

# People Here and There

Oscar Schultz, an employe of the American National bank, is enjoying his vacation. A trip to the mountains with a number of friends is his method of getting the maximum amount of pleasure out of the vacation period.

R. D. Sayres and son Stanley were among the Pendleton people who visited in Walla Walla yesterday.

Harry Lyons, of Cook & Gibb, automobile dealers of Portland, is here for a few days' business visit. Mr. Lyons is a state distributor of the "Fargo" automobile.

Mr. and Mrs. Howard Johnson, formerly of Twin Falls, Idaho, were in Pendleton today en route to Spokane where Mr. Johnson has accepted a position with the City Exchange bank. They are driving through.

Ed Litsey, an Echo man, was in Pendleton this morning. He has just returned from Kansas City, Mo., where he has been at the bedside of his father. The elder Litsey died recently.

Harvesting is the order of the day with Robert Leisinger, Holix district farmer, who was in Pendleton this morning on business.

## NEWS OF THE COUNTY OFFICES AND OFFICERS

Sues On Note Judgment for \$161.36 on notes alleged to be past due and unpaid is sought by O. Stangeby and P. M. Gast in a

suit that has been filed in circuit court. P. M. Kiger is the defendant in the suit.

### Officers Get Three

Jim Perkins and C. O. Brown, who say their home is in Boise, were arrested Saturday night by Deputy Sheriff Ridgway and Layday at the auto camp grounds for illegal possession of liquor. A full quart near their car, and a keg containing three gallons of whiskey on the river bank were found. The men are also charged with having sold to Indians. They admitted to the officers that they had served jail sentences at Boise for selling whiskey. Tad Stevens was also arrested Saturday night at his home on Point street for illegal possession of liquor. Ridgway, Turner and Lavender doing the work that resulted in the arrest.

## WHEAT TAKES DECLINE IN TODAY'S MARKET

Wheat declined in price again today, July wheat closing at \$1.25 1-2, September wheat at \$1.27 and December at \$1.31. Saturday's closing prices were July \$1.25 1-2, September \$1.30 3-4 and December, \$1.35.

Following are the quotations received by Overbeck & Conke, local brokers:

Wheat.				
	Open	High	Low	Close
July	\$1.25	\$1.29 1/2	\$1.26	\$1.26 1/2
Sept.	1.30 1/2	1.31	1.27	1.27
Dec.	1.35 1/2	1.35 1/2	1.21	1.31

Corn.				
	Open	High	Low	Close
July	.65	.65 1/2	.63 1/2	.65 1/2
Sept.	.64	.64 1/2	.61 1/2	.61 1/2
Dec.	.62 1/2	.63	.60 1/2	.60 1/2

WHEAT—Grain prices advanced lower with the finish well toward the low point. Wheat breaking over four cents from Saturday's finish, an over-bought condition was disclosed in all grains and the forecast for showers and cooler weather following rains in part of the belt where needed were depressing influences. Realistic sales started in wheat early as the crop reports from the northwest showed no change from that prevailing of late, other than now, returns from any to which indicated that wheat would probably mature ahead of last year. Germany bought wheat over Sunday and there was fair buying of futures here for seaboard arrival. Country offerings were not large due partly to rains in Kansas and Nebraska, but Chicago, St. Louis and Kansas City received around three thousand cars which led to some selling although the bulk of this grain had been placed to arrive some time ago. Cash offerings were readily absorbed. Harvesting has started in France and Belgium, and rains were reported in Argentina. There is no apparent weakness in the world's situation, but the public are not interested in speculative ways and the market may sag from the weight of current receipts.

Seattle Cash. 1 hard white, \$1.10; 1 soft white, \$1.10; 1 white club, \$1.10; 1 hard winter, \$1.05; 1 northern spring, \$1.05; 1 red Walla, \$1.05; Big Bend, \$1.15. Portland reports no cash market.

## BRITISH GOVERNMENT HAS LONG MEMORY

LONDON, July 18.—(I. N. S.)—One of the Seychelle Islands, a British possession in the India Ocean, there will shortly be a little colony of minor dusky big wigs from Africa.

