

THE BIG STORE WITH 40 YEARS' REPUTATION FOR HONEST ADVERTISING.

Pendleton's Greatest and The People's Warehouse

Best Department Store Will Continue to Quote Comparative Prices and hold Special Sales.

SINCE COMPARATIVE PRICES always help to give you a much better idea of the real true value contained in any article.

The owners of this Big Store live among you; and as one of you, and answerable to YOU as sincere, honest merchants.

THEREFORE EVERY COMPARATIVE PRICE WILL BE AS ALWAYS HAS BEEN, A TRUE QUOTATION.

WE WILL CONTINUE TO HOLD SPECIAL, CLEAN UP SALES to rid our big store of odds and ends, whether it be by Big Events or the regular, small lot, every day, little container with its \$1.98 shoes, or cut price laces, or small lots of cut price gloves, etc., as every good merchant does.

You may always expect from this Big Popular Store Comparative Prices and Special Sales.

MEN!

How often have you been offered a \$3.00 silk shirt elsewhere for \$2.98 or a \$5.00 shirt for \$4.98 and found that there wasn't even the \$3.00 value there nor the \$5.00 value there?

You know the hidden possibility that lies within the silk shirt and you know that the only thing that lends confidence in the serviceability of the garment is the Reliability of the Store from Which You Buy Your Garment.

We are now offering you \$10 SILK SHIRTS FOR \$4.98

And they bear that same good, reliable quality that has built up a 40 year old business. Reliability and Serviceability, these are the qualities. See the display in the Men's Show Window.

BLOUSE VALUES

That Encourage Economy

So pronounced is the vogue of the blouse that every woman will want several models of each type; dressy, tailored and for sports wear.

\$2.50 to \$22.50

The QUELLE

SURGICAL PHOTOGRAPHY SHOWING OPERATION IN ACTION IS NOW DEVELOPED BY GERMAN PROFESSOR

Invention Has Been Approved by Ministry of Education; Will Install 6 more Cameras.

By FRANK E. MARON, International News Service Staff Correspondent. BERLIN, July 27.—Moving pictures are the latest aid to the teaching of surgery in the Berlin university.

Four small motion cameras, and lower the camera, turn it from right to left and reverse and crank the film. The cameras are controlled from a small movable stand near the operating table, on which is a towel with removable control switches. A pump controls the changing.

The light from four carbon lamps in the chamber above the operating room, is reflected by mirrors through the skylight and focused directly on the field of operation. The heat from this light is said to be very good for the patient during the operation.

MYSTIC BURMA, LAND OF WHITE CHEROKEE, MAY BE GIVEN SELF GOVERNMENT

Great Britain Considering Question of Autonomy in Oriental Country; Quaint Customs.

By HARRY L. ROGERS, International News Service Staff Correspondent. WASHINGTON, July 27.—The proposal to give a greater degree of autonomy to Burma has been referred to a committee of the British parliament which is now making a painstaking study of the whole situation.

In the past few years remarkable progress has been made in Burma, largely as a result of the efforts of the British administration, but the country still retains many of its curious and quaint customs.

The habit of chewing betel is common and women of every age and condition of servitude. The Burman has been said to smoke between chews and chews between smokes and have little time for anything else.

One respect in which the Burmese differs from the other Orientals is in the position of their women. Though they consider a man inferior to a woman, and though her fondest hope is that she may be born to this high estate in some future existence, she walks the streets in absolute freedom and puffs her cheroot to her heart's content.

Living Out is Fatal. Courtship in Burma is more open and natural than in the East. The young man usually manifests his interest at one of the pagoda feasts by shy attentions.

Before the young girl in Burma makes her debut she must have her ears pierced for earrings. The holes are kept open and enlarged by wearing in them glass or metal tubes of increasing size until they are half an inch in diameter.

A dead man in Burma always pays his fare across the mystic river of death with a small coin which he carries in his mouth. The curse that rests on grave-diggers as a class probably comes from the fact that most of the men of this trade have no scruples about digging bodies up for the coins.

The Burman is the cleanest and freshest of the races of his country, but his ears, which are no indication that his pockets will give forth the merry tinkle of coin. He has a pride that makes him in his own estimation second to none on earth.

Floating mines have been brought in from the Gulf of Finland, the mine or mine and the floating mine are then converted into soup tureens by the Kromati refugees who are being fed by the American Red Cross in Finland.

STRIKING

BODY OF UNIVERSITY PRESIDENT FOUND AT BOTTOM OF PRECIPICE

BANFF, Canada, July 27.—(U. P.)—Dr. W. E. Stone, president of Purduke University was found dead at the bottom of a deep ravine. Mrs. Stone was discovered unconscious. They attempted to scale Mount Cannon.

Spruce pine, from which satisfactory sawmill can be made at a cost much less than from other wood, grows on the mountains and foothills of the South in great quantities.

From the point of view of the Dominions and the Empire the maintenance of a fleet of airships would be invaluable in time of war.

HUGE SYNDICATE IS TO RUN AIR LINES

LONDON, By Mail. (U. P.)—The Air Ministry is back of a scheme to form an Imperial Syndicate, in which the whole Empire will be represented, to own airships and fly them.

During the war and since the signing of peace Great Britain has spent nearly 40,000,000 pounds (approximately \$200,000,000) on building dirigibles of various sorts, airship bases, and other lighter-than-air enterprises.

London to Egypt—Air time, 2 1/2 days; steamship time, 7 days. London to India—Air time, 5 to 6 days; steamship time, 15 days.

London to South Africa (via Cairo) —Air time, 6 to 7 days; steamship time, 21 days. London to Australia—Air time, 10 to 11 days; steamship time, 32 days.

From the point of view of the Dominions and the Empire the maintenance of a fleet of airships would be invaluable in time of war.
