DIMINUTION OF ARMS WOULD BENEFIT JAPS

BY T. N. SANDIFER, International News Service Staff Correspondent.

WASHINGTON, Aug. 11.—Of the nations which will gather around the table on November 11 to discuss disarmament Japan, as a nation, has the most to gain financially, it is indicated in unofficial figures gathered here and made public today.

Despite this evidence Japan has been the leading objector to the procedure, although on the face of the figures referred to the Japanese have everything to gain and nothing to lose by an economy program; for, in spite of the comparatively enormous increase in that country's prosperity during the war, Japan is lagging today under an armament program which still is short of what the Japanese "junkies" would like to have it. There are strong reasons, however, for not only showing prudence in attempting to compete with other nations in an armament race, but in Japan endeavoring to secure from the other nations an agreement to discontinue to present schedule.

One reason is that it costs the Japanese about eight times as much to maintain his navy as it does the American citizen to carry his ships along, according to the unofficial figures gathered here. According to these figures, based on population, earning power and expenditure, the percentage of "relativity" of the naval burden over carrying capacity is in the United States, 1; Great Britain, 1.9; or nearly double America's; and Japan, 7.7 per cent, or nearly eight times what it costs the individual American. The population of the United States is 105,000,000; Great Britain, 45,000,000; and Japan, 56,000,000. In this connection, the statistics reveal the cost of the British navy is borne entirely by the British Isles and not by contributory colonies. The average annual earnings per capita of these countries are: United States, \$2400; Great Britain, \$1600; and Japan \$100. The total annual earnings are: United States, \$250,000,000,000; Great Britain, \$72,000,000,000; and Japan \$5,600,000,000. Of these earnings the proportionate expenditure is: by the United States, Great Britain, 1.1; and Japan, 4.5 per cent. This proportionate expenditure out of the annual earnings, divided over the several populations, increases or decreases with the number of people in the country, thus accounting for the actual cost per person.

ANT-CHILDREN WAR STARTED BY LANDLORDS

LOS ANGELES, Aug. 11.—(U. S. S.)—Headed by a union crusader, Mrs. Fern Ince Crosby, an attractive young war widow, has started what she hopes will ultimately become a nation-wide campaign to force landlords to drop a hostile anti-children attitude.

Claiming to have been denied admittance to practically every apartment house in Los Angeles because of her beautiful daughters—Dorothy, aged 7, and Irene, aged 9—Mrs. Crosby has entered upon what she terms a "war widows' fight."

"I gave my husband for the good of the world. Now the landlords refuse admittance to me because of my two children, whose father died fighting to secure peace and comfort for these very landlords," declared Mrs. Crosby.

She asserted further that women with children are practically barred from all property in Los Angeles, "No children" being the sign which welcomes mothers from many houses and apartments.

The patch government will rebuild and rebuild to France the French city of Lens. Before the war Lens had 24,000 inhabitants.

UNRULY TENANT NOW LIVES IN CITY'S HOTEL

SACRAMENTO, Aug. 11.—(U. S. S.)—Landlords attention! Here's a new way of collecting rent from unruly tenants.

H. C. Johnson is an ex-prize fighter. He lived in an apartment in this city until 2 o'clock this morning, when his post office address was changed to "Cell No. 2, City Police Station."

Johnson refused to pay his rent, or at least this is what Samuel Shooks, the proprietor of the apartment, says Shooks argued, but to no avail. He thought of a physical argument, but after reviewing his tenant's ring record decided against it. He went back to his own apartment and waited until his unprofitable tenant slumbered. Then he slipped to the back door, called it up securely and performed the same task at the front of the house and on all the windows. Having done this he called the police. Johnson paid his rent, but the police were not satisfied with his demeanor, so they placed him in the city hotel, which charges no rent.

A Northwestern University professor has, after three years of experiment, produced red, white and blue corn by crossing red and white ears to make blue ears, and then grafting the three varieties. The professor believes he can perfect corn so that the rows of kernels will show solid bars of red, white and blue.

