## PICNIC MUCH ENJOYED.

The Rotary Club picnic, given last evening at the Indian Agency grounds in honor of the faculty and students of the summer normal school, was most enjoyable. The honor guests, with Rotarians and their wives, motored to the spot in the evening and enjoyed a picnic supper. Games were the diversion of the later hours and Mrs. George L. Clark, pastor of the Presbyterian church and one of the Rotarians, gave a short talk in which he told of the ideals upon which the Rotary club was founded. He emphasized the fact that the club is especially interested in education and that Rotarians of this city are therefore most pleased that Pendleton is the host city for the normal school session.

Several original songs were sung by the honor guests, who as a climax to the evening's enjoyment were taken by machine to Cabbage Hill for a view of the sunset.

## HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

In doing house work, there is always necessary fatigue, and too many times unnecessary fatigue. It is a realization of this fact that led efficient engineers to standardize brick-laying motions in such a way as to enable the bricklayer to lay 259 bricks per hour where he had laid 129 bricks per hour before, and to do this with less fatigue than when he was laying the smaller number of bricks. Care in arranging ironing board, basket of unironed clothes and clothes rack will help a busy woman to accomplish more work with less effort than if she does not take this care. There is no need for her to stoop for each garment to be ironed nor to walk several steps to get that garment or to hang it up after ironing. She need not think herself a shirk if she hits at her work. She can save steps by tacking an iron stand of asbestos on the end of the ironing board. It also saves needless motions to sort clothing as it is ironed. Things going to one part of the house should be put on one part of the ironing rack and those to another part of the house on another section. Things to be mended can also be placed together as they are ironed. A tea set of ironing rack and those to be mended can be placed on various parts of the house.—E. V. D.

## ATTORNEYS DISPUTE IN TELEPHONE RATE CASE

SALEM, July 21.—(A. P.)—Charges and retorts were exchanged between James Mott, Astoria city attorney, and Attorney Shaw of the telephone company, concluding with the statement by Chairman Williams of the public service commission, that the attorney general would not seek to settle the dispute that occurred at the forenoon session of the telephone rehearing. Mott and Shaw got into words over Mott's request that he be allowed to call as a witness an Astoria telephone company employee. SALEM, July 21.—(A. P.)—Deputy City Attorney Tomlinson, of Portland, in an argument late yesterday, demanded the restoration of telephone rates as low or lower than those prevailing before the increase last March and that they be made retroactive. He urged a readjustment of the Oregon rate situation, a lower basis of the company's property valuation and a divorce as far as possible from the American Telephone and Telegraph company. He charged poor business management.

## TODAY'S WHEAT PRICES REMAIN STATIONARY

Figures in the Chicago grain market are practically the same as yesterday's. September grain only showing a slight advance. July wheat closed at \$1.25 1/2, half a cent higher than yesterday's closing. September at \$1.26 1/2, a cent higher than yesterday's closing while December grain closed at \$1.29 1/2, a fraction of a cent lower than yesterday's closing. Following are the quotations received by Overbeck & Cooke, local brokers:

July	\$1.25 1/2	\$1.25 3/4	\$1.25 1/4	\$1.25 3/4
Sept.	1.23 3/4	1.24 1/4	1.22 3/4	1.26 3/4
Dec.	1.29 1/4	1.29 3/4	1.28 1/4	1.29 3/4

 Sept. .61 3/4 .62 1/4 .60 1/2 .61 1/4  
 Dec. .60 5/8 .61 1/2 .60 3/4 .61 1/4

Wheat—The market showing a rather easy undertone, due to hedging sales and lack of aggressive buying, but at the inside figures today September was offered over 12 cents from high of last week, a decline sufficient to improve the technical position to some extent, and the rally from the low point was not surprising. There is very little actual pressure on the market and the character of the news is such that any increase in the buying would probably result in a higher range. It seems to be only a question of time before the fact that European crops have been cut down considerably by the recent heat and drought will become a factor in the situation, and Paris cables today said that Russia had appealed to the world to save the starving people in the drought stricken section of that country, which under normal conditions are the best agricultural producing areas. This should place Russia in the importing rather than the exporting column for a year. Crop experts are taking a less rosy view of the Canadian situation and with black rust present in practically all sections, weather conditions must be closely watched. Cash wheat on spot was slightly firmer, although export demand was slow.
