JEWEL WARNS MEMBERS AGAINST WALKING OUT

Labor Leaders Confronted by Big Problems But Will Attempt to Present Solid Front

CHICAGO, June 30 .- (U. P.)-Rall union leaders are pouring into Chicago from all over the nation. Even if the 12 percent cut of 2,000,000 rail em-ployees becomes effective tomorrow. the leaders are expected to answer the United States rail labor board action in slashing \$400,000,000 annually from the pay of workers, by preventing a tle up of the nation's transportation and will hold the men in line.

Rig problems are confronting the aders. B. M. Jewell, president of the tail department of the American Federation of Labor warned the membership that his organization is against walking out without authority and those doing so "might as well tear up their union card." In the case of the four big britherhoods, the heads will tote to accept or reject the cut. case of rejection, they will then take the referendum. Labor leaders will attempt to present a solid front.
