### MIDDLETON TO SING HERE

One of the prominent features of the season's activities, which the Women's Club is planning, will be a recital by Arthur Middleton, the renowned American bass-baritone.

It is probable that Mr. Middleton is the greatest singer that has ever been brought to Pendleton. There are but few large cities in the country where Middleton has not sung, and he enjoys the distinction of being a favorite wherever he is heard. His concert here will take place in February.

Mr. Middleton has practically deserted the operatic stage, as his time is fully taken up in giving concerts. The New York American states that "Mr. Middleton might appropriately be described as the John McCormack of bass-baritone." The verdict of the Boston Post is, "Mr. Middleton is surely one of the finest basses on the concert stage," and in the Chicago Evening American it was said of him: "Arthur Middleton's name alone should draw crowds."

This famous singer's concert in Pendleton will undoubtedly be one of the most important events of the winter, and will attract a large audience, not only of local people but from the surrounding territory as well.

### LEAVE ON TRIP.

Mr. and Mrs. R. E. Perry left today for a visit to Seaside and other points.

### LEAVE FOR WAIATA.

Mr. and Mrs. Herman Richardson, of North Bascom, Maine, who recently motored here to visit Mr. Richardson's cousin, Seth Richardson, left today for Waiata, Washington, to visit Mr. Richardson's uncle, G. D. Richardson.

### WILL RETURN HERE

Mr. and Mrs. L. E. Twitchell, of 316 Mark Street, will return tomorrow after a sojourn at Seaside. Archie Twitchell is much improved in health but he will remain in Portland with Mr. Twitchell's sister, Mrs. Surjara.

### ARRIVE IN PORTLAND.

Mr. and Mrs. Charles H. Marsh are now in Portland, having motored to that city on Monday. They expect to visit Seaside before returning to Pendleton.

### DRIVE TO HELIX.

Mr. and Mrs. L. H. Taggart left this morning by automobile for Helix where Mr. Taggart was called on business. They will return this evening.

### LEAVES FOR SEATTLE.

Mrs. Charles H. Carter left last evening for Walla Walla and will go from there to Seattle where she will visit her niece, Miss Dorothy Green.

### MRS. HICKS IMPROVED.

Mrs. D. P. Hicks, who has been ill for the past two weeks, is slightly improved today. She is an aunt of Miss Emily McRoom.

### RETURN FROM SPRINGS.

Mr. and Mrs. J. Poeagar have returned after a visit to Lehman Springs.

### HOME DEMONSTRATION IDEAS FOR HOUSEWIVES

- Windows should be placed over sinks and work tables.
- Casement windows with fine light screens provide good light and ventilation over sinks and ranges. They may be fitted with sliding frames or with glass doors. Windows should be placed in all outside walls of the kitchen. Large, easily reached windows should be placed in cellar-ways. Shelves, cupboards and drawers are much more satisfactory if coated with white paint or enamel.
- Do not use scouring soaps on the gas range. If inclined to rust, rub a little clean grease on it.
- The blaze should be light blue. If the balance of air (oxygen) and gas (carbon) is as it should be the flame will produce the greatest amount of heat. The red or yellow flame indicates that there is not enough air mixed with the gas. This condition should be changed at once by opening the air mixer or reducing the flow of gas from the small orifice. This is accomplished with a wrench to fit the connection, or with a pair of pliers. The difference can be easily noted in the supply of heat by holding the hand over the flame when the air is shut off, and again when the adjustment is right.

### WOMEN LIVE LONGER THAN MEN. INSURANCE RECORDS DISCLOSE FAIR SEX IS BETTER EQUIPPED

Statement That Biggar and John D. Will Celebrate 100th Anniversary Causes Thought

(Written by Margery Rex for the International News Service.)

NEW YORK, Aug. 18.—Dr. H. F. Biggar, physician to John D. Rockefeller, threatens to play golf with his famous patient in their hundredth year. We say "their" advisedly, since both men are now eighty-two years of age, and the doctor says there is no good reason why they both shouldn't reach the century mark.

"Anyone who follows his sensible way of living can live to be a centenarian," says Dr. Biggar of Mr. Rockefeller.

"He can eat anything, but he observes one of the prime laws of health to eat moderately. His good sense tells him that moderation in diet is a prerequisite of endurance."

Golf, mathematical games, early to bed and early to rise—these are the rules of the great financier's simple life.

But what are his chances or those of any other man or woman to live to be a hundred?

Is woman's chance better or worse than man's to reach a ripe old age? Investigation shows some startling facts. For instance:

Women, with husbands dies earlier than spinsters.

Married women who buy insurance and choose husbands as their beneficiaries are considered poor risks.

These facts have been called to our attention by a high official of a well-known insurance company, who says regarding longevity:

**Insurance Expert Gives Facts.**

"Well-regulated, outdoor life, with a fair amount of exercise, seems to be a good rule to follow. In general, people who have adhered to such a mode of life have found Horace's 'golden rule' in all things. They choose everything in moderation."

"In the United States Life Tables," drawn up from the census of 1910, taking note of the deaths of 1903-1910-1911, the women show up very favorably.

"Let's look at the tables of 'Expectation of Life,' which means the average number of years lived beyond a certain age.

