LEADERS OF SINN FEIN OPPOSING PEACE PROPOSAL

De Valera Will Return to London Within Fortnight, But Not to Accept Present Plan.

BOTH SIDES DO NOT DESIRE TO OPEN OLD WAR WOUND

Outstanding Feature of Government's Peace Proposals is Concession of Autonomy.

DUBLIN, July 23.—(Charles M. McCann, U. P. Staff Correspondent.)—Sinn Fein leaders are expressing open opposition to the acceptance of Lloyd George's Irish peace offer and predicting that barring new obstacles De Valera would return to London within a fortnight, but not to accept the present form of the plan. They declare the resumption of hostilities, which would be a fight to death, is preferable to a potential domination of the island by a separate army and other free features contained in the constitutions of other British dominions. Both sides, however, are attempting to prevent an opening of the old war wound.

Uster's Position is Secure. LONDON, July 23.—(A. P.)—The outstanding feature of the government's Irish peace proposals to De Valera is a concession of fiscal autonomy, according to a high authority. Uster's position is amply secured.

Will Work Out in Settlement. DUBLIN, July 23.—(A. P.)—The impression is growing here that the Irish peace offer made by Lloyd George will work out in the settlement.

WHEAT PRICES CONTINUE TO DECLINE IN MARKET

Continuing the trend of the past week, the closing prices for wheat are lower today than yesterday. July wheat closed at \$1.22, September wheat \$1.22 1/2, and December wheat at \$1.25 1/2. Yesterday the closing prices were July \$1.24 1/2, September \$1.25 and December, \$1.28 1/2.

Following are quotations received by Overbeck & Cooke, local brokers:

Table with columns for Wheat, Corn, and prices for various months (July, Sept., Dec.).

Wheat—The receipts around 2,100 cars at the four leading wheat markets, Chicago, St. Louis, Kansas City and Omaha, with general evening up on the part of local buyers for the week end, led to liquidation and lower range, but on the break there was free buying by houses with seaboard connections to average hedges against sale for export, and the inside figures were not maintained. Export sales at the Gulf were reported as high as one million bushels and while the movement from the farms is very heavy, the export business as a whole is said to continue as Europe needs liquid quantity of grain. There are already signs of a let up within a short time in parts of southwest, as the break in prices is causing a holding tendency, and the ear shortage increasing with Nebraska and Missouri complaining. For time being buyers may not hold, due to hedging, but sooner or later the market will turn and however purchases on sharp breaks are preferred.

He served on the Oregon association committee of five in the place of Roy Rittner, who was unable to attend. On his visit Charles saw several former Pendletonians who are now living at Los Angeles.

BOND NOT REQUIRED OF AMANN IN WORK FOR COUNTY, SHOWN

Statute Makes it Imperative for Roadmaster Furnish Bond; Accountant Being Selected.

An investigation into the facts surrounding the activities of K. C. Amann, charged with forgery as a result of alleged irregularities in the office of the county roadmaster, shows that Amann, who handled large sums of money, was not under bond. The statute requiring the conduct of the office do not require the bookkeeper to give bond, it was stated today. The law requires that the roadmaster be required to furnish bond to the amount of \$1,000, and this bond was given by L. J. Shannon, the roadmaster, but Amann, who practically had charge of the office work, was under no bond. That weakness exists in the statute is the belief of the members of the county court. Amann was taken before Justice Richards at Athena this morning, and he waived preliminary hearing and was bound over to await the action of the grand jury investigation which will be held in September. The court increased the amount of his bond from \$2000 to \$7000. In addition to J. H. Sturges and John Luck, whose names appeared on the original bond, the signatures of H. W. Collins, Ben Burroughs and Will Ferguson were secured on the larger bond. The securing of an expert accountant to make a thorough audit of the books in the office of the roadmaster was considered this afternoon by the county court. Work on the auditing of the books is expected to begin as soon as choice of an accountant is made.

More motorcycles are in use in London and all England than automobiles or other automotive vehicles, according to registration certificates.

JAPAN EDITOR IS GUEST OF HONOR AT BANQUET

NEW YORK, July 23.—(U. P.)—Japan's position on the Far East is no less special than that of the United States in this hemisphere. Hoshio Mitsuzawa, of the Nippon Dempo Tanshin Sha, oriental news agency, told the publishers attending a dinner, W. V. Hawley, president of the United Press, gave in honor of Mitsuzawa. "Japan's position while special, is not paramount or predominant. She must exercise prudent reserve regarding the policies of subjecting the orient to any power of absolutism. Japan seeks open cooperation and not the opportunity to impose her will."

