

# News Notes of Pendleton

**CALENDAR OF EVENTS**  
 June 27-August 5—Summer Normal School.  
 July 10 to 16—Ellison-White Chautauqua.  
 September 22, 23, 24—Annual Pendleton Round-Up.

### Installs X-Ray Machine.

A new machine for securing X-ray pictures is being installed in the dental offices of Dr. R. B. Robbins. The machine is the latest type of Victor manufacture.

### C. H. Gram Here.

C. H. Gram, state labor commissioner, is here from Salem to investigate a number of complaints filed with his department. While here he will investigate labor conditions also and will visit other Eastern Oregon towns.

### Dr. Lytle Chosen.

Dr. W. H. Lytle, who is well known here, has been selected state veterinarian by the members of the Oregon State Livestock Board. K. G. Warner, of this city, is the new vice-pres-

ident and other members of the board are Walter Taylor, of Corvallis, president; J. R. Cole, Molalla; Jay Dobbin, Joseph; William Pollman, Baker; B. T. Sims, Corvallis and Harry West, Scappoose.

### Has Sprained Wrist

Charles Despain is carrying his right hand in a sling as the result of an accident which occurred yesterday while he was cranking his Ford. His wrist was badly sprained in the attempt.

### War Pictures Interest

"Flashes of Action," the official films of American troops in action in France, which will be shown for the last time at the Arcade theater this afternoon and tonight, pleased the audiences that saw them yesterday. The pictures were taken by the signal corps, and about every phase of the activities of the army is touched on in the five reels of film. The efforts of the anti-aircraft forces to bring down enemy planes, the charging of tanks as they lumber out over No Man's Land, the firing of the artillery, and the charge of the infantry forces as they storm enemy positions, bring a real thrill to the spectator.

### Weather Cooler Today

The weather is much cooler today, the maximum being only 82. The minimum last night was 42, and the barometer, says Major Lee Moorhouse, registers 29.70.

### To Repair House

A building permit calling for the repairing of her house on W. Webb was taken out this morning by Mrs. M. Baumgardner at the office of the city recorder. The estimated cost of the work is \$50.

### Are Sent to Tollgate

Charles V. Goddard and Frank Bloss, ex-service men who are to be employed on the Umatilla Forest Reserve during the summer months, left today for Tollgate. They will do forest patrol work.

### House Is Ransacked

The Mack Foster residence, 413 Bush, which is occupied by a group of Pendleton young men, was entered last night by some unknown ransacker. The occupants discovered today that the house had been ransacked, but nothing was missing.

### Soldiers Want Work

A number of soldiers now stationed at Camp Lewis are about to be discharged on their own request and they have written to the Pendleton Commercial Association for information as to the chances for getting work here after they are discharged. They declare that they will do any sort of labor and express an interest particularly in fruit work.

### Asks Building Information

About how many buildings of all kinds would be required in Pendleton and Umatilla county in order for the vicinity to feel amply provided in this respect? That is the question which the Building Age, published in New York, wants to know. The survey being made covers the whole country, and the Commercial Association has been requested to report on conditions as they exist here.

### About Ready to Harvest

Frank Snyder has been farming in Umatilla county for many years but he says he has never seen the wheat crop look any better than it does this year. He has 800 acres that will soon be ready for harvesting operations. From present indications he thinks harvesting will begin on his ranches sometime between July 15 and 18. Some of the wheat on the hills is ready now, but the crop in the gulches is not hardened enough to make it safe to do the harvesting. His holdings are north of Pendleton.

### Visits Livestock Men

To see at first hand just what the condition of cattle, hogs and sheep are and to talk with the growers is the mission of Norman S. Gallison who is connected with the division of analysis and research of the federal reserve of San Francisco. He arrived in Pendleton this morning and went to the southern part of the county. He will attempt to determine just what the needs of this branch of the industry are, and the information gathered will be used by the federal reserve later. He has already worked over the greater part of the coast country and will go into southern Idaho from here.

### Will See Grant County Roads

For the purpose of getting first hand information about the condition of the John Day grade, general road conditions in Grant county affecting Umatilla county and trade possibilities involved a local party will leave for the south tomorrow morning. The party was organized by the East Oregonian for investigation purposes and those making the trip will be County Roadmaster Shannon, Pat Loneragan, Bob Saunders, "official photographer" for the party, John Dunning and E. B. Aldrich. Mr. Saunders is an expert amateur photographer and his pictures will be one means used to acquaint local people with the conditions met with.

### MYSTERY OF TOMB OF ROOSEVELT ANCESTOR HAS BEEN SOLVED

SAVANNAH, Ga., July 9 (I. N. S.)—The mystery of "The Serpent Tomb" in Colonial cemetery has been solved. In this old burying ground, in the center of the downtown district of Savannah, for many years visitors have viewed with interest an unmarked obelisk, on each side of which a serpent twined to form a circle was the only inscription. Visitors have been entertained by strange stories of its history. One of the favorite tales was that it was erected to the memory of a young man who lost his life in a duel and whose last request was that his name should not be inscribed upon his tomb. Other stories had it that the stone marked the grave of Burton Gwinnett, one of the signers from Georgia of the Declaration of Independence.

Now the tomb bears the inscription:  
**Hall's Catarrh Medicine**  
 Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

### LADIES

When irregular or suppressed use of Triumph Pills, safe and dependable in all proper cases. Not sold at Drug Stores. Do not experiment with "Relief" and particulars, it's free. Address: National Medical Institute, others; save disappointment. Write Milwaukee, Wis.

### BELGIUM ADOPTS MORE STRINGENT 'DRY' LAWS

BRUSSELS, July 9 (I. N. S.)—Belgium is about to take another step in the direction of prohibition.

Minister Vandervelde, it is announced, will shortly introduce a bill prohibiting the sale in bars, restaurants and cafes of "heavy wines," such as port and sherry. The new measure will not interfere with the sale of beer or light wines, but will be modeled after the law enacted about 18 months ago, suppressing the sale in public places of whiskey, cognac and other hard liquors though permitting their sale for consumption at home.

**BUSINESS CONFIDENCE**

One of the pleasures of every commercial transaction is the element of BUSINESS CONFIDENCE which enters into it. It is the one compelling thing that substitutes a spirit of friendliness for what would otherwise become a sordid, cold, calculating procedure. It is the inspiration leading to honest dealings from every standpoint and therefore becomes the fullest measure of protection for everyone concerned. That we enjoy the BUSINESS CONFIDENCE of this section is our best cause for personal congratulation and we shall always hope to merit the faith placed in us.
