Your Old Furniture Taken in Exchange as Part Payment on New Exclusive Agents in Pendleton for Aerolux (No Whip) Porch

3.00@ 4.75 | Yesterday but the advance was mater-5.00@ 5.50 tally impaired by profit-taking sales before the close. Shorts also opposed the recovery, basing their operations largely on the belief that industrial conditions were still subject to down-

ward revision. The most constructive development was the announcement by Secretary Mellon that the railroads would receive additional advances, amounting to about \$500,000,000, before the expiration of the year.

Leaders of yesterday's rebound, especially foreign oils were under pressure throughout the day, although Mexican Petroleum at one time managed to rise moderately from its 2 % point reaction.

Steels and equipments, also motors oppers, leathers and textiles, registered gross advances of 1 to 3 points, but broke sharply with some of the food specialties in the later dealings. Marked heaviness was shown by American Woolen and American Sugar. Sales amounted to \$35,000 shares.

Further release of July interests and dividend disbursements contributed to the ease of the money market, al-though all call loans on the exchange again were made at 515 per cent, despite the lower rate in the open mar-

Bealers reported very light trading in foreign exchange, a firmer tone pre-vailing, however, for sterling and the leading continental rates, with moderate reactions in Swiss and Scandinavian remittances.

Liberty bonus were irregular, but peculative or convertible rails bardened again on the better tone of transportation shares. International Issues were dull and featureless. Total sales par value, \$12,275,000.

Black Rust Helps Price of Wheat

CHICAGO, July 8 .- (A. P.)-Bullsh crop reports from North Dakota, together with black rust in Manitoba and Saskatchewan did a good deal yesterday to lift the price of wheat. Closing quotations were strong, 3 to 5c net higher, with September \$1.20 % \$1.29% and December, \$1.23 to \$1.23 %. Corn advanced 1 7-8 to 2 1-4c, oats 1 @ 1 1-2c and provisions 10 to 20c, Wheat values began to ascend as soon as trading got under way. The chief initial impetus came from advices that on much acreage in North Dakota the crop had been almost entirely destroyed by drought and that in some other parts of the state the quality had been injured. Bulls put emphasis, too, on disappointing threshing returns from Ohio, Indiana, Illinois, Iowa and Missouri. It was estimated that deterioration in Missouri amounted to 10,000,000 bushels compared with the prospect a month ago. Such conditions made the market in the later trading more sensitive than has been usual of late regarding black rust news. The chances of harm from black rust north of the international any member as his personal guest boundary were said also to be greater What we can't understand is why

ish influence on corn. Oats, like wheat, were affected by adverse threshing returns.

Provisions advanced readily with grain and hogs.

CAPPER-TINCHER BILL TO BE REPORTED OUT

WASHINGTON, July 8 (U. P.)-The senate agricultural committee has ordered a favorable report on the Cap per-Tincher anti-grain gambling bill fesigned to eliminate the boards of trade grain gambling, through heavy speculative transactions. The committee amended the bill to prevent oncerns conducting a wire trade outside "contract markets" from operating. They adopted an amendment permitting farmers' cooperative as fations to become members of the oards of trade, to distribute patron igo profits to members despite the iles of the boards. The committee appointed the secretary of agricul-ture, the secretary of commerce and

******************************** When the Emergency Demands the Unusual

There come times in the life of every car owner when the instant readiness of his car is the most important thing in the day, perhaps in a whole life.

"Ready to go, able to get there," should be the unfailing answer of the car in such a crisis. Value of car performance at such times runs past any

money estimate. In that connection bear in mind that only the dealer who sold you the car can guarantee its constant roadabilitys We have equipped ourselves with the many things necessary

to discharge this dealer-obligation. BUICK
