CHICAGO MARKET SHOWS SLIGHT DECLINE TODAY

September and December wheat are quoted a quarter of a cent lower in today's Chicago market than in yesterday's market. September grain closing at \$1.22 and December at \$1.25.

Wheat—The idea was prevalent this morning that the bullish government report would stimulate outside buying but the theory proved unfounded, and as soon as scattered demand had been filled the market developed a weak tone. Cash markets were firm with spot offerings readily taken by milling and export interests. From the winter wheat belt came advices to the effect that a great many farmers are imbued with the idea of higher prices and are refusing to sell. On the other hand the spring wheat movement is just about to get under way, followed immediately by the marketing of the Canadian crop. The latter is expected to take place promptly and in large volume. Broomhall estimates Europe requirements 623,000,000 against surplus in exporting countries of 664,000,000. This is a very close adjustment, especially as North American surplus is figured at 469,999,000. The United States at the best will hardly be able to share more than 150,000,000 and Canada can hardly make up the remainder, 240,000,000 bushels. The need of outside speculative buying this time is imperative if prices are to be maintained.

PENDLETON MERCHANTS

are carried out. In addition to these changes, it is probable that a style show will also be held, but plans of this part of the program have not been completed. The style show proper may be a part of the exhibition in the Happy Canyon auditorium, or it may be staged in the arena. Live models will be used to display the latest styles in wearing apparel. The decision as to just what part the show shall bear to the festival will be decided soon. The merchants' committee of the Commercial Association has charge of the work. Charles E. Bond is chairman and the other members are Harvey McPherson, W. E. Brock, Carl Cooley, R. D. Sayre, Philo Rounds, John Lang, H. K. Mangold and Carl Hopf. Charles Bond will be chairman of the arrangements committee, Philo Rounds will have the entertainment features in charge, and Carl Hopf heads the committee on decorations. Other committees will be appointed later in the week, and work in earnest will be in full swing before the week is over.

MRS. WILSON HAD ABANDONED HOPE

Portland Woman Fell Off From 150 to 103 Pounds But Gains It All Back.

"I'm never going to say anything is impossible again since Tanlac has restored my health, for when I began taking it I didn't believe I would ever know another well day," said Mrs. W. E. Wilson, 54 East Twenty Ninth St., Portland, Ore.
"For years my strength had been gradually wasting away and I had grown so thin that I was hardly more than a shadow. I barely ate enough to keep body and soul together and I was no run down it tired me down to walk even a few blocks. None of the medicine I tried reached my case, and as my condition was growing worse every day I finally gave up hope.
"When I began taking Tanlac all I expected of it was to give me some temporary relief, and it certainly has been the blindest and kindest surprise of my life the way this medicine has restored me to health and brought back my strength. I have a splendid appetite, my digestion is perfect and I sleep all night long like a girl. I have regained all my lost weight too. Just think of it! When I began taking Tanlac I only weighed one hundred and three pounds and I now weigh exactly one hundred and fifty pounds, which is my proper weight. There's not a doubt in my mind that Tanlac's the best medicine in the world."
Tanlac is sold in Pendleton by Thompson's Drug Store and by leading druggists everywhere.
