Bad Crop Reports and More Export Strengthens Wheat

CHICAGO, June 30.—(A. P.)—Wheat prices rebounded today with vigor from Tuesday's big fall. Much export business had developed and crop reports were the worst so far this season. The market closed strong, 4 1/2 to 6c net higher, with July \$1.25 1/2 to \$1.25 3/4, and September \$1.22 1/2 to \$1.23. Corn gained 3 1/8 to 5 1/8c and oats 1-2 to 3-8c. Provisions finished unchanged to 2c higher.
 Although some depression was shown at the outset in wheat, prices quickly began to climb and throughout the remainder of the session the course proved to be practically all toward higher levels. It was estimated that export sales overnight had totaled 1,250,000 bushels, and that further European demand was in prospect, for drought reports were at hand from Russia, Roumania, France, Argentina and Great Britain. The advices from Russia were so distressing as apparently to place that country altogether out of possibility as a source of supply this year. In addition, reports from the domestic spring crop belt left but little doubt that unless rains came almost immediately, the yield would be reduced at an alarming rate.
 Complaints of excessive dry weather in many sections gave rise to some anxiety in regard to corn, which caused an unusual bulge in values and oats were hoisted as a result.
 Provisions averaged higher with hogs and grain.
