

People Here and There

F. W. Falconer is in Enterprise where he is making arrangements for shipping the first lot of lambs for the Cunningham Sheep Co.

W. H. McCormack arrived in Pendleton yesterday from Lehman Springs. He expects to return tomorrow morning with Mrs. Walter McCormack and family and their household goods.

Frank Hilbert of Elkhart, the biggest cattle breeder in that section of the county, was here this morning. He has just returned from Portland where he shipped cattle in the trainload that left Pilot Rock Saturday.

Robert Johnson, young nephew of Mrs. J. F. Robinson, who has been in Pendleton at the home of his aunt for the past several months, left today for Portland to visit his sister, Mrs. Fredrick Lestoe (Harriet Johnson).

W. A. Gilliam, well known miner, came to Pendleton today from Pilot Rock. He will leave tomorrow for Grant county where he has a promising mine prospect. Silver and gold is found in the ore on his property, and some assays have shown silver running as high as \$600 a ton.

Parsons Motanic, Indian farmer of the reservation and one of the few Indian owners who farms his own land, is in the city today. In his youth Motanic was well known as an athlete. He is prominent in church work and is an elder in the Presbyterian church at Tutuilla.

A. B. Chapman has been a resident of Umatilla county since 1886 and he likes the country well enough that he expects to be here for a good many more years. He is in the sheep business, and his ranch is on Butter creek. He runs his sheep on range near Lehman Springs during the summer months. Mr. Chapman was here today taking care of business matters.

Pendleton weather seems warm to F. W. Cleator of the Portland forestry office, who is here today and who just returned after climbing Mount Hood with the Mazamas. Mr. Cleator and Mrs. Cleator were among the 165 mountain climbers who made the trip. The party drove in machines to the government camp and afterwards began the nine mile hike to the summit. After four and a half miles of trail they reached the timber line where they camped for the night, leaving at 2 a. m. the following day for the sum-

mit. A few of the climbers, Mr. Cleator relates, were unable to go on because of the fumes from Crater Rock but the others reached the top, some arriving as early as 11 a. m. On the steep slopes ropes and steps were resorted to in aiding the climbers. The view is beautiful, says Mr. Cleator, and the top afforded a fine view of the Columbia, Lost Lake, Bull Run Lake and the several mountain peaks. Mr. Cleator remarks that two thirds of the members of the party were women and that of this number, one in every 10 could equal the men in accomplishing the mountain climb. Mr. Cleator will spend three weeks in survey work on the Umatilla forest.

Dr. W. H. Little, state veterinarian is here today from Salem on official business.

The United States still has fifteen thousand soldiers in Europe, chiefly on the Rhine.

NEWS OF THE COUNTY OFFICES AND OFFICERS

Given Divorce Decree.
A decree of divorce in favor of Della Smith against George Smith has been granted by Judge G. W. Phelps in circuit court. By the terms of the decree the plaintiff is granted the custody of two minor children, and a property stipulation is included as a part of the decree. It is also provided that the sum of \$29 a month shall be paid by the defendant to contribute toward the education of the two children.

Traffic Violators Fined.
Five traffic violators have appeared before Judge Thomas Fitz Gerald since yesterday afternoon. J. C. Johnson and H. C. Walker fell foul of Traffic Officer William Lyday on a charge of driving a car not equipped with tail lights. E. Cox was arrested for driving over fire hose. Glen Theodore pleaded guilty to driving with his lights out and Anna Vey's car had no tail light. The fines in every case were \$5.

Mr. and Mrs. Gilliam live in Wyoming and are going to California after having visited Yellowstone.

RETURNING TO ASTORIA.
Mr. and Mrs. Lee D. Drake and son Jimmy, plan to leave early tomorrow morning by auto for their home at Astoria after having visited here and in the mountains for a week.

MRS. HAYDOCK SAVED FROM AN OPERATION

Followed Advice of Her Druggist's Wife and Took Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Avenue, Chicago Illinois.

Because Lydia E. Pinkham's Vegetable Compound saved Mrs. Haydock from an operation we cannot claim that all operations may be avoided by it,—but many women have escaped operations by the timely use of this old-fashioned root and herb medicine.

Wheat—A decided change in the character of the news has taken place of late and while a few weeks ago indications were that the world would harvest a large crop, drought and heat in North America and Europe has changed the situation. Reported today a cargo of wheat was sold from New York to Brazil, the grain being wanted for milling purposes, and it is understood that the quality of the remaining Argentine surplus is of poor quality and mills needed strong wheat for milling purposes. If this is correct with Argentine five months from now a new crop it will mean more or less export business with that country from time to time. The trade has scarcely commenced to realize that the world's situation has become very acute, and the slightest damage in Argentine and Australia which harvest late in 1921, would reduce the surplus of exporting countries to dangerously low ebb. Late spring wheat, on both sides of the international line, is in danger of black rust damage and it is a race between the grain to maturity and the rust under prevailing conditions, higher prices probably will be witnessed.

NEW FACES FOR OLD BY-FRENCH SURGEON

PARIS, (By Mail)—(By Edwin W. Hullinger, U. P. Staff Correspondent)—At last ladies, you can get a brand new face for 3,000 francs (about \$300 at present rate of exchange) in Paris, made according to any of the most approved styles of beauty you may pick.

Nor will it be a makeshift or camouflage job. Your features can actually be refashioned, even if it be necessary to remodel the bony framework of the face. This can be done by facial surgery and without pain—beyond that occasioned by the parting with the \$300.

Doctor Jack Brettman, one of the world's foremost experts in facial surgery is authority for this statement. Doctor Brettman recently opened a hospital in Paris where he does nothing but "make over" old faces, remodeling them with their last youth, or remodel young faces removing facial defects imposed by birth.

Many European women and a few Americans have already been operated upon successfully, according to Doctor Brettman, and many more are planning to obtain new faces in this way during the summer.

In the beautiful reception room of his "Hospital of Aesthetics" on rue Rivoli, Dr. Brettman told a correspondent his experiences correcting the sculpture of Nature and combatting the imprints of years. He is also a sculptor of no mean ability. In his studio were three of four plaster casts done by him.

"Partly as a result of experiments with wounded men during the war facial surgery has now reached a stage where the human face, distorted by malformation at birth or weathered by fatigue or time, can be repaired or rejuvenated such as a serviceable but out-of-date garment can be

Hall's Catarrh Medicine
Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. remodeled and imbued with the seasons latest curves," he declared. "No longer does Anatoninette need remain a back number because she happened to be born with a crooked nose. She can take a limousine to a beauty hospital look through the nose catalog, pick out a Roman, Greek or best American nose and in less than a week be back in the opera box with as pretty a member as any girl in the house. Many, many girls miss being extraordinarily beautiful simply through malformation of one feature of the face."

New noses cost from 1,500 francs (\$150) up, he said.