"This 'expectation of life' in women whose lives were followed up from the age of ten years, was fifty-four years, while for men it was fifty-one."

"Taken on from twenty-five years, the average 'expectation' of men was thirty-one years, and in the cases of women it was forty-one. This means that the average man would live twenty-five plus thirty-nine years, and the average woman would live twenty-five plus forty-one years."

"Taken at forty-five, men may expect to live on forty-four more years, the women twenty-five. The female is still in the ascendant."

"When sixty is reached, the three score years our average male has fourteen more years to look forward to and the woman still fifteen. I am leaving out the small fractions; nevertheless, woman is still ahead, when the seventy-five mark is reached, if reached, is only by a fraction. Otherwise we count seven years yet to be lived by both males and females, not forgetting the small additional time for women."

**Why Women Have Best Chance.**

"How do we account for women being ahead? Well, perhaps less exposure to the hardships and accidents of life, less chance of violent deaths. Now we come to insurance statistics."

"The Medical Actuarial of Mortality Investigation, published in 1913, deals with the deaths of insured lives and shows mortality rates among the various classes, as compared with the average mortality of the country."

"The number of deaths among women is 104 per cent of what they would be if the mortality of women had been the same as the average mortality for all risks, or for the total class."

"That is, for every one hundred deaths, counted among general policy holders, we would get one hundred and four among women."

"Spinsters, the term covers all unmarried women, have a low rate, 81 per cent."

"There are two classes among the married women. First come the women whose husbands are to be the beneficiaries. They lead in the highest rate of deaths, 125 per cent."

"The other class, composed of those who have beneficiaries other than their life partners, have a rate of 114 per cent."

Among widows, both real and di-

### OHIO AUTOISTS ESCAPE TRAFFIC FINES BY TRICK

COLUMBUS, O., Aug. 18.—(U. N. S.)—A way to avoid being haled into police court for violating traffic rules has been utilized by a number of local autoists who have been disobeying these regulations of highway traffic.

It has been the practice here by the police not to arrest an auto driver until he, or she, has been warned twice.

Each time a traffic officer "warns" an autoist a record, including the license number of the driver's car, is made at police headquarters.

In order to avoid the third "warning" and arrest some autoists, immediately after being "warned" the second time, buy new license tags bearing a different license number.

Not only do they avoid the humiliating publicity involved in being haled into police court, but they save money oftentimes. During the rest of this year

\$4 is the auto license fee on the small cars, while \$5 and costs, totaling \$7.75 is the minimum fine assessed violators of the traffic code.

One Columbus autoist boasted he had bought three new sets of license tags this year in order to escape arrest.

It has been suggested that the police can catch these fellows by making a record of the engine number instead of the license tag.

**Catarhal Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. Catarhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and restoring normal conditions.

### BOYS AND GIRLS CLUBS TO COMPETE IN CONTEST

Members of Boys and Girls' clubs of Umatilla county are now making plans to enter the bread making, canning and cooking contests which will be held in Pendleton during the Northwest Grain and Hay Show, September 19 to 24, and for which substantial prizes will be given. Mrs. Edith G. Van Deusen, home demonstration agent is in charge of the clubs, and W. W. Green, county school superintendent, is arranging for the contests.

The finals for the canning contests will be held at the high school on Thursday, September 22, the prize for the team having the best score being a trip to the state fair at Salem, where the team will enter the state contests.

Mrs. I. M. Schanney will be the judge and the basis of awards will be 50 points on the exhibit of two jars of fruit and two jars of vegetables and 50 points on the report of the work done. Preliminary contests will be held the second week in September.

The second contest is the bread making contest for which prizes are offered for the best loaf of bread baked by a Umatilla county girl between the ages of 9 and 13, whether a member of a cookery club or not. The first prize is \$10, the second \$7.50, the third \$5 and the fourth \$2.50. Mrs. E. J. Mathewson will judge the bread making contest.

Another contest will be the cooking contest for which the basis of awards will be 50 cents on the exhibit of a loaf of bread and 50 on the report of the amount of work done. The prize will be a trip to the state fair for the team.

The cooking club girls will demonstrate bread baking on two mornings, Wednesday and Thursday at the big Grain and Hay Show tent. In the afternoons of these days, the Boy Scouts will demonstrate camp cooking, and will make flapjacks with Umatilla flour, which will be served to visitors. Both contests and demonstrations are open to the public.

### PEACE TREATY WITH GERMANY BEING FRAMED

BERLIN, Aug. 18.—(U. P.)—According to current reports the United States is making preparation for the demands in drafting the peace treaty with Germany. Despite the resentment on the part of German leaders over this and other demands they show a disposition to sign the treaty, thus acceding to all of them. It is hinted also that the United States is seeking a Lusitania reparation, although there is no confirmation of this.

### 'SANE LAST NIGHT AND INSANE TODAY' REPORT REGARDING MAHONEY

SEATTLE, Aug. 18.—(U. P.)—"Sane last night and insane again today," is the report the authorities gave out concerning James Mahoney, scheduled to plead "guilty" or "not guilty," Monday to the murder of his wealthy aged wife, Kate Mahoney. Lee Johnston, Mahoney's lawyer, may file another insanity charge against the prisoner, despite the fact that five alienists declared Mahoney sane yesterday.
