Stock Sales Show

Suffering of Market

NEW YORK, Aug. 13.—(A. P.)—Selling of stocks resumed yesterday and for a time the decline made further headway, but in the late dealing the market stiffened, with the closing steady. Sales were 430,000 shares.

Pressure was directed against the industrials and the standard rails were comparatively steady. In the early decline Bethlehem Steel, General Electric, Royal Dutch, Sears Roebuck and various other issues were marked down a point or more.

The shorts, apparently, were none too sure of their position, however, and hesitated to press their advantage.

Rail equipment and shipping shares were in demand on the late rise, in which there was considerable short covering.

Although the movement as a whole was of small proportions, weakness developed in a few spots. American Writing Paper preferred dipped to 20%, the lowest since 1915.

Central Leather common and preferred yielded about four points each, and these issues, together with Utah Copper, Continental Can and United States Alcohol, reached low points.

Heaviness again predominated in the bond market, although several of the weak features of yesterday made recoveries.

Central Leather 55, Chile Copper 65, Mercantile Marine 65, Central of Georgia 54 and Oregon Short Line refunding 45 declined one to 1-1/2 points.

Reading 45, Southern Railway 45, St. Paul refunding 4 1/2-2s and Chesapeake & Ohio convertible 4 1/2-2s and 5s lost substantial fractions. Total sales, par value, \$7,550,000.

Foreign exchange rates were irregular, with a narrow range.

Call loans carried over until next week at 4 per cent.

British Foreign Reports

Makes Lower Wheat Prices

CHICAGO, Aug. 12.—(A. P.)—British crop estimates from France and Canada tended some what to depress the wheat market, yesterday.

Prices closed unsettled, 1-2c to 2c net lower with September \$1.23 1/2 to \$1.25 1/2, and December \$1.25 1/2 to \$1.27 1/2.

Corn lost 1-2/8 to 5-8c to 1c, and oats 1-4 cents to 7-8c. In provisions, the outcome varied from 40c decline to a rise of 2-1-2c.

Downturns in the price of wheat took place chiefly during the last hour of trading, the market earlier having been steadied by commission house demand based to a large extent on the assumption that sooner or later export business would develop in sufficient volume to absorb all the wheat surplus in the country and Canada.

Confidence in this view, however, received an unexpected jolt from a statement by the French minister of agriculture putting the yield of wheat this season in France at 49,000,000 bushels above current trade figures and asserting that foreign purchases had exceeded the country's requirements by 25,000,000 bushels.

The Canadian crop was officially estimated at 285,000,000 bushels as against 265,000,000 bushels harvested last year.

Liberal country offerings weakened corn, December touching the lowest level yet this season.

Oats, like corn, lacked support. Provisions averaged lower as a result of scattered selling which more than counterbalanced the effect of higher quotations on hogs.

Presenting
The New Buick Four

The new Buick Four is a distinctively Buick creation in every feature of design and construction. It embodies those principles of construction that have characterized Buick automobiles for more than twenty years.

The engine is of the famed Buick Valve-in-Head type. The bore is 3 3/4" - the stroke, 4 1/4". Wheel base, 109", turning radius, 36'.

A Marvel carburetor with the new automatic heat control insures proper vaporization of the common low grade of commercial gasoline.

Multiple disc clutch, the transmission and universal joint are of standard Buick construction—the universal joint

being lubricated from the transmission. The rear axle is the three-quarter floating type, with semi-elliptical type springs front and rear. The frame is a deep channel section, strongly re-inforced with four cross members.

High pressure Alemite system provides lubrication. Delco equipment with Exide battery insures efficient starting, lighting and ignition.

All models have non-glare headlight lenses—all are complete with tire carrier and extra rim. Closed models are equipped with adjustable windshield visors, windshield cleaner, dome light, ventilating windshield, adjustable windows, and sun shade in rear window.