FASCISTI AND COMMUNIST HORRORS ARE THREATENING TO OVERTHROW PRESENT ITALIAN CABINET; MANY ARE KILLED

ROME, July 23.—(U. P.)—Fascisti and communist horrors in Sarona threaten to overthrow the present Italian cabinet. Reports from the front areas declare 20 were killed and 30 wounded. Reports that state hospital orderlies, carrying surgeons' knives, murdered the wounded Fascisti as they lay on the ground wounded or fallen in fighting. Shortly before the adjournment of the chamber of deputies early today the killing report was read. Senator Lotti, enraged at the horror of the report, called upon the government to act. "We cannot tolerate these horrors," he said. "These murders are worse than cannibalism." As a result of the state's position, socialists groups decided to vote against the cabinet's program. This leaves only the popular and reformist groups, which are not sufficient to insure backing of the majority, it is believed.

MARKER OF FAMOUS 'OLD OREGON TRAIL' VISITS PENDLETON FRIENDS TODAY

The man who rescued from oblivion the famous Oregon Trail which he traversed 62 years ago, is in Pendleton today. He is Ezra Meeker, aged 91, one of the most interesting pioneers of the West, and who, in 1806, retraced his march made in early days, back along the Oregon Trail to its Eastern terminus on the Missouri river, then across Iowa and Illinois to his Indiana home. As he journeyed Mr. Meeker invited people along the route in the importance of commemorating the Trail. Their fathers and grandfathers had helped to make it but the past was in a fair way to be forgotten. The railroad parallels or covers the Trail for much of its way today, but there were detours and stages to be marked before they were lost sight of entirely. This was the work of Mr. Meeker and through his efforts the Oregon Trail is marked by monuments today. The Pendleton monument was erected in 1906. He is on his way from Seattle to Postville, Idaho, where next Wednesday he will under the auspices of the Daughters of the American Revolution, speak at the celebration of Jason Lee's sermon at old Fort Hall. Mr. Meeker is a splendid type of pioneer for which the West is famous. He is in excellent health despite his years, and describes himself as "91 years young."

GRAIN GROWERS ASK STATES TO ENFORCE LAWS

This Ultimatum is Chapter in Controversy Over Discount Laws of Oregon and Wash.

FARMERS SEND NOTICE TO LARGE EXPORT BUYERS

Unless Officials Attend Meeting Farmers Will be Inclined to Wait for Settlement.

Enforcement of the recently enacted grain discount laws of Oregon and Washington by the two states will be asked of Governor Olcott and Governor Hart by the Farm Bureaus of Umatilla and Walla Walla counties, according to a decision reached at a joint meeting of the two bureaus here this morning. The ultimatum is another chapter in the controversy between growers and buyers since the decision of the Northwest Millers and Grain Dealers to disregard the discount laws of the two states. In addition, it was decided at this morning's meeting that inasmuch as grain buyers of Portland, Seattle and Tacoma seem unwilling to meet with the wheat growers, word will be sent to the Pacific Coast Elevator Co., Kerr Gifford Co., Balfour Guthrie Co. and Northern Grain Co. that unless the officials of these companies meet with the farmers and come to some settlement, farmers will be disposed to hold their wheat which would delay deliveries until the matter is settled. The discount laws, authorities state, do not conflict with the federal laws.

W. L. Thompson Speaks. W. L. Thompson, vice president of the First National Bank of Portland and president of the Pendleton American National Bank, who is here today, spoke at the meeting and said he felt sure that the big grain men will not refuse to meet in Portland with a committee of four men, two from Umatilla county and two from Walla Walla county. R. W. Rittner, who presided, read letters from the Portland and Seattle Buyers Exchanges and pointed out that the buyers expressed themselves as being in no fear of the outcome of a test case. Fred Steiwer, local attorney who at the last meeting was in favor of a test case, said today that in his opinion the better course now is to ask the governors to instruct the attorney general to enforce the law, and also for the farmers to meet with the buyers. Growers think that by putting the matter in this light they may avoid a lawsuit on their hands.

Discounts Cause Trouble. The legislation about which the controversy centers was passed in the Oregon legislative sessions of 1921 and is known as the Rittner bill and similar legislation was also passed in Washington. It provides that there shall be no discount on 58 pound wheat but that for each pound above 58 pounds, 3 of one per cent premium shall be paid. For each pound or fraction of a pound below 58 pounds, 3 of one per cent and on lower grades the discount is slightly larger. Differentials Were Three Cents. During the war, differentials were three cents a bushel so that 60 pound wheat was the standard for each grade before the three cent discount was made. Farmers agree that this was fair when wheat sold for more than \$2 a bushel but that with wheat at \$1 a bushel the differential is too great on the old basis which the Northwest Millers and Grain Dealers seek to retain despite the new laws.