ROTHSTEIN, ERSTWHILE NEWSPAPER MAN, MAKES HIMSELF 'BOSS' OF PERSIA—AIMS TO INJURE ENGLAND

BY NEWTON C. PARKE (International News Service Staff Correspondent.) LONDON, Aug. 11.—Nicholas Rothstein, one-time London newspaperman, is the new "boss" of Persia, according to information received here. Sent to Teheran on a special mission by the Soviet Government, Rothstein gradually worked his way into the good graces of the fat boy Shah and his ministers, made a distinct hit with the Persian people and now possesses such political power that he is planning to set up a Bolshevik Ministry. Rothstein was a British Subject. Before the war he was noted for his radical writings, and he frequently said things that greatly displeased the British Government. But he was so keen and wide awake that when the war broke out he was placed in one of the intelligence branches of the War Office, where he gained an insight into government activities. When Lenin and Trotsky seized the reins of power the former newspaperman became an avowed Bolshevik. After the Litvinoff mission was expelled from England he played the part of unofficial Soviet Ambassador and was the connecting link between the Moscow Government and English Communists. His propagandist activities led the British Government to revoke his naturalization papers, and he was sent to Teheran, arguing that his special knowledge of British affairs in Persia peculiarly fitted him for the task of wiping out British influence at the Shah's capital and converting the country to Bolshevism. Arriving at Teheran, he speedily won favor with the Shah and his court by showering them with costly presents and all kinds of attentions. He made a great hit with the people by inviting them to make themselves at home in the beautiful gardens of the Russian Embassy.

Within a few weeks Rothstein had organized a propaganda service and was dictating policies of Persian newspapers. He obtained the support of nominal tribes by liberal expenditure of Moscow money. Now he is reported to be preparing a new coup—the setting up of a Bolshevik Ministry that will revoke all the concessions previously granted to Britain.

SAW BLUE SNAKE IN DRY STATE

POPULAR BLUE, Mo., Aug. 11.—It's snake time in southeast Missouri, according to James Hendrickson, newspaper correspondent. Hendrickson was hawking around the new-mown hay after a "story." A peculiar noise attracted his attention. He turned around and looked squarely into the face of a "blue racer" snake. Hendrickson "brezzed" swiftly away. He stopped two hundred yards away, wiped the perspiration from his brow and turned around. As if smiling, Hendrickson relates, the snake was again looking up at him. When the correspondent climbed a tree the snake ambled away.

MOUNTAIN STILLS IN WEST

SAN BERNARDINO, Cal., Aug. 11.—(U. S. S.)—Moonshiners who use the latest and most scientific methods, and who are said to peddle their wares to patrons of fashionable mountain resorts, are reported to be operating in the vastness of the picturesque San Bernardino mountains. In a recent raid on what appeared to be an innocent cabin above Big Bear Lake, federal officers found a still operated in connection with an electrical plant.

What Is Every Mother's Hope For Her Children? Sturdy, energetic children radiating health, are a source of pride and joy to their parents. And their development depends largely on their food. Children, undernourished and unwisely fed are weak and unhealthy, and many times anemic. Disease easily grasps them, for their undeveloped constitutions are unable to resist the disease germs. No food will have greater influence in making your children vigorous and healthy than Grape-Nuts. Served with milk or cream, Grape-Nuts is an ideal body, brain and nerve food. It is made from wheat and barley. Grape-Nuts offers a high food value, and it is as delicious as it is healthful. Children find delight in the crisp, sweet richness of Grape-Nuts. A dish at breakfast or lunch for a few days and you'll agree "There's a Reason" for Grape-Nuts. Nutrition and economy combined. Grape-Nuts—the Body Builder "There's a Reason"

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains, so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. LEANNE L. CASSEN, 18 Men's Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill. Made well by Lydia E. Pinkham's Vegetable Compound. Fayette, O.—"For about three years I was very nervous and had backache, sideache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience: Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. McQUERRY, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuerry will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not realize who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength. Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.
