MAN WHO 'KEPT TRACK' OF A. E. F. FOR GENERAL PERSHING WILL BE EXECUTIVE SECRETARY FOR SOLDIER AID COMMISSION

Harry Brumbaugh, who as a lieutenant and later a captain attached to the general headquarters of the American army in France, kept track of the A. E. F., is the executive secretary of the commission that will administer the world war veterans' aid bill passed by the people recently.

This information was brought home this morning by L. J. M. Rice, local member of the commission. The selection of the executive secretary is considered a very important matter as the secretary will have charge of a vast amount of work for the commission. Mr. Brumbaugh is an employee of the Portland Railway, Light & Power company and is regarded as a highly competent office executive.

One of the pressing duties of the commission consists in the appointment of over 140 appraisers in various parts of the state. These men will pass on applications for loans after the applications have been made to the commission and referred to the local appraisers.

It is probable several months will elapse before the commission will be organized.

The money the government actually spent was insufficient to keep the railroads in good condition due to the inefficiency of the workers employed and the rail attorneys are contending that Davis is insisting the claims be settled for 46 per cent of the amount demanded.
