It is a sale of surplus stock or (too much goods) that we have found on hand in our big ware rooms. Every item is a good bargain and the good quality of every item is guaranteed.

VAST INCREASE IN BUSINESS ENJOYED BY GOODYEAR CO.

From March to July Growth in Sales Amounts to 475 Per Cent; Enlargement Needed.

During the week, four of the officials of the Goodyear Tire & Rubber Company of California left Los Angeles for Akron, Ohio to confer with President E. B. Wilmer and their officials of the parent company on the matter of further increases in production schedules that are necessary in order to meet the increased demand for Goodyear Tires which the western factory is experiencing.

This party, consisted of Vice President and General Manager A. F. Osterloh, Sales Manager J. R. Reilly, Treasurer W. A. M. Vaughan, and C. Stusser, Factory Superintendent. On the eve of their departure Vice President A. F. Osterloh gave out the following facts concerning present business of the western company, which has increased steadily since early spring.

"Indications as early as last March indicated that the barrier which has been holding back tire sales was about to break. At that time our Los Angeles factory was producing but 735 automobile tires per day.

"Step by step, however, production was gradually increased until, beginning July 1, our schedules call for 3500 tires and 3740 tubes daily—or an increase of 475 percent since last March.

"In March the Rubber and Textile Mills were employing only 465 people, while today more than 1250 people are required to handle the present schedules of production. In June 1920, the Goodyear Tire & Rubber Company of California sold to dealers here in this western territory a total of 35,554 casing, while June 1921 showed sales of 48,265 casings—an increase of 13,611. And it must be remembered, too, that June 1920 represented one of the high peak months in Goodyear's career.

"During the fiscal year to July 1, 1920 a total of 291,666 automobile tires were sold in our territory, while definite sales to July 1, 1921, including both dealers' and manufacturers' business, totaled 548,292 tires.

"In dollars and cents the business for June 1921 in all departments of the California Company—covering automobile tires, truck tires, mechanical goods, accessories and repair materials amounted to over \$1,399,000.

"Keeping pace with the production of the Rubber Mill, the Goodyear Textile Mills turned out 256,796 pounds of fabric for August 1, 1920 to October 31, 1920 and from October 31, 1920 to June 30, this year, 995,783 pounds were produced. To manufacture this enormous amount of cotton fabric, 2108 bales of long staple cotton, valued at \$994,000 were required, all of which came from the Salt River Valley in Arizona and the Imperial Valley in California and every pound of which was used in the making of Goodyear Tires at the western factory in Los Angeles.

"Estimated production of the Textile Mills for July is 200,000 pounds—for August 250,000 pounds and for September 270,000 pounds.

"The combined production of both the Akron and the Los Angeles factories of the Goodyear Tire & Rubber Company will be over 30,000 tires daily

Special to Automobile Owners

Practically everybody before starting on a trip with their car wonders (even tho their tires are apparently in good condition) how much tire trouble they are going to have on the road from punctures, blowouts, glass cuts, etc. If you will only allow us to equip your tires, new or old, with

PLANET SUB TIRES

You will not have to worry any more. We guarantee them to double your tire mileage on either Cord or Fabric tires and do away with 90 per cent of the inconveniences caused by punctures, blowouts, etc.

PROCEEDINGS AGAINST SOLDIERS DISMISSED

WASHINGTON, July 16.—(A. P.)—

All federal proceedings against Captain Robert Rosenbluth, of New York, and Sergeant Roland Pothier, of Providence, R. I., in connection with the shooting of Major Alexander Cronkhite at Camp Lewis in October, 1918, are to be dismissed, Attorney General Daugherty announced today after a personal investigation. He said all evidence gathered by the department shall be sent to the prosecuting attorney of Pierce County, Wash., for such action as he deems proper.

With Examining Papers

TACOMA, July 16.—(A. P.)—Prosecutor Selden said all the papers he has in the case have not convinced him Rosenbluth and Pothier should be tried. He said, however, he would examine all papers the government will turn over.

OF the first seven Presidents of the United States, four were from Virginia, two from Massachusetts, and one from Tennessee. Three of the seven died on July 4th, and two on the same day and year. Two of them were the committee of three that drafted the Declaration of Independence, which two died on the same day and year on the anniversary of the Declaration of Independence. Of the first five only one had a son, and that son became a President. The initial letter of the surname of two out of the seven is the same, the initial of two others the same and the initial of remaining two the same. The one whose initials stand alone is he who stands alone in greatness and the unchallenged admiration of the world, George Washington. Do you know any of the other men were?

CHERRY TARTS FOR THE FOURTH OF JULY PICNIC BASKET
Work with the finger tip and barely make the dough enough to get the water mixed.
Roll out 1/8 of the parts into pieces about 4 inches in diameter and fit a round tin. Fill nearly around the edge and be sure there is no hole in the shell through which the juice may escape.
Fill each shell with pitted cherries—more than a tablespoon to each shell.
Bake ten minutes. The amount of sugar will depend on the kind of cherries but you will need about 2 tablespoons for each.
Heat milk to other two ounces in a quart and add a teaspoonful of sugar to each quart. Cook with a round lid till just on the top of the boil.
Bake 25 minutes.
When cold, pour each quart in a separate paper and pack carefully in the picnic basket. There are very good ones for sale at a dime, and they will make the day before so that you are ready to look on the morning.

Puzzle Corner

ENIGMA
1. I am composed of 12 letters. My 5-4-3-11-12 mean homely. My 9-7 is the abbreviation of a boy's name. My 6-10-1-3 is a burst of anger. My 2 is an exclamation. My whole is a well loved holiday in July.
DIAGONAL PUZZLE
If the following are written, one below another, their diagonal letters, beginning at the upper left hand corner and ending at the lower right hand corner, spell the name of something seen in Fourth of July celebrations.
1. To change from one position to another.
2. A union of persons in one interest.
3. To mislead the mind.
4. Riders of horses.
5. Small pieces of anything.
6. A sentinel on horseback.
7. News of any kind.
ANSWERS
ENIGMA—Truly, Jo, HuE, O. Fourth of July.
DIAGONAL PUZZLE—Rockets.
1. Rocket. 2. Society. 3. Decree. 4. Jockey. 5. Mosaic. 6. Vedette. 7. Tribune.

FOURTH OF JULY BY WALTER WELLMAN

Cut out each piece along the dotted lines, and see what Bobbie is up to on the Glorious Fourth. Then go and do likewise.

TOYS AND USEFUL ARTICLES THAT A BOY CAN MAKE. BY FRANK I. SOLAR

DIY project instructions for a 'CLOCKWORKS MOTOR BOAT'. Includes diagrams of the boat's hull, propeller, and motor mechanism, along with detailed text instructions on how to construct it using simple materials like tin and wood.

The Fourth of July
I'm never proud of having done,
And not of skipping rope;
Nor spelling well, nor making rhyme,
Nor washing well with soap—
I'm not, I really hope!
But I am proud I'm not a Swiss,
Nor of a Scottish clan,
Nor of a French but simply this—
A little U. S. man!
A plain American!
