SUPER STILL IS CAPTURED TODAY ON DRY CREEK

Biggest Outfit Yet Taken Located on Sams Ranch; Door Cleverly Hidden. GASOLINE HEATERS USED TO AVOID SMOKE ALARM. Dugout Entered Through Trap Door in Manger of Barn Found by Ridgeway.

The biggest moonshine outfit yet taken in Umatilla county was captured by Deputy Sheriff Ridgeway about 10 o'clock this morning, when he arrested Roy Sams presiding over two mammoth stills. The double outfit was housed in a dugout under the southwest corner of the barn on the Sams ranch on Dry Creek. Sams evidently thought he had so carefully concealed his plant that the officers would never find him. The dugout was entered by means of a trap door in the manger. This had been camouflaged but not enough to deceive the practiced eyes of the deputy sheriff. When the lid was raised, Sams was discovered carefully watching the two big stills in full operation. Sixteen barrels containing 800 gallons of mash were taken in addition to the two stills which are said to be of the latest model. Both were equipped with gasoline heaters so that there was no tell-tale smoke. This makes five stills captured this week and there is one more day to go.

PEACEFUL ZION SCENE SOMEWHAT WORLDLY ACT

ZION CITY, Ill., Aug. 5.—(U. Only the Zionists speedily work prevented the fires from spreading to the houses of the Zionists and Independents. The latter refusing to accept Voliva as a prophet and ruler are brewing discord beneath the peaceful surface. The fires are regarded as reprisals against the Zionites on the part of the Independents.

COLUMBIA COUNTY, WASHINGTON, WILL SHOW TRIPLAIT WHEAT AT NORTHWEST HAY & GRAIN SHOW; NEW VARIETY IS WINNER

Columbia county in Washington is showing in the Northwest Grain & Hay Show in Pendleton next month with the expectation of taking home the bacon. Such was the information phoned to County Agent Benson this morning by County Agent J. M. Lewis of the Washington county. He said that he would be here tomorrow and that he would be accompanied by the man who prepared Columbia county's exhibit at the Washington state fair last year. Agricultural men will remember that the Columbia county exhibit carried off highest honors. These men are coming tomorrow for the purpose of this early getting the lay of the ground where the show is to be held in order that they may the more intelligently prepare what they hope will be the prize winning exhibit. Columbia county will feature Triplait wheat. This is a new Washington hybrid variety. It was developed by the Washington State College and its sponsors claim for it that it is a better wheat than Hybrid 125 which is the predominant variety grown in this county and in the northwest at the present time. It is claimed that the variety is more semi-resisting, that it is higher yielding and that the quality is better. Fifteen acres of this wheat were grown by F. S. Curl & Son this year but as it has not yet been harvested there is no local comparison available. County Agent Benson says it appears to be a very good kind of wheat. In Columbia county last year on fifty farms Triplait gave a higher yield than Hybrid 125, Jenkins Club, or Turkey Red. This year they have 15,000 acres growing on approximately 100 farms. This is the most of this variety of wheat grown in the northwest.

DOUBT SHOWN OVER RELEASE OF PRISONERS

American Officials in London Place no Faith in Soviet Claims Upon the Subject. ONLY ONE PRISONER HAS APPEARED TO DATE. Hoover Wishes Assurances From Soviet Regarding Treatment of Americans.

LONDON, Aug. 5.—(A. P.)—The American relief officials here place no faith in the reports that the American prisoners in Russia have been released. A vigilant watch at every possible exit shows, they assert, that Mrs. Marguerite Harrison is the only one to come through. They regard the Latvian report of the release as a product of the bolshevik propaganda organization.

HOOPER IS WARY

WASHINGTON, Aug. 5.—(U. P.)—The state department has instructed the American Riga commissioner to make preparations to receive American prisoners released after imprisonment in soviet Russia, now reported as released. Hoover, heading the American relief administration is insisting upon negotiations with the soviet government itself before extending American food or other relief to famine-stricken Russia. Hoover is taking this position because he believes the soviet government is the only agency able to guarantee safe conduct to the American relief workers.

ONLY HOPE FOR TAX REDUCTION LIES WITH BUDGET-MAKER DAWES

Republican Congressmen Find it Hard to Keep Promise While Expenses Increase.

WASHINGTON, Aug. 5.—(U. P.)—The house ways and means committee's hopes for a tax reduction this year hang on Budget Director Dawes' ability to cut the government expenditures below Secretary Mellon's estimated \$4,550,000,000. A committee will probably ask Dawes to seek an economy plan immediately. The budget director is expected to appear before the committee again within a few days. Following Mellon's estimate of yesterday, the house republican leaders are beginning to realize that making good on a promise to cut taxes \$500,000,000 will be a difficult task.

WHEAT DOWN TODAY IN CHICAGO MARKET

The Chicago wheat quotations declined still more today, September closing at \$1.18 1/4. Following are the Overbeck & Cooke quotations received here.

Table with columns: Wheat, Open, High, Low, Close. Rows for Sept and Dec for both Wheat and Corn.

Wheat—Renewed liquidation immediately after opening, foreign buying power lacking and prices declined sharply until the market reached a position where some export business was done. This encouraged some to buy, but the ensuing rally was not maintained, and closing prices were at practically the low for the day. The bearish factor late in the session was the weakness in the Minneapolis cash market, where spring wheat was quoted from 5 to 15 cents lower. Other markets were relatively steady. A great deal of interest is being taken in Canada situation because of the deterioration in the American spring wheat belt. In consequence the statement of a prominent Canadian authority today to the effect that the wheat crop of the Dominion this year will be the largest since 1915, attracted attention here. We do not believe export demand is as yet sufficient proportion to permanently arrest the decline.
