

Social and Club News

ENTERTAINMENT GIVEN.

When the second annual normal school opened in this city in June, the teachers attending divided themselves into three groups, comprised of approximately thirty-five members each in order to develop the social activities of the school. Each division organized, elected a president and adopted a name. The first group called themselves "The Peptomists" and chose as their leader Miss Ester Marks. Group No. two decided to be known as the "Two Milers" and Miss Helen Means was their choice as head. Last came "The Yeast Cakes" noted for their rising ability and Miss Clair Marks led them on their way. During the past six weeks each one of these divisions have performed a "stunt" during the assembly hour. "The Peptomists" put on the organization of a kitchen orchestra and it was intimated that their performance was noisier rather than harmonious.

The "Two Milers" dramatized Huckleberry Finn and the "Yeast Cakes" called on the professor to give a music test for selecting soloists for the opera. So far we have not heard whether any of the pedagogues have resigned their contracts to follow other lines of work or not.

Last evening as a culmination of the summer session the three departments joined together and staged one grand finale that will long be remembered by those who were fortunate enough to have witnessed the performance. The first part of the program created much mirth when group number one staged "Faculty Facts." The assembled actors came onto the stage led by Robert Hough,

made up to represent Mr. Kezel, head of the faculty. He was followed by the instructors of the school impersonated by different members of the teacher students as follows: Miss Kay Houx, by Miss Edythe Boyd; Miss Jean McNaughton by Miss Virginia Harding; Miss Virginia Hales by Miss Alma Davis; H. E. Inlow, superintendent of schools was taken off by Morris Hickenbottom; Mrs. Pratt by Miss Mary Landale; Miss Eldora Ragon by Miss Effie Keaton and County Superintendent W. W. Green by Miss Margaret Hill. Don Orput, he of chautauqua fame, was added to the faculty and was impersonated by Ben Gerkin. The so-called instructors were given a singing lesson, staged a mock wedding from the poem "Ben Lochinvar" and the following psalm was adopted as their motto: "The normal school is my guide, I shall want no better. It maketh me work forty-eight hours a day; it maketh me roll and tumble in my sleep. Yeal though I walk in single blessedness all the days of my life I shall fear no evil. My note book and my text book shall comfort me and I shall dwell in the school house forever."

The Two Milers for their part of the program represented an old fashioned flower garden, the young ladies being dressed as roses, pansies, sweet peas, clovers, tulips and sunflowers, who presented a "Midnight Frolic." Dawn came to wake the flowers and each bunch delighted the audience with a song.

"An Afternoon in Darkey Town," showing the Yeast Cakes in a field of cotton was the last chapter on the successful program. They sang negro

songs, told jokes and ended with an old fashioned Virginia reel, for which they had been trained by Mrs. Will Wyrick.

Summer Normal closes today and goodbyes are being said. The teachers have voted it one of the most delightful terms they have attended.

Same Old Story But a Good One.
Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this country, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."

Hot Weather Diseases.
Disorders of the bowels are extremely dangerous, particularly during the hot weather of the summer months, and in order to protect yourself and family against a sudden attack, get a bottle of Chamberlain's Colic and Diarrhoea Remedy. It can be depended upon. Many have testified to its excellence.

Cause of Appendicitis.
When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation, which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.

Hunger, the Best Sauce.
Sauce is used to create an appetite or relish for the food. The right way is to look to your digestion. When you have good digestion you are certain to relish your food. Chamberlain's Tablets improve the digestion, create a healthy appetite and cause a gentle movement of the bowels.

HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

One of the miseries of summer work is caused by flies which are a real menace to the health of the family. There are precautions which can and should be taken to keep flies from breeding on the place but the greatest help to the housewife in keeping them out of the house is to have every window screen, full length if possible, every door screened and best of all, have the clothes screened. A comfortable baby means less work and less work means a more comfortable mother, so two devices which will be of help in the care of baby are also suggested as summer labor savers for mother.

The first of these is a screened coop where baby can sleep comfortably, free from flies.

A fence of netting about three feet high and a diameter of fifteen feet will give the toddler a place where he can exercise without needing watching every second. A said box and a low swing can be placed inside this playground and the little fellow who must have lots of activity can get it without getting in mother's way and be safe from dangerous accidents.—E. 10 LOCAL STUDENTS ATTENDING U. OF O.

UNIVERSITY OF OREGON, Eugene, Aug. 2.—(Special)—Umatilla county was represented by ten students at the summer term of the University of Oregon which closed last week. Three of these were from Pendleton. They were Rosetta E. Templeton, Elva Boone and Dorothy L. James. James D. Harrah, principal of the Umatilla high school, and Harold R. Benjamin, principal of the Umatilla high school, were among the other students from the county.

Roy L. Davidson, for the past year a teacher in Helix high school; Cora M. Warner of Freewater; Mrs. Robert M. Gunn of Hermiston; Lindsay Eastland of Freewater; and L. Macken, principal of the high school at Pilot Rock, made up the rest of the Umatilla county students.

University officials declare that the 1921 summer term which closed last week was the most successful ever held out the Eugene campus. It exceeded all others both in the scope of its courses and the number of students enrolled in them. On the Eugene campus there were 342 students registered, an increase of 57 per cent over that of last year. Adding to this the 512 who took work in the summer term of the Portland extension center of the university the total is found to be 854, a record summer enrollment.

U. S. WISH REGARDING MEXICO IS TO PREVAIL

IS GREEN NO MORE

"My experience with your medicine has been wonderful. My stomach and liver trouble of five years standing took a new turn two years ago when I took on an olive green complexion. I spent \$1,200 with doctors and specialists only to prove that I was still as green as ever. A friend advised me to take Mayr's Wonderful Remedy, and I am green no more. My stomach and liver trouble has all disappeared. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Druggists everywhere.
