#### Premier Accepts Invitation

LONDON, July 11.—(U. P.)—Lord George virtually accepted the United States invitation to a disarmament conference addressing the house of commons, he said he "welcomed with the utmost pleasure President Harding's wise and courteous initiative. There will be no lack of effort on the part of the British empire to make the proposed conference a success." He declared the world peace depends more upon peace between the United States and Great Britain than upon any other single factor.

#### University President Approves

STANFORD UNIVERSITY, Calif., July 11.—(U. P.)—David Starr Jordan, chancellor emeritus of Stanford University, told the United Press that "President Harding's disarmament conference would be called the greatest world peace move since the destruction of German militarism. Most of the trouble and suspicion in the Pacific has been caused by the Americans, English and Japanese anxious for large armaments. It should be easy for those three to reach agreements, making the Pacific like the Great Lakes."

#### France Considers Accepting

P.)—The French government is considering President Harding's disarmament call has been learned, following Selden Whitehouse, the American charge d'affaires visit to the French foreign offices. #### FRUIT GROWERS

(Continued from page 1.)

Wets. The Pacific coast market condition is hurt through its marketing limitation, the delegates declare, following the morning session when the convention was organized following Mayor Baker's welcome. H. L. Hull of Yakima was elected secretary of the association, and W. B. Armstrong making one of the principal addresses of the morning was elected chairman.

#### Waste Is Fruit Marketing Question

Responding to the mayor's address of welcome, Armstrong said: "The nations greatest problem is the distribution of food produce with minimum waste, and maximum regularity." Professor Cornish of the Oregon Agricultural College said: "Waste is the first marketing question. Between 20 to 30 percent of perishable production rots on the farms and another 20 per cent decays before reaching the consumer. The character of perishables from overproduction is the cause of the waste. Fluctuation of prices cause bumper crops to rot, the farmer being unable to produce at a loss. Acreage regulation is one solution."

The meeting closes Wednesday afternoon. Numbers of technical papers will be read.

#### "PROXIES" UNUSUAL PHOTOPLAY

Unusual, novel and appealing is "Proxies," the new cosmopolitan-Paramount picture, which will be shown at the Arcade Theatre today. The story has to do with a former convict who lives straight, but finds it hard to do so and who actually commits a hold-up and risks imprisonment to save his benefactor from financial ruin to the wily schemes of another man to simultaneously make a fortune and to break into society. There are many thrills throughout the action which takes place in a palatial home in which Peter, the hero, is the butler. As a result of highly dramatic circumstances, Peter proves himself a real man despite his prison record which is raked up for the purpose of ruining him. This role is played by Norman Kerry, who has appeared in support of numerous stars, and who is well known to Paramount picture audiences. Eena Virginia Kiefe, the leading woman, has a highly sympathetic role. The picture was directed by George D. Baker from his own scenario based upon the story by Frank R. Adams.

### MRS. JOHNSON NOW GIVES TESTIMONY

For Years This Portland Woman A Dreaded Mealtime—But She Now Eats Anything.

"The first thing Taulac did for me was to give me a perfectly wonderful appetite," said Mrs. G. B. Johnson, 412 E. Sherman St., Portland, Oregon. "For several years I just dreaded for mealtime to come because I suffered so afterward. Everything I ate would sour, and gas formed and kept me bleated and miserable for hours. I had sick headaches and neuralgia pains that would start in the back of my neck and go up into the top of my head. I was so nervous I could hardly stand any noise of any kind, and had neuritis in my left wrist so I could hardly use that hand at all."

"Well, Taulac has changed things right around for me now. I can hardly eat enough to satisfy my appetite and I enjoy every mouthful, for no matter what I eat or how much, I never have a touch of indigestion. In fact, I feel as strong and healthy now as I ever did in my life, and Taulac is the cause of it."—Taulac is sold in Pendleton by Thompsons Drug Store.

seeks to answer in "Honor Bound"—the story he wrote and produced starring Frank Mayo—and his answer is "No."

The story deals with two types of men who are lifted out of civilization and dropped into savagery, and shows their reactions when face to face with primitive emotions to which only the instincts of forgotten ancestors could respond.

Just what this "throwback" is Jacques Jaccard explains at the proper time, but concerned in it are three women. First there is the vivacious little fiancee of the younger man; she is portrayed by Helen Lynch. Then there is the business man's wife, played by Irene Blackwell. Finally comes the most disturbing element—the half-breed Koro, as savage and unshamed in her passions as an animal, and very beautiful.

Nick de Ruiz plays the brutal master and "husband" of the half-breed girl. Gordon Sackville is seen as "the rubber king," and Max Willing as an effeminate young English nobleman. "Honor Bound" will be seen at the Pastime theatre today.
