#### HOW BIG IS A HOUSE?

By Dorothy Canfield Fisher, Author of *Underwood Betsy*, *The Brimming Cup*.

The lecturer was describing and advocating modern, humane and intelligent methods of dealing with young children. As he passed for an instant, a grim-faced woman rose up. "Will you answer me one plain question?" she challenged him. "This shilly-shallying with children is all right at times, but there are times when nothing but a good spanking will do. What do you do when a child stamps his foot and says 'I won't do it!'"

The lecturer waited. The questioner added nothing to her question. "Do you call that a plain question?" he asked in an incredulous tone, as though he could not believe his ears. "I certainly do," she said with satisfaction.

"Well, Madam," said the lecturer. "I will answer that plain question if you will answer one of mine. How big is a house?"

The woman stared. "That's not a plain question. What sort of a house?" "Ah!" said the lecturer. "You can't answer me till I have told you what sort of a house? Well, I can't answer you till you tell me what sort of a child."

"I don't see what that's got to do with it," said the woman, but some-what taken aback.

"Well, here's a case. A little child of three, very nervous, sensitive, recently over an illness, has been on a long, hot railway journey. At the end, exhausted from lack of sleep, excited to the point of distraction by the noise and a thousand fears he cannot explain, with a beginning of stomach-trouble from the irregular meals, he is told by someone who does not understand little children to carry a satchel much too heavy for him. Perhaps you would expect a three-year-old to say, under such circumstances, 'I'm sorry, but I'm not feeling very well and it is really quite beyond my strength.' But I don't blame him a bit for stamping his foot and screaming. And certainly he does not deserve the same treatment as a loutish boy of fourteen who refuses to obey a reasonable request. And yet you expect some answer that will be the same for both those cases."

Every child is different from every other child, and only his mother is in a position to know how to take him. All sets of circumstances are different from all others and only those who know all about the case have any chance in guessing what is the right thing to do. You must do that most difficult of all things, think, and think hard, before you know what is the right thing to do. But before you begin to think just remember that if a child stamps his foot and says "I won't," to you it is because you have brought him up wrong. When you see a dog that habitually snarls and shows his teeth, you do not say "What a disagreeable nature that dog has." You say, "Heavens! what a brutal master the poor creature must have had."

"Into the twilight of the world are launched each year myriads of tiny ships. Under a sky of clouds and stars they group out to the great waters and the great winds—little sloops of life, on whose voyage the future hangs, they go forth blind, feeling their way. Mothers, and you who will be mothers, and you who have missed motherhood, give them their chance."—John Galsworthy.

The Kindergarten through right development of the God-given powers of mind and soul provides for these little voyagers and guiding influence, by which to attain the inalienable right to life, liberty and the pursuit of happiness.

An eastern circus organization will tour the country this year in motor trucks costing from \$12,000 to \$20,000 apiece. It is estimated the saving in rail charges will go a long way to pay for this equipment. The motorized circus will be able to travel anywhere and, being independent of train service can make towns not often visited by large shows.

#### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

### HOW WOMEN OF MIDDLE AGE

#### May Escape the Dreaded Sufferings of that Period by Taking Mrs. Block's Advice

Hopkins, Minn.—"During Change of Life I had hot flashes and suffered for two years. I saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and got good results from taking it. I recommend your medicine to my friends and you may publish this fact as a testimonial."—Mrs. ROBERT BLOCK, Box 542, Hopkins, Minn.

It has been said that not one woman in a thousand passes this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sinking spells, spots before the eyes, dizzy spells, nervousness, are only a few of the symptoms. Every woman at this age should profit by Mrs. Block's experience and try Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health. Your letter will be opened, read and answered by a woman, and held in strict confidence.

### TAX LEGISLATION MAY PRECEDE THE TARIFF

WASHINGTON, (July 2.—U. P.)—Senator Watson of Indiana, said the tax legislation may precede the tariff, following a dinner with the president. "I am inclined to believe the tax legislation will be first adopted, he said. "They may hold the tariff bill in the finance committee after it passes the house until the tax bill has been passed and then give the tax bill preference. The country wants the tax bill and is entitled to it," he declared. "It will be mistake if congress does not put taxation ahead of tariff." Representative Blanton of Texas, demanded in the house that the tariff bill be delayed until September first.
