

# People Here and There

A. C. Barbo, salesman for the Oliver Chilled Plov Co., was a business caller here today.

Guy Huguenin, local contractor, left yesterday for Starbuck, where he will construct a new gymnasium. The building is to cost \$20,000.

Lionel Harthorn has returned from Walla Walla where he has been for about 10 days on a vacation. He is in the county recorder's office.

Fred Gaskill, a prominent Union county man, was here yesterday from La Grande. He has been over the road between Pendleton and La Grande many times this summer, but their condition is better right now than at any time all season, he reports.

Gus Peret, representative for the Peters Shell Co., is a Pendleton business visitor today. Mr. Peret returned in June from Alaska, where he spent two months on business in the southeast and southwest parts of Alaska. Mr. Peret, while on a five day hunting trip, killed a 500 pound Kodiak or Alaska brown bear. He was accompanied on the trip by a picturesque native, Harold Bailey. Mr. Peret expects to go on a deer hunting trip to southern Oregon this fall.

Dr. and Mrs. Louis Brave and three children, of New York, were in Pendleton yesterday and left this morning by motor for their home. Dr. and Mrs. Brave recently motored from New York to Los Angeles by the Arrowhead route and report that the road is in very poor condition. They made the trip to Los Angeles in 22 days. The visitors, who have camped in many auto camps, report that the Pendleton tourist park compares very favorably with others they have visited.

## NEWS OF THE COUNTY OFFICES AND OFFICERS

### Enjoying Vacation.

A letter received at the office of the county treasurer from Miss Grace A. Gilliam, county treasurer, who is spending a vacation at Pasadena, Calif., is to the effect that she is enjoying her visit very much. She is a guest at the home of Dr. T. H. Agnew.

### Suit Brought on Note

A note said to be unpaid and past due is the basis of a suit that has been filed in circuit court by H. E. McQuary and D. W. Maris against C. D. Walter and others. The judgment sought is \$660.26 together with interest charges and attorney fees. J. H. E. Scott represents the plaintiffs.

### Dump Hoop, Break Stills.

A little party was held at the courthouse yesterday afternoon about 2:30 o'clock. A large quantity of moonshine, wine and homebrew was poured into the gutter, and several stills were demolished. The ceremony was attended by members of the sheriff's force and by Judge Schanep and C. Z. Randall, deputy district attorney. Judge Schanep did the "Carrie Nation" act by using a hatchet on some stills. A crowd of bystanders gathered and mournfully watched the proceedings.

### Cruel Treatment Charged.

Cruel and inhuman treatment is the basis of complaint in two divorce cases that have been filed in circuit court. Nancy Smith seeks a divorce

from J. L. Smith. The defendant is a policeman at La Grande. Although the defendant is an able-bodied man, according to the complaint, he has provided only \$55 for the plaintiff during their married life which dates from December 23, 1913. Fee and Fee represent the plaintiff. Milia M. Addington seeks a legal separation from Lloyd M. Addington. George W. Courts represents the plaintiff.

## NEWS NOTES OF PENDLETON

### Tacoma Party Coming.

A delegation of 125 businessmen of Tacoma is to arrive here Thursday morning September 22, to attend the Round-Up that day. The party will make a trip through Eastern Washington and stop here en route home via Portland.

### Strawberries Are Grown

Despite the lateness of the season, Dan Bowman, of Mission, gets from three to five gallons of strawberries from his strawberry patch each week. The berries are sweet and delicious and Mr. Bowman says that they will continue until the frosty weather comes. One strawberry plant shows ten berries on a stem.

### \$650 Paid.

Unatilla county restaurant and hotel keepers and dairies paid \$650 into the coffers of the state as the result of recent prosecutions for violations of the dairy and food laws, according to a bulletin issued by C. L. Hawley, commissioner. All dairies of the county now have the equipment required by the commission.

### Rainfall Is .64

Rainfall last evening was .64 of an inch, says Major Lee Moorhouse, official weather observer. The rain followed an electric storm. The moisture will cause a delay in harvest operations but was not heavy enough to damage the grain. It toughens the chaff, however. The maximum temperature today is 82, the minimum 60, while the barometer registers 29.52.

