HOME DEMONSTRATION SEASONABLE SUGGESTIONS FOR BUSY HOUSEWIVES

“Why won't my jelly jell?” is a question repeatedly asked by the housewife.

Many women have the theory that it is because they use beet sugar, but no reason is known for such an effect, as experiment has proven again and again that chemically there is no bearing on congealing the acids which left in, and this is highly improbable in a refined product.

Fruits vary in their jellifying properties from year to year and from time to time with the season, degree of ripeness, and the like, so that from a record of tests issued in the Farmers' Bulletin 329, using beet and cane sugar, the results show conclusively that the two sugars gave equally satisfactory results.

Many fruits, delicious in flavor such as strawberries, pineapple, and peaches, if used alone, will not make a firm jelly because they lack pectin. If pectin is added to their juice, a firm jelly with the color and flavor of the fruit selected can be made. Pectin in large quantities can be obtained from orange and grapefruit peelings. Cut or scrape the yellow rind and add white jelly is boiling.

SEARCH IS BEING MADE FOR JAPANESE WOMAN

SACRAMENTO, June 29.—(U. P.)—A mysterious Japanese woman is sought in connection with the discovery of a human head in a valise floating in the canal last week. Clothing was found with the head, and a letter in Japanese in the pocket of the coat. Reverend Mary Bowen, pastor of the Japanese church, is aiding the sheriff's office in an attempt to establish the identity of the person to whom the head belonged.

The human head may be that of a Japanese woman who disappeared four months ago, according to information reaching Sheriff Ellis. The woman disappeared "under unusual circumstances." Sacramento Japanese are believed to be implicated in the case. A letter found in the valise with the head is being deciphered in an attempt to establish a clue.

THE "HEAL-ALL" OF THE INDIANS

There is an herb which grows wild on our Western Plains known as "Manzanita" and to which the Indians attribute wonderful curative and healing virtues.

There is no question but that nature has bounteously provided in the roots and herbs of the field a remedy for many of the ills to which human flesh is heir. This is demonstrated by the wonderful success of that root and herb medicine, Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been relieving women of America from some of the worst forms of female ills. It will certainly pay any woman who so suffers to try it.

JAPAN IS ASKED TO DELAY TREATY RENEWAL

LONDON, June 29.—(U. P.)—Great Britain asked Japan for three months delay in renewing the alliance, according to reliable information. ROOSEVELT PAID HIGH TRIBUTE TO STEFANSSON

Theodore Roosevelt said to Stefansson, the famous Arctic explorer who is to lecture at Chautauqua this year: "Stefansson, there are few men in the world whom I envy, but you are one of them."

Harpers' Magazine said recently: "All the world's heroisms has not been concentrated on the battlefields during the past years. While the war has engrossed the world's attention, this explorer has dared and won important bloodless battles against snow and ice and darkness. For five years Vilhjalmur Stefansson was extending the boundaries of the scientific world, his progress only guessed at by those who waited eagerly for news of him. For over a year he was given up for lost until the good news traveled southward that he was still alive.

"His success marks a new era in Arctic explorations. Like great military commanders, Stefansson has solved the problem of supplies. Heretofore explorers have been limited in their trips by the amount of food they could carry—depending upon eating their dogs on their return. Stefansson, traveling with a minimum of provisions, has lived off the land for months and returned with his entire crew of dogs in good health.

"He has explored and sounded 100,000 square miles of the Polar seas and has discovered new lands which will alter the map. In recognition of this service to the world, Stefansson has already been awarded gold medals by all the American Geographical Societies."

ENGAGEMENT TO SON OF AUTHOR IS BROKEN

NEW YORK, June 29.—(L. N. S.)—Friends of Miss Grace Helen Talbot, daughter of the late Roy Merrick Talbot, and a granddaughter of the late Thomas Talbot, one time governor of Massachusetts, have learned that her engagement to Robert Husted Chambers, son of Robert W. Chambers, the novelist, has been broken by mutual consent. Miss Talbot, who is a niece of Mrs. Victor Cannon, prominent in Manhattan social circles, has gone to Europe to spend most of the summer. Her aunt is accompanying her. The engagement of Miss Talbot was announced last winter. She is a capable sculptress. Mr. Chambers who is an undergraduate at Harvard, being in his junior year there, is said to be following in the footsteps of his father and is generally looked upon as a budding author.

YOUR SATISFACTION IS THE MOST IMPORTANT THING WITH US IN RUNNING THIS BUSINESS

Most people realize that a merchant cannot give things away; they know he has to make a profit; he isn't in business for his health. In the face of this statement we still claim we are giving you part of our profit by being satisfied with less than is usually exacted. This gains greater volume and after all we get the benefit. But you share in it.
