#### Hog Market Takes Slump of 25 Cents

(From The Oregon Journal.)  
North Portland hog market has declined 25 cents within the last 24 hours. This was done in three downward jumps of 25 cents each. First decline was shortly before noon Wednesday, the second of 25 cents was during the afternoon trading, and the third was this morning. The market still has a weak undertone. Eastern markets appear to be in similar shape. Of the 995 head arriving overnight, six cars of 194 head were a direct shipment here to packers from South Dakota.  
General hog market range:

**Rails Show Strength But Industrials Show.**  
NEW YORK, Aug. 19.—(A. P.)—The stock market lapsed into its recent narrow and uncertain course yesterday, after an early extension of yesterday's belated rally.  
Rails and equipments of recognized worth were firm and occasionally strong, but speculative industrials and specialties were heavy or moderately backward.

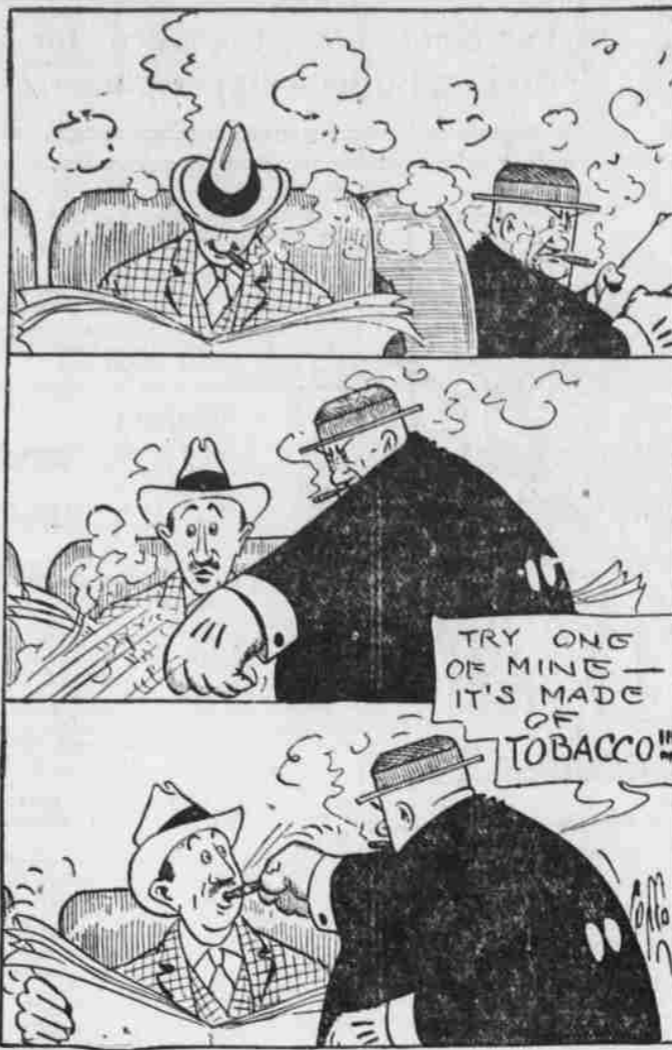

Half a score of the usual leaders in the oil, motor and steel groups comprised the bulk of the day's moderate dealings, shorts covering in those issues. Transports were at their best in the final hour, gaining 1 to nearly 2 points.  
Chief factors of weakness were represented by comparatively obscure stocks at gross recessions of 2 to 4 points. Studebaker was the only prominent issue to show pronounced heaviness, closing at a loss of nearly 4 points. Sales amounted to 400,000 shares.

Another drain on local bank reserves for account of the federal government nullified against money rates. Loans held at 6 per cent on the exchange until the last half hour, when the quotation fell to 1-1/2 per cent. Outside offerings at 5 per cent were reported with freer supplies of time funds.  
Marked improvement was noted in foreign exchange, sterling rising more than 3 cents from yesterday's lowest quotation. French and other continental remittances also were appreciably better, the Dutch rate more than regaining yesterday's decline, with firmness in all Scandinavian bills.

Trading in bonds was livelier, gains predominating especially among rails, convertibles again leading the movement. Liberties were irregular on further selling of the 3 1-2s and the foreign group was featureless. Sales, par value, \$2,875,000.  
**Wheat Market Forced Down by Bears.**  
CHICAGO, Aug. 19.—(A. P.)—Bearish views of economic conditions curtailed speculative buying of wheat yesterday and the market continued to break. Prices closed heavy 2 3/4c to 3 3/4c net lower with September \$1.16 1-2@1.16 3-4 and December \$1.17 1-4@1.17 1-2. Corn lost 1-4c to 1 3/4c and oats 3-4@7-8c to 1c. Provisions finished unchanged to 1/2c higher.  
It was apparent throughout the day that liquidation on the part of holders of wheat had received no decided check and that about the only support in the market was from traders who had sold at higher figures. Moreover, new commitments in the line of short selling were evidently on an extensive scale. Notices were also taken of the fact that marketing of domestic spring wheat in the northwest is much in excess of the movement a year ago, and that the question was yet to be forced as to how large a percentage of the Canadian crop would get out before the close of navigation on the Great Lakes.  
Corn and oats touched the lowest prices at this season since 1916. There was little indication of investment demand for either grain.  
Packers buying helped to lift provisions and so, too, did higher quotations on hogs.

**BARNUM SUSTAINED.**  
SPRINGFIELD, Mass., Aug. 19.—(I. N. S.)—Barnum's contention that there "is one born every minute" was given some confirmation here recently. John H. Sakell, of this city, was induced by two strangers to deposit \$500 in a "money making machine," equipped with numerous cogs, wheels and cranks. The machine was also fed some blank paper. Sakell was told that in an hour the machine would turn out \$1,000 in bona fide legal tender. The strangers had departed at the end of the hour—so had John's \$500.
