

News Notes of Pendleton

CALENDAR OF EVENTS
 August 26-30—Water First Aid course at City Natatorium.
 Direction of Joseph C. Hedges.
 September 10—Hermiston Experiment Station Field Day.
 September 19-24—Northwest Grain and Hay Show.
 September 23, 24—Annual Pendleton Round-Up.
 October 7-8—Seventh Annual Dairy and Hog Show, at Hermiston.

To Build House.
 I. C. Snyder has secured a permit to erect a frame house on Oak street. The cost of the work is estimated at \$200.

Sprains His Ankle
 Orle T. Hanavan of Hanavan's Transfer Co. sprained his right ankle yesterday while unloading some stoves. He will be unable to work for several days.

Mrs. Brownson Chosen
 Mrs. I. A. Brownson, of Hermiston, was in Pendleton yesterday to confer with Miss Sabra Nason, county librarian, regarding library work. Mrs. Brownson is soon to take charge of the library at Hermiston and will succeed Mrs. Ella Perry who is going into other lines of work. Mrs. Brownson formerly taught in the Umatilla county schools.

Apply For Permit.
 The Union Oil Co. of California has made an application at the office of the city recorder for permission to construct a combination building on West Alta street. The proposed

building will serve as a warehouse, office, pump house and wagon shed. Steel oil tanks with a capacity of 1500 gallons, to rest on concrete foundations will also be constructed. The estimated cost of the building was not stated in the application.

Flights Made by Lees
 Airplane flights are being made today by Walter E. Lees, who is taking passengers from the Humphrey's field. The flights will be made again tomorrow.

Weather Is Warmer
 The weather is warmer today, the maximum being 91. The minimum last night was 59. The barometer registers 29.50 and is falling, giving indication of a change in the weather.

Makes Airplane Model
 A small airplane model, the exact replica of a large machine, is shown today at the Rigby Second Hand store. The plane was made by Wayne Rigby, aged 16, son of Mr. and Mrs. W. T. Rigby.

Water Supply Good
 Pendleton has an abundance of water this summer, says Frank Hayes, city engineer. The approximate flow of water is 2,500,000 gallons a day, the supply having been much augmented since the completion of the extension of Chapliss Springs.

Unions To Meet
 Local labor unions will meet tomorrow at 10 a. m. in Union Hall to discuss plans for a Labor Day celebration to be held by Pendleton, La Grande and Baker unions. All plans are tentative at present but it is probable that the celebration will be held in La Grande.

Recovers From Injury.
 D. O'Connell, employed in the freight house of the O-W. R. & N., is able to get around again after being confined to his home for two weeks on account of an injury to his foot sustained when a wheel dropped on the members. He expects to be able to resume work within a few days.

Survey Is Made
 George Merriman, of the United States Coast Geodetic Survey, left yesterday after making a survey in this region. The surveys were made near the city reservoir where the survey has a station. The investigations are conducted to determine the magnetic depth and magnetic declination of the compass needle. The work is carried on by the United States at various intervals.

Leaves On Trip.
 M. R. Yates, local livestock buyer, left today for a month's trip to points in Montana, Oklahoma and Missouri. Mr. Yates will go first to the Flat Head Reservation, then to Polson and thence to Havert, Montana, where he will be joined by his father-in-law, Isaac Light, who has been visiting there for some time and the two men will then proceed to Oklahoma, where Mr. Light resides. After a visit there Mr. Yates will go to Butler, Missouri, where he will spend sometime visiting with his father and brother. Mr. Yates expects to return to Pendleton about the latter part of September.

Police Make Quick Catch.
 Three men who the police say have confessed to a robbery of the house of Wesley Thomas today at noon at Rich were arrested this afternoon by Jinks Taylor and Bob Sinclair on information furnished by Glenn Bushee, special agent of the O-W. R. & N. The men will be charged with entering the Thomas house and taking an automatic pistol and a silk shirt. The men got off of No. 17 and are thought to have done the work immediately. Bushee suspected them of being guilty of a reported robbery and he called the local police, warning them to be on the lookout for the trio.

Portland Wants Lower Rates
 That Portland men who control wool warehouses at Portland are in favor of granting the petition of the railroads to lower their rates on wool shipments is a statement made by Mac Hoke who has returned from Spokane where a hearing before Commissioner Eddy of the interstate commerce commission was held. Wool growers oppose the petition on the grounds that the new rate will enable the steam carriers to compete with water rates without giving wool growers the relief to which they think they are entitled. Figures brought out at the hearing show that this year 7,500,000 pounds of wool have been shipped from the Pacific Coast states to Boston, and of this amount 7,000,000 pounds have been shipped by water. A decision by the commission is not expected before October.

Clubs To Compete
 The Girls' Canning Club at Umatilla, under the direction of Mrs. D. O. Saunders, and the Girls' Canning Club of Milton, under the direction of Mrs. I. V. Sevy, will compete in the canning contests to be held here during the Northwest Grain and Hay Show. The prize is a trip to the Salem State Fair for the members of the winning team. To be eligible for the contest, the contestants must have appeared previously in a local contest, and each girl must have canned 20 jars of fruit and 20 of vegetables. Much interest is shown in the contests, says Mrs. Edith G. Van Deusen, home demonstration agent. A Hermiston girl is ready for the bread making contest and has already made her cap and apron. A Umatilla girl has also signified her intention to compete. Miss Helen Cowgill of O. A. C. will be here September 1 and 2 to assist Mrs. Van Deusen in making the arrangements.

Secretary of War Weeks has authorized the discharge by corps area and division commanders of all enlisted men who may apply for discharge during July without prejudice to their rights to travel pay. This is the first step toward reduction of the regular army to the 150,000 maximum provided in the appropriation bill.

A title which has been borne by a member of the royal family may not be adopted by anyone of less rank,
