### HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

- Food Habits of Children
  - An important factor in the proper feeding of children is the establishment of good food habits. They should be taught, first, to eat what is given them, providing of course, that it is wholesome. Second, to eat slowly and in an orderly manner. Third, to come to their meals with clean hands and faces. Children should not be forced to eat when they are not hungry but should be allowed to eat sweets between meals or "just before meals." They should not be allowed to drink tea or coffee and should use healthy outdoor exercise to create an appetite rather than to tempt it with special foods or methods of cooking.
- Food Habits of Delicate Children
  - This special class of children invariably take too little food, in which weight is affected more than health. An amiable nervous system and sometimes retarded mental development are present. Physical causes modify the food intake through fatigue, mental distress and body defects. Body defects should be eliminated so far as possible in order to bring about the proper nutrition. These children should be kept out doors and should sleep out doors if possible, taking an afternoon nap if it can be arranged with out too much effort. Wholesome, simple foods must be selected and records should be kept to determine the gain or failure to gain, so that a change in the diet may be instituted.

## STEAMER SAN JOSE WILL BE TOWED INTO PORT

SAN DIEGO, Aug. 10.—(U. P.)—The destroyer Farquhar carrying 24 passengers from the wrecked steamer San Jose, is reported to be nearing here. The damaged vessel will probably be towed into port.

Quantities of the cargo is being jettisoned to lighten the vessel in an effort to keep her afloat. The passengers spent 23 hours on the barren beach of Lower California before the destroyer Farquhar reached them to bring them here. The captain and crew are remaining aboard the vessel.

Passengers Remain on Coast  
Contrary to early reports, the destroyer Farquhar is not bringing San Jose passengers to San Diego. Thirty-three are camped on the beach of Lower California, near Amador Island, awaiting further wreck developments. They have provisions and most of their baggage. A Farquhar radio said the water in the San Jose boat was gaining on the pumps and it is doubtful if they will be able to save the steamer. The steamer Griffin is expected to arrive late today and hopes to be able to float the stranded vessel. No lives were lost and none were injured.

## WOULD BREAK PRESENT LEGISLATIVE DEADLOCK

WASHINGTON, Aug. 10.—(U. P.)—President Harding is conferring with congressional leaders in the hope to break the legislative deadlock and give congress an early short vacation. The body is considering the extent of the tax cut, the tariff bill agreement satisfying the producers and consumers all over the country, and the enactment of the railroad relief measure. Republican leaders are deadlocked with secretary Mellon over the appropriations needed to run the government. The tax reduction problem seemed on the point of solution when the house leaders accepted the president's program including a reduction of government expenditures half a billion; to collect funds through collection of back taxes, and sale of war materials; to repeal excess profits-tax and reduce surtaxes to 22 percent as of January 1st, 1922; to repeal the nuisance and luxury levies effective the first of next year; to cut transportation taxes in half the first of next year, and repeal them January 1, 1923, and increase the flat corporation tax to 15 percent.

### DRUNKENNESS INCREASES

LONDON, Aug. 10.—(U. N. S.)—Drunkenness showed an increase of 85 per cent in Britain during 1920, according to recently published statistics. The decrease in the licensing hours of saloons and the inferior grade of the beer, strangely enough, is given as the chief reason for this increase.

### TRIP PROVES

(Continued from page 1.)

It is mostly through timber and is an artery of trade and travel it leaves much to be desired.

All that timber country needs to do is cooperate with Grant county in constructing our part of the Pendleton-California highway and Umatilla county will become the natural outlet for Grant county. It is a cause worth striving for because such a highway will mean much to both counties. It is a highway that just lies state aid because it is a through road. It is the shortest route to California and it is worth mentioning again that this is the route that was chosen by Walter McCormack when he made automobile history with his famous low-gear Franklin run to San Francisco.

### LOCAL COLOR

"Local color" was provided in abundance at Ritter. As a result Col. Burleigh has ample material for a new book if he wishes to write one and find a publisher that uses substance.

Lee Shannon, roadmaster drove into Hardman he inquired of a resident the road to Heppner. "Take the first right hand road" was the reply. They did so and after traveling about an hour they arrived at a small town. It was Hardman to which they had returned after "looping the loop." After that experience they used their own judgment about roads.

Henry Kuhl, president of the Twin Cities Commercial Club in Grant county was a tackle on the O. A. C. football team in the days when Clarence Bishop was a star player on the University of Oregon team.

L. A. McClintock is a lover of music and a harmonica orchestra in his party did noble service. In times of trouble, danger or joy Mr. McClintock always called for music to suit the occasion. A lively frolic took the arrival of the McClintock car in Heppner.

Col. George Ferguson who became "one of the best known men of Grant county" had had luck near Monument and it was feared he would have to reside in that town for a day or two but early Tuesday morning the Ferguson car rolled into Heppner. George had talked a blacksmith into becoming a first class auto mechanic.

They should call it "Painted Valley" says Charles Wellington Purdon of the country around Hamilton and Monument. This because there is a wonderful rock formation there not seen elsewhere in Oregon. There are cliffs of wonderful coloring in reddish brown and various other hues. The colonel thinks that if that country should ever be opened up to traffic the tourists would go wild over it.

J. B. Perry and Grant Earhart are two Pendletonians sojourning at Ritter Hot Springs. Mr. Perry was bound for his ranch in Harney county and had stopped for a rest at Ritter.

Enroute to Heppner Monday evening the party had a taste of a thunder storm in the timber. Vivid flashes of lightning enlivened the occasion and a fact that made the trip particularly interesting was a report heard in Grant county that two men had been killed by lightning near Prairie the night before. All the cars were delayed on the Heppner trip excepting the Pendleton Auto Co. car driven by L. J. Breslin. This car reached Heppner at 1 o'clock and the delay of the other cars in arriving caused fear of accidents but they all make the trip in safety.

All members of the county courts of Umatilla and Grant counties met in Long Creek on Monday afternoon. The Grant county court members expressed entire agreement with Commissioner Caswell in support of the north and south road.

J. C. Clamen, of the local party, was one of the few men who knew the Grant county territory. He has a ranch in Harney county and has been all over the interior region.

On the run to Pendleton yesterday the Sturges party came over the Butter Creek road to Echo and found it badly in need of improvement. Most of the cars came home by way of Vincent and the ridge road to Pilot Rock.

### LOST MEMORY IN ACCIDENT

DENVER, Aug. 10.—(A. P.)—Roland B. Mason of Idaho Falls, Idaho, whose wrecked car was found a week ago near Ogden, Utah, has been discovered in a hotel here. He lost his memory it is believed through the accident. A big reward was offered for Mason who was a prominent business man.

### MOVIES WITHOUT PISTOLS LIQUOR SCENES, KNIVES, OR LONG KISSES COMING

CHICAGO, Aug. 10.—(A. P.)—Movies without pistols, liquor, scenes, knives or long kisses are coming soon according to a party of official censors of the sustern states and Canada on their way to inspect the California studios. The front porch apple pie girl will appear in the vamp.

### WOMEN CONTINUALLY OVERDO

This applies to all women, regardless of caste or color. The ambitious girl striving for school honors, the over-worked housewife, the shop girl, girl in office and stores, and the society woman, all climb too high, overtax their strength, and what follows? Nervous prostration, sleeplessness, headache, and the inevitable weakness and ailments peculiar to their sex soon develop, which unless checked bring on more serious conditions, and which often lead to operations. An efficient restorative for such ailments is Lydia E. Pinkham's Vegetable Compound, which is now recommended from coast to coast as a standard remedy for woman's ills.