They have all misbehaved themselves in varying degrees by plotting against British interests and have been removed for the peace of the country, with all their cherished belongings, from out-of-date tops hats to harem.

The chief offender is Khalad-bin-Barshash, a son of a former Sultan of Zanzibar, who tried to seize the Sultanate in 1896, and then took refuge with the Germans in East Africa. With him are a number of minor chiefs who supported him. They will all live on the same island, under the supervision of the local representatives of the British Government, and will have nothing to do except eat the food that will be given them and enjoy the tropical sunshine and sea breezes.

Unknown Friends There are many who have used Chamberlain's Colic and Diarrhoea Remedy, with the best results, but who are unknown, because they have not written to the manufacturers and told them of their experience in the use of this remedy. These people, however, are none the less friends and it is to their personal recommendations that this preparation owes its popularity and extensive sale and use. It is a good medicine to have in the house. It is widely known for its cures of pain in the stomach, colic and diarrhoea.

How to Avoid Trouble You may save yourself a lot of trouble and suffering by obtaining a bottle of Chamberlain's Colic and Diarrhoea Remedy, at once. It is almost certain to be needed before the summer is over and when needed, is worth many times its cost. It is thoroughly reliable.

Took a Neighbor's Advice Two or three years ago, whatever it distressed me. My liver was torpid and I lacked energy and ambition. A neighbor advised me to take Chamberlain's Tablets. I was wonderfully benefited by their use and have since enjoyed the best of health. writes Mrs. Frank Pellett, Hanhibal, N. Y. If troubled with indigestion why not take these tablets? Get well and stay well. How to Reach a Ripe Old Age If you would reach a ripe old age, do not worry, take out-door exercise daily, adopt a diet suited to your age and occupation, keep your bowels regular. When medicine is necessary to move the bowels, take Chamberlain's Tablets. They are mild and gentle.

## SURPLUS OF BEEF ON MARKET OBTAINS LIFE FOR COLORADO CATTLE

Because of Over-Supply 'Canned-Willy' Canner Cow Enjoys New Lease of Life.

DENVER, July 18.—(I. N. S.)—Because of an over-supply of "Canned Willy" and "Bully Beef" former pals of the American doughboy in France the "canner cow" is enjoying a new lease of life this summer. Instead of going to slaughter preparatory to furnishing the "making" for canned meats, canner cows are being sent back to the country to graze on succulent grass and ruminate upon the way times have changed since the armistice was signed.

The reprieve for the canner cow comes following a sharp slump in the demand for canned meats, resulting in a heavy reduction on the part of packers in the purchase of this cheaper grade of cattle.

When the armistice was signed the war department had a surplus of some 200,000,000 pounds of canned meats on hand. This has been disposed of. But despite this load hanging over the market, packers continued up to about a year ago to can meats in enormous quantities. The year 1919 showed the greatest output of canned meats for any year in the past decade. It was believed that an enormous demand for such products would be made by European countries at the termination of hostilities.

In the calculation Germany was looked upon as a leading prospective buyer. According to reports, great quantities of both cured and canned meats were shipped to the various Allied neutral countries surrounding Germany so that they could be rushed into that country as soon as a peace was declared and trade relations resumed.

Industry Decrease Noted. Various occurrences forestalled these plans, however, and the canners were forced to adjust themselves to an overstocked market.

A tremendous decrease was noted in the canning industry in 1920, and this same tendency is in evidence this year, with the result that fairly good canner cows have sold from \$2.50 to \$2.60 per 100 pounds, with packers taking stock markets, with packers taking some as low as \$1.50 per 100 pounds.

In view of the prolonged and steady decline in cattle prices which continued almost without interruption throughout the winter of 1920 and the spring of 1921, and also because of uncertainties as to the immediate future of the livestock market, many farmers and stockmen turned to the canner cow as a possible chance to make a limited profit and recover some of the losses sustained in feeding operations.

