Unknown Friends
 There are many who have used Chamberlain's Colic and Diarrhoea Remedy, with the best results, but who are unknown, because they have not written to the manufacturers and told them of their experience in the use of this remedy. These people, however, are none the less friends and it is to their personal recommendations that this preparation owes its popularity and extensive sale and use. It is a good medicine to have in the house. It is widely known for its cures of pain in the stomach, colic and diarrhoea.

How to Avoid Trouble
 You may save yourself a lot of trouble and suffering by obtaining a bottle of Chamberlain's Colic and Diarrhoea Remedy, at once. It is almost certain to be needed before the summer is over and when needed, is worth many times its cost. It is thoroughly reliable.

Took a Neighbor's Advice
 Two or three years ago, whatever I ate distressed me. My liver was torpid and I lacked energy and ambition. A neighbor advised me to take Chamberlain's Tablets. I was wonderfully benefited by their use and have since enjoyed the best of health." writes Mrs. Frank Pellett, Hannibal, N. Y. If troubled with indigestion why not take these tablets? Get well and stay well.

How to Reach a Ripe Old Age
 If you would reach a ripe old age, do not worry, take out-door exercise daily, adopt a diet suited to your age and occupation, keep your bowels regular. When medicine is necessary to move the bowels, take Chamberlain's Tablets. They are mild and gentle.

CAPTAIN INVENTS NEW LATITUDE FINDER

SAN FRANCISCO, July 20.—With the transfer of Captain Robert Morris, for the past two years assistant commander of the Twelfth Naval District, to a post at the Naval War College, Newport, R. I., popularly known in the navy as "the preparatory school for admirals," it became known that Captain Morris is the discoverer of the simplified method for finding the latitude of a ship. The discoverer, made famous by the controversy that raged following the announcement of the method through observation of the star Polaris and now universally used at sea, remained unnamed until now.

It was while serving as navigator of the battleship Kansas that Captain Morris made the discovery, worked out and fully proved the system and then submitted it to the navy department.

At the time Captain Morris made his discovery it was universally condemned by astronomers, and its advocacy by the navy department at Washington started a controversy that was bitterly waged between the "theoretical" and the "practical" and did not quiet down until it was suddenly ended by the substitution of Captain Morris' method for the astronomer's method in the Nautical Almanac, the authoritative guide book universally followed by practical navigators.

STUNNED BY FISH

MALE CRUSHER OF SERPENTS

CADIZ, Ohio, July 20.—(I. N. S.)—While James Bullock was riding a horse along a country road a black snake leaped at him from bushes beside the highway. Bullock grasped the reptile about the neck, choking it to death.

Decorated for Valor

For "exceptionally meritorious conduct" on those occasions he was awarded the United States navy cross and by the president of France. Chevalier of the Legion of Honor.

Captain Morris is famed in the navy as an all-around officer of engineering ability as well as a practical line officer. He was turret officer of the old U. S. S. California for two years after she was commissioned in 1909. He was executive officer of the naval training station in San Francisco, 1910-1911, and has letters of commendation from the secretary of the navy for excelling in engineering in 1914.

DEATH OF BUSINESS FOR CALIFORNIA DRS.

SACRAMENTO, July 20.—(I. N. S.)—California, known throughout the world as the land of sunshine and healthful climatic conditions, has a practicing physician of one type or another for every 200 inhabitants.

This was revealed by members of the State Board of Medical Examiners here when they undertook the task of checking up on members of their profession.

The medicals say that the great number of doctors and medical attendants here do not actually constitute a reflection on California's climate, however, as many of these disciples of medicine are finding it difficult to secure enough patients to eke out a living.

There are more than 14,114 licensed physicians and surgeons in the State, 1,212 osteopaths, 103 naturopaths, 214 druggists practitioners, 25 reciprocal druggist practitioners, 232 chiropractors, 1 reciprocal chiropractor and 127 midwives. The aggregate total is 16,928.

Fifty Against Two. It is not reasonable to expect two weeks of cutting to overcome the effect of fifty weeks of confinement. Take Hood's Sarsaparilla along with you. It refreshes the blood, improves the appetite, makes sleep easy and restful.
