Export Demand Brings Wheat Price Up.

CHICAGO, Aug. 24.—An erratic market in grain futures, which fluctuated irregularly but rapidly the greater part of the day, rallied strongly in the financial trading on reports of local sales of 800,000 bushels of wheat to export interests. The close showed net gains of 3-4c to 1c in wheat, but corn was unchanged to 1-4c lower and oats unchanged to 1-3c higher. Provisions advanced from Monday's decline, the options ranging from unchanged to 20 points higher.

Wheat started with a moderately firm undertone, due to heavy sales to exporters after Monday's close. The initial bulge brought out selling orders which caused a setback, but the offerings were absorbed readily. Fluctuations continued along these lines the greater part of the session. Trading being mainly local. Some buying of September and selling of December was noted. Toward the finish, the buying power improved on the breaks and the export business figures stimulated it further.

Corn was generally lower, despite Monday's export business at the seaboard of around 2,000,000 bushels and local sales today of 200,000 bushels to the same account. Hot weather southwest, which was calculated to mature the crop rapidly, was a factor in this development.

Oats exhibited a fairly strong undertone, but trade was limited and the range of prices narrow. Shipping demand was reported slow in this grain, but country offerings declined.

Provisions withstood a further break in live-hog prices mainly because packing house representatives were moderate buyers of lard. The trade extended to ribs.

At Irregular Session Stocks Rise, Then Fall.

NEW YORK, Aug. 24.—(A. P.)—Stocks were irregular at yesterday's opening of business, firm to strong at midday and heavy in the final dealings, when transportations were subjected to renewed liquidation.

Trading was slightly more active and the session's operations embraced a greater variety of issues the more substantial or dividend paying shares. There were no surface indications, however, of any change of professional sentiment.

Oils were the strongest features. Sales amounted to 500,000 shares. Apart from the quarterly financial statements of the copper companies, all of which disclosed larger deficits, the day's news bore little direct relation to market values. July statements of earnings submitted by the railroads, were mixed, the Union Pacific system, however, showing a heavy net gain.

Although money continued to flow in from interior sources, call and time rates were unchanged. Rumors of an impending reduction of local discounts by the federal reserve bank were discredited in well informed quarters.

Excepting the Belgian rate, which yielded slightly, all foreign exchanges improved. Business is international remittances again centered in sterling, franc and builders, other quotations being largely nominal.

Irregularly marked the trading in domestic bonds, including liberties, most of which recorded additional losses. Total sales per value, \$3,200,000.

Lower Trend Prevails On Livestock Market.

OMAHA, Neb., Aug. 24.—(United States Bureau of Markets.)—Hogs—Receipts, 7000 head; market generally 25c lower than Monday's average; bulk better grades, \$7.35@8; top, \$8.50; bulls, packing grades, \$6.75@ 7.25.

Cattle—Receipts, 7000 head; few early sales, good and choice steers and yearlings steady; top yearlings, \$10.25; others 15@25c lower; shee stock and bulls, steady to 25c lower; veal, steady, stockers and feeders steady to 25c lower.

Sheep—Receipts, 25,000 head; killing classes, mostly 25c to 50c lower; bulk western lambs, \$5.50@9; top, \$9.25, few sales; yearlings, \$5.50@6; ewes, 2.50@4; feeding lambs, 25c lower; bulk lambs, 6.50@ 7.50.

Sentiments of the Sterner Sex

Young Edgar Averill, son of Mr. and Mrs. E. F. Averill, met his uncle, Earl Coult, yesterday and remarked that a new baby had arrived at the Averill home.

"Is it a boy or a girl?" he was asked. "It's a girl—Durn it!" was the answer.

DOUBLE WHITE HIBISCUS PRODUCED BY HAWAIIAN

HONOLULU, Aug. 24.—(U. S. N. S.)—Because he succeeded in producing a double white hibiscus flower, a thing never before seen in Hawaii, John Walker, Honolulu contractor, is today the proud possessor of a handsome silver cup.

The donor of the handsome trophy is Gerrit F. Wilder, a "kamaaina" (old timer) of Hawaii and one of Honolulu's leading citizens. Outside of business hours, Mr. Wilder is an enthusiastic grower of hibiscus, the exotic flower which adorns hedges and gardens throughout Hawaii. Over two thousand known varieties of this showy flower are contained in Mr. Wilder's collection, but he lacked one variety which he knew would be a thing of surprising beauty if it could be grown. That was the double white flower, two of the great white blossoms side by side on the stem.

Accordingly he pledged himself to donate a handsome silver trophy cup to the first person to produce one of these rare flowers. That was three years ago, and until now the trophy has not been claimed. Then by merest accident Mr. Walker, ignorant of the prize at stake, left a bouquet containing a double white blossom on a bank cashier's desk, following a pleasant custom of Hawaii. Mr. Wilder saw the blossom and was told the donor's name. A cup was ordered and now Mr. Walker has something new to display to company.

It is not known whether it will be possible to propagate the new variety successfully as a separate strain, as can be done with practically all other known varieties, many holding to the belief that the double white blossom is a sort which cannot be reproduced.
