NEW SPRING PROVES MORE VALUABLE THAN WAS FIRST BELIEVED

Extra Flow of Two Million Gallons Daily Forecast Will Tax Line Capacity.

That the new spring being developed above Thorn Hollow will provide approximately two million gallons of extra water daily for the water system is the belief of Frank Hays, engineer and superintendent who returned this morning from the construction camp.

The new spring will provide more water and better water than is being secured from the Chaplin spring or any of the other springs. After the new line is completed it is Mr. Hays' view that the city will have such a sufficient water supply that no further extension will be required for four or five years.

No name has yet been given to the new spring but it may be called the North Chaplin spring. The new source of supply was discovered by G. M. Rice and Frank Hays while on an inspection trip a year or two ago.

J. H. ACKERMAN TELLS OF NEED FOR TRAINED TEACHERS IN ADDRESS

Pres. of Oregon Normal School Says Teachers Must Meet Demand by Preparedness.

The need for trained teachers was stressed this morning by J. H. Ackerman, president of the Oregon Normal School, in an informal address to the students of the summer normal school which opened its sessions here Monday.

"The demand for trained teachers is sweeping the country," President Ackerman said. "The teacher must meet this demand by preparing herself or himself to meet requirements. Fifteen years ago, when a census was taken in Lane county, it was shown that 50 percent of the teachers had no training beyond the eighth grade. 'Since that time,' he continued, 'Oregon requires that teachers must have four years of high school work and at least 12 weeks of training beyond that.'

President Ackerman predicted that before 15 more years have passed, Oregon teachers will be required to have two years of work above high school. "Our Oregon laws," he said, "provide that in 1925, a teacher must have a year's training beyond the high school. Idaho legislation requires that in 1925 a teacher must have two years higher training. Portland asks that a teacher have a high school diploma, two years of accredited normal training and two years of experience. The increased salary schedule will follow the trained teacher, just as a higher fee goes to the trained doctor or lawyer."

Urges Earnest Effort. The earnest efforts of teachers to put themselves above the average was urged by the speaker. "Make the best of yourselves," he said. "Be the kind of teacher that makes your superintendent say, 'That teacher is the best employed in this county.' I heard Edwin Markham, American poet who wrote 'The Man With the Hoe,' say that he knew his poetry was good because anything was good when the man who made it did the very best he knew how with the material he had. Let it be so with your teaching."

L. L. Epley, president of Philomath College, gave a short talk in which he told how he first began teaching at a salary of \$25.33 a month and how the profession has grown since that time.

H. E. Inlow, city school superintendent, introduced the speakers and read the "Beatitudes" for the Scriptural reading. Miss Eugenia McNaughton, instructor in public school music at the normal, led the singing. The crowd of teachers in attendance filled the lower floor of the auditorium to the balcony.

The bankers friends declared he did not leave the building until after dark, in an effort to avoid publicity. He will probably not appear before the court to answer questions until tomorrow.

FIRE AT MYRICK DAMAGES WHEAT IN WAREHOUSES

Conflagration Starts From Grass Blaze Causing Loss of Approximately \$165,000.

OTHIE REEDER IS ONE OF HEAVIEST LOSERS

Train Service Over Northern Pacific is Interrupted Today, Rails Were Curled by Heat.

Damage to the extent of approximately \$165,000 was done last night when a fire, which started from a grass blaze destroyed four grain warehouses, an elevator and many thousand bushels of grain at Myrick's station, northeast of Pendleton.

The elevator was the property of the Myrick Elevator Co. and this company also lost one warehouse. Two warehouses were lost by the Pacific Coast Grain Elevator Co. and H. W. Collins had one warehouse destroyed.

The elevator carried \$18,000 insurance on its elevator, and the other buildings were insured.

Henry Eggers had \$500 bushels of wheat in the elevator on which he carried \$6000 insurance.

J. C. Hawkins had 1500 bushels with no insurance. John Peters had 1,000 bushels without insurance, and a like amount was stored by Fred Rhode, which was not insured.

Plan to Rebuild. H. W. Collins will rebuild his warehouse. Plans are already being drawn for the building which will be pushed to completion as rapidly as possible. It is thought that two weeks will be required to make an adjustment on insurance and to get lumber and material on the ground.

A statement from the Pacific Coast Grain Elevator Co. was to the effect that their buildings will be replaced by this company toward construction work.

One warehouse belonging to Collins was left standing, and the Myrick company still has one house that was not destroyed.

Guy Johnson said shortly after noon that a meeting will be called July 9 of the stockholders of the Myrick Elevator Co. to determine what action toward rebuilding should be taken.

Discovered at 11 O'clock. The fire was discovered at 11 o'clock by J. E. Wright, caretaker of the Myrick Elevator Co. who immediately telephoned the owners of the buildings and the Pendleton fire department. The small truck was taken to the scene, but on account of a lack of water, little remained to be done.

It is reported that the section men, who had failed to extinguish the blaze in the evening when it was confined to the grass, left Myrick and came toward Pendleton when they were awakened in the night and saw the extent of the fire.

NEW STATE NORMAL WILL BE INEVITABLE SAYS PRES. ACKERMAN

Hope for a permanent normal school in Eastern Oregon was held out today by President J. H. Ackerman of the Oregon State Normal at Monmouth in a talk before the Rotary Club at its luncheon today. The head of the state normal who is here to visit the summer extension school based his views on the fact the state is by law gradually forcing a higher and higher degree of training on the part of teachers.

As a result of these laws the time will soon come when the school at Monmouth will be unable to care for all who want normal training and will have a waiting list. It will then be imperative to provide one or more additional schools and the new school or schools will be ordered "just as the Eastern Oregon State Hospital was provided when the institution at Salem could no longer care for all of the state's insane."

Sir James Has Accepted Prime Minister's Invitation to Attend London Conference.

BELFAST, June 29.—(A. P.)—Sir James Craig, the Ulster premier, declined today the invitations from De Valera, the Irish republican leader, to meet De Valera in Dublin. The invitation was sent to the Ulster premier and four other eminent Irishmen outside of De Valera's party, asking them to meet him Monday. De Valera in replying to Lloyd George's invitation for a London conference indicated he deemed that Irish unity was essential to a lasting peace and said he was consulting the "principal representatives of our nation before replying more fully." Sir James replying to De Valera said it was impossible to arrange any meeting as he had already accepted the prime minister's invitation to the London conference.

Unofficial Armistice Expected. LONDON, June 29.—(Ed. L. Keen, U. P. However, a full of hostilities is expected, both sides expecting to get much from the conference. The raids continued in Cork yesterday.

Stated They are Ready Again to Defend Flag Against Sedition, Disloyalty, Treason.

DETROIT, June 29.—(A. P.)—Fifty delegates to the convention of disabled American veterans of the world war, invaded the socialist national convention today. They warned the socialists that the veterans are ready to fight again to defend the flag against sedition, disloyalty and treason. Ralph Horr, of Seattle, who led the veterans told the socialists that advocates of force would be met with force and invited the radicals to "step outside if they wanted to fight for their beliefs." He added "we have had occasion in Seattle to use machine guns to stamp out disloyalty, sedition and treason, and these guns can be used again." Cameron King, of California, a socialist, replying said that the socialists appreciate the sacrifices made by the disabled veterans, "at the same time we made sacrifices. We did not believe when war was declared it was a just war, and many of our comrades have been imprisoned. As American citizens we claim the right to free speech and free assembly and are going to stand on those rights." No disorder was reported.
