan Smythe. Ten days is the time usually required to make the shipment to Chicago.

Hard Federation Looks Good—J. A. Martin and Otto Reimann are conducting an experiment this year with some Federation hard wheat. This is their second year with the new variety and they are well pleased with the results secured so far. Last year they had eight pounds of seed from which they got a yield of nine bushels. In addition to this supply, they purchased another five bushels. Their acreage this year is 12 acres, seeded rather thickly which now promises to yield about 25 bushels.

Cut Wheat Hay—Umatilla county farmers are busy these days in cutting some wheat hay. On the lighter ground the wheat that is cut for forage purposes has already been cut in some varieties. The heavier wheat is also being "opened up" by the cutting of a swath around the borders of fields. The condition of the crop is good, and farmers are wanting moderate weather for another ten days. If real hot sunshine can be dispensed with until July 1 it is predicted that the output of the county will run to 5,000,000 bushels.

IRISH EARL KIDNAPED, CASTLE IS SET AFIRE

CORK, June 22.—(A. P.)—James Francis Bernard, the fourth Earl of Brandon, was kidnaped from his home at Bantry this morning by a band of men. Castle Bernard, his home, was set afire by the kidnapers. The Earl's whereabouts is unknown.

CORK, June 21.—(A. P.)—While the earl was being kidnaped and the castle fired, Lady Brandon and the servants were locked in a room adjoining the stables.

GETS NOTICE THREE TIMES.

WARSAW, June 22.—(A. P.)—Three different times Captain Merion Cooper, of Jacksonville, Fla., while in a bolshevik prisoners' camp in Russia for nine months, was notified that he was to be shot at sunrise. Then, for hours preceding the time set for the supposed execution, Cooper was grilled by Soviet authorities who pretended to believe that he was a representative of the American government. When the hour of execution came round no bolshevik appeared but Cooper was never notified otherwise, being left in suspense day after day until he escaped.

STRAWBERRIES ARE LOW IN PORTLAND MARKET

PORTLAND, June 22.—(A. P.)—Strawberries were selling in the retail markets today for \$1.10 crate. Many growers peddled their day's pickings from house to house.

SYDNEY. (By Mail to United Press.)—The commercial and business men of Japan are preparing a scheme for dumping Japanese manufactures into other countries especially Australia, according to J. B. Sutor, commercial commissioner in the Far East for New South Wales. Leading Japanese bankers have expressed themselves as obliged to create some activity in regard to exports in order to meet the abnormal trade slump. The dumping scheme was therefore put forth, the Japanese government at the

same time taking every precaution against the dumping of foreign goods into Japan.

YOUR SATISFACTION IS THE MOST IMPORTANT THING WITH US IN RUNNING THIS BUSINESS

Most people realize that a merchant cannot give things away; they know he has to make a profit; he isn't in business for his health. In the face of this statement we still claim we are giving you part of our profit by being satisfied with less than is usually exacted. This gives greater volume and after all we get the benefit. But you share in it.

We are pleased to announce the arrival of a new pattern in Dinnerware, made by the Me-Nicolls pottery of this country.

You will find a prevalence of grey in the decoration, which is the newest color to be used in dinnerware decoration. It will be a pleasure to show you this pattern. Reasonably priced, quality considered.