### Injured are Recovering.

Mrs. Earl Pudcel and little 14 months old son, Harold, seriously burned in the fire on Thompson street yesterday, are convalescing at the hospital. The burns are most painful but mother and child will recover. Floyd and Lloyd, twin sons of Mr. and Mrs. Purcell, are being cared for by Mrs. Charles Keon and Mrs. Boyd. Mrs. Purcell rescued the children from death during the fire yesterday.

### Want Permanent Boys Camp.

The question of obtaining for the boy scouts the regular use each summer of the camp they occupied near Emigrant Springs this year was discussed at the Rotary luncheon today. It was reported following the boys trip to the mountains that it is desirable to have permanent use of the grounds if possible and steps will be taken to see if this privilege can be obtained. The land is owned by Paul Bowman.

### Under Walla Walla Office.

As a result of orders in effect since August 1 H. W. Hicks, who has long represented the O. W. R. & N. Co. here as traveling passenger agent, is no longer assigned to this territory. His district is now limited to the region between Portland and Messner and Pendleton is under the jurisdiction of the O. W. R. & N. office at Walla Walla. However, it is said Mr. Hicks may still be seen here on any special subjects that may arise.

### Oil Indications Strong.

That they are getting mighty close to oil and gas as a result of the drilling that is being done near Attalla is the report that is brought back to Pendleton by stockholders who have visited the scene of activity. The gas pressure is getting stronger, according to the reports, and more oil is being secured. The drills were idle last night on account of a lack of power during the electrical storm. Drilling was resumed this morning.

### Vagrants Get Jobs

A force of prisoners have been working on the Round-Up grounds today following the jailing of 14 last night. This morning in police court Acting Judge Halley gave them 10-day sentences on charges of vagrancy. Two of the men picked up are thanking themselves that a jail sentence is the worst thing that happened to them. Last night when No. 18 was waiting to leave, the tramps kicked open a door on an extra mail car, started to crawl into the car for a ride, and they found themselves looking into the business end of a gun. Mail clerks have instructions from the postoffice department to shoot first when approached by tramps, and to investigate afterwards, and the police declare that the wanderers emerged from the car without delay.

### Results Are Favorable.

Results from the recent thinning demonstrations held at Milton are most favorable, says Fred Pennion, who returned yesterday from Milton where he checked up on results and made plans for a joint orchard tour in which Unatilla and Walla Walla county growers will join in September. At the demonstrations, thinning was done in two orchards owned by J. F. Slover, two owned by W. C. Hopson and one owned by W. N. Mumford. In the orchards, one tree was thinned so that apples were from eight to nine inches apart, another five to six, another three to four, while another tree was not thinned at all. This was repeated three times. Results show that the unthinned trees have scarcely any marketable fruit, those in the three to four class have a large part unmarketable, while the trees on which the apples were left from five to six inches apart show a good marketable crop. On the trees with apples nine inches apart, the fruit is larger than on other trees but it is uncertain if the value will equal that of the other trees. Fruit growers, Mr. Pennion says, are well pleased with results. Half the apples were pulled off the trees in June when the work was carried on.

## AVIATORS ORDERED TO KEEP HIGHER ALTITUDE

TACOMA, Aug. 17.—(U. P.)—Aviators at Camp Lewis have become high flyers through necessity, although some of them were said to have been that through choice before orders came from the war department at Washington ordering all airplanes to put a good sized ozone belt between them and Mother Earth when passing around the country. No aviator shall fly lower than 1000 feet when passing over assemblages or cities, according to the chief's orders, which were issued chiefly to restrain aviators engaged in stunt flying. The higher a plane flies, up to a certain point, the safer the aviator is, and recently crowds have been endangered by aviators swooping close to the crowds watching their hair-raising feats, according to officers at the camp.