Whether this movement will result in any material increase in the country's supply of beef, or will prove a profitable venture for those engaged in it, remains a matter of conjecture. In any event, the canner cow has been vouchsafed an additional three to six months of life and another season on grass over and above her normally allotted time.

A golfer, playing on the Lancaster Country Club course at Lancaster, O., killed a blacksnake while striking at the ball just as the snake raised its head from where it lay concealed in the grass.

DESPERADOES SURROUNDED GREENBAY, WIS., July 18.—(I. N. S.)—The three desperadoes who looted the state bank at Waubesa, Wis., of \$32,000 are reported to be surrounded on all sides by heavily armed farmers northeast of here. The bandits locked the cashier and a girl assistant in the vault, and then looted the bank.

## FORESTRY CONGRESS TO FIGHT LUMBER TARIFF

WASHINGTON, July 18.—(I. N. S.)—In reforestation the South has one of its biggest opportunities for wealth and national service, said Charles Lathrop Pack, president of the American Forestry Association today, in a statement on the importance of the Third Southern Forestry Conference, which opens in Atlanta Wednesday. Pack has called a forestry conference for Washington in September, and big representation from the South is expected.

The South needs reforestation badly, Pack points out. Power experts employed in developing the power from some of the streams in the South, testified before the Agricultural Committee of the House of Representatives some time ago that the capacity of certain reservoirs was so much reduced that in a few years only the flow of the rivers would be available for power. A report from the Geological Survey on the amount of silt carried by some of these rivers states that the Susquehanna carries to the sea, annually, 240,000 tons; the Roanoke, 3,000,000 tons; the Alabama, 6,029,000 tons; the Savannah, 1,000,000 and the Tennessee, 11,000,000 tons. It is but reasonable to assume that at least half of this wastage of soil material is preventable.

Reclamation is of two classes—lands reclaimed for cultivation and those for forests. As to need of forest a few figures will show the importance of the work the Southern Forestry Conference can do. Pack said: "When the State of Florida gets two carloads of forest products a month from the States of Washington and Oregon the freight bill adds much to the cost of lumber. When the State of Minnesota gets 3,615 carloads per month from these States the freight is also a considerable item. The figures show the normal freight shipments of forest products to be 32,340 carloads per month, and of this amount 21,270 carloads were forest products and adds to the cost of lumber used in the East, lumber which an adequate forest policy would result in growing in or

## SAYS SHE COULD NOT MOVE WITHOUT HELP

Portland Woman Das Down in Bed With Rheumatism—Is Now in Perfect Health.

"I am now going on sixty-six years of age and for a long time I was hardly able to walk; but by the time I finished my second bottle of Tanlac I was out in my garden hoeing," said Mrs. Jennie Ross, 1409 Powers St., Portland, Oregon.

"For years I suffered terribly with rheumatism and would often be down in bed for days at a time. In the last five years there was never a time that I didn't feel those rheumatic pains all through my body. About two months ago, however, I got very much worse, and my arms and legs were so bad I was almost helpless and couldn't even hold a pen to sign my name. I had no appetite at all, was so weak I couldn't do any housework, and even to walk a few steps would tire me out completely. I couldn't even sleep, and for a week before I got Tanlac I was so bad off I couldn't move at all without help.

"My son got me to try Tanlac and before I had taken one bottle I hardly felt like the same person and now I feel just fine. Why, I even walked up four flights of stairs in an office building where the elevator was out of order not long ago and stood it fine. The fact is, what Tanlac has done for me seems almost a miracle. I have gained fourteen pounds in weight and all my strength has come back to me and those aches and pains have disappeared. I will praise Tanlac as long as I live."

Tanlac is sold in Pendleton by Thompson's Drug Store.

**THIS WEEK'S SPECIAL WATER SET AND TRAY**

\$5.50

This special consisting of just six glasses and tray is an unusual value. The glassware is of fine quality, beautified by a light cutting. The trays are cretonne bottoms in rich polychrome finish.
