MOST MILES PER DOLLAR

O the great army of car owners who confidently look to Firestone for economy and protection in tires, most miles per dollar stands as the guardian of value.

Twenty years ago it meant "intent." The Firestone Organization pledged itself to work to this high standard. Today there are two decades of experience and millions in resources back of it.

That is why good dealers offer you Firestones with such sincere endorsement. They know that the name these tires carry—the signature of the active head of the organization which builds them -is the safest guarantee of mileage you can ask.