## SHE COULDN'T WALK ACROSS THE ROOM

Portland Woman Spent Most of Time in Bed and Chair—Is Now in Perfect Health

"I am convinced I wouldn't be alive today if it hadn't been for Tanlac," said Mrs. Eliza Scott, 225 Hall St., Portland, Ore. "My main trouble was rheumatism and I don't believe anybody ever suffered any more from it than I did. There were times when I couldn't walk across the room and it hurt me so much to move I couldn't even turn over in bed without screaming. I spent most of my time in bed and in my chair, and nobody will ever know what I suffered, as I can't describe it. I kept falling off in weight until I just gave up in despair, thinking the end was not far off. It's just wonderful the way Tanlac rid me of all my troubles. My rheumatism is completely gone and the other day I walked down town and back, a distance of twenty blocks, and never felt tired. Everybody is telling me that I am the picture of health and looking years younger, and I know I never felt better in all my life. There's no doubt in my mind that Tanlac's the best and grandest medicine ever made." Tanlac is sold in Pendleton by Thompson's Drug Store and by leading druggists everywhere.

## BLIND MAN IS ARRESTED CHARGED WITH MURDER

EL PASO, Aug. 17.—(A. P.)—Rammon Ramirez, 29 years of age and blind, has been arrested and charged with murder. It is alleged he entered the home of Mrs. Conrado Alazar, 22 years of age, beat her to death and seriously clubbed her three small children. The police say he admitted the crime, saying the victims would be better off dead.

## PREDICTS PROHIBITION WILL COVER WORLD

SAN FRANCISCO, Aug. 17.—(U. P.)—Delegates from various parts of the country, attending the convention of the Women's Christian Temperance Union, predict that prohibition will sweep the entire world. "Nations are beginning to realize the economic advantages of prohibition," Mrs. Wenona Gordon, national president declared.

## NEW ADVENTIST CHURCH STARTED AT BOARDMAN

(East Oregonian Special.) BOARDMAN, Ore., Aug. 17.—The Columbia highway east of Messner is being improved with crushed rock from thirteen miles west. This rock makes a much better surface than the washed gravel available near at hand.

Mrs. S. H. Boardman is receiving a visit from her brother and nephew Mr. Hawkins and son from Missouri. The school is being put into good condition for the opening of the session on September 6th. Charles Barnes will take up the janitor work this week since his brother who was chosen cannot accept.

## WHY SENATOR NEW DOES NO ENTHUSE OVER GOLF

MANCHESTER, N. H., Aug. 17.—(U. P.)—Senator Harry Stuart New, was the strong anti-golf advocate of the Presidential party on their recent visit to Lancaster, N. H. The famed Indiana gentleman sees nothing to enthuse over in the game. In reply to a question of a newspaper as to his opinion of golf, Senator New said: "I am not old enough, not fat enough, and I am too damn sociable to play any such damn game as golf. I like to play a game where you can smile at someone, and if I want to fight I get the proper weapons."

## "Just Between You and Me" says the Good Judge

Here's genuine chewing satisfaction for you, hooked up with real economy. A small chew of this class of tobacco lasts much longer than a big chew of the ordinary kind—that's because the full, rich, real tobacco taste lasts so long. Any man who uses the Real Tobacco Chew will tell you that.

**From the makers of U.S. Royal Cords to the users of Fabric Tires**

**THE U.S. USCO TREAD**  
Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

**United States Tires are Good Tires**  
U. S. USCO TREAD  
U. S. CHAIN TREAD  
U. S. NOBBY TREAD  
U. S. ROYAL CORD  
U. S. RED & GREY TUBES

**IN all of modern merchandising the biggest conundrum is the fabric tire situation.**  
Around 70% of all car owners use fabric tires.  
Their instinct for quality is as strong and insistent as any one else's.  
Why, then, are they offered such hodge-podge stocks of "discount tires," "odd lots," "seconds," "retreads" and other so-called bargains of uncertain origin?  
Sooner or later the public always seeks out quality. As a matter of self-protection—if for no other reason. The out-and-out opinion in favor of U. S. Fabric Tires has spread more this year than it ever did.

People have gotten very close to the U. S. policy. Felt it. Benefited by it. And passed the word along.  
It's a policy settled to one standard for all U. S. Tires. Whether fabrics or cords. Small sizes or large.  
Giving to the fabric tire user fresh, live tires. Being made now. Being shipped now.  
All the original U. S. vitality and service come through when you buy a U. S. Fabric Tire.  
"Usco," "Chain," "Nobby."  
Three different treads.  
Built by the same brains, the same policy, the same quality ideals that have made U. S. Royal Cords the standard measure of tire worth.
