HOME DEMONSTRATION IDEAS FOR HOUSEWIVES
Simplicity is the keynote of all art, and nowhere, perhaps, does it play such a prominent place as in the decorating of our homes. "Exactly all the trouble with the decorating of our homes is that we crowd too much into a small space. We have not learned how to eliminate. To eliminate is, perhaps, the hardest lesson to get and to practice. We become so wedded to this picture and that, to this knick-knack and that, we simply have not the courage to put them on one side; and so we go on and on, adding all sorts of things in terms of the furnishings rather than in terms of the room itself."
Now as the time for freshening up our homes is here and we take down the many pictures, calendars and what nots, how many of us are going to have the courage to store the surplus amount and in the space where formerly several pictures hung, to place but one?—E. V. D.

NEGROES PLASTER FACES WITH WHITE BEAUTIFIERS
PHILADELPHIA, Aug. 6.—(I. N. S.)—White "beauty spots" for dusky complexion made their appearance among the negroes here recently. The new fad is now all the rage and negro stores are doing a record business in sticking plaster of the white variety.
"Thin little white patches do sure make the men look at you!" remarked one chocolate brown beauty to a circle of admiring friends of her own sex. "You can cut 'em in circles, or crescents, or stars, but de effect is de same."
And, as though in response, a negro "spiritual" preacher on the opposite corner shouted, "Anyo' shall see de lion, an' de bear, an' de wild kangaroo!" and offered prayer.

JAPAN LEADS
HONOLULU, Aug. 6.—(I. N. S.)—Figures just made public by the inspector in charge of the United States immigration station at Honolulu shows that of the 4,794 aliens admitted to Hawaii during the fiscal year 1920-21 3,729 were Japanese, 797 Chinese and 26 Koreans. Of the Japanese 2,332 were "picture brides" coming to join their husbands. During the same period 4,214 Japanese left the Territory, or 385 more than were admitted. This, however, does not mean any reduction in the Japanese population of the islands, as the births during the same period numbered 2,372 with only 499 deaths. The total Japanese population in Hawaii is 195,274, according to latest census returns. Other significant figures contained in the immigration inspector's report are those showing that 3,732 Filipino laborers have been imported during the year for work on the plantations, while 1,145 Filipinos returned to the Orient owing to the expiration of their contracts.

WOULD CUT COST
LOS ANGELES, Aug. 6.—(I. N. S.)—With substantial wage reductions already in effect among the working mechanical forces of some of the leading motion picture producing companies here, and the remainder planning similar action soon, a long-running program of retrenchment in costs of studio labor is under way, it is stated by studio officials. Decreases in the returns from pictures produced here have caused all of the producers to realize that the strictest economy is necessary in future productions that good pictures may be made cheaply, according to one official. Reductions in wages and salaries are but part of a general plan to reduce costs in all departments. It was added, and there is no attempt being made to force reductions because labor is plentiful. The basic cause for the extensive slump in the film industry is said to be that fewer people are attending shows and that they are paying lower prices.
