## MARATHON SWIMMING RACE REVIVED AFTER BEING DISCONTINUED

### Multnomah Club Has 17 Entries for Distance Try Which Has Not Been Staged Since 1918

Seventeen entries have been received by Jack Cody, swimming instructor of the Multnomah Amateur Athletic club, for the marathon swim to be held tomorrow afternoon in the Willamette river from Windemuth to the Morrison street bridge. The race, which is being staged under the auspices of the Multnomah club is an attempt to revive the Willamette river marathon which for several years was an annual affair and one of the swim classes of the northwest, but which was discontinued during the war. The last marathon was in 1918, and was won by Myron Wilsey, Multnomah club and University of Oregon swimmer. Wilsey will not enter the race this year.

Promptly at 1:30 o'clock the swimmers will shove off from the float at Windemuth and will finish under the Morrison street bridge. The harbor patrol boat will keep the course clear,

while the Portland Motorboat club will aid by furnishing the official boats. Ray Jamison will pilot the Mignon, while William Love, owner of the Waywego and commodore of the Portland Motorboat club, will have his boat out.

While there will be several strong distance swimmers in the race from among the local mermen, it is expected that the title will be taken to Seattle this year by Mitrie Konowaloff of the Crystal Pool club of that city. The Puget sound paddler is having his best year in competition this season, having already won the national mile against some of the best swimmers in the east, and also placed first in two middle-distance events in the Pacific coast championships at San Diego recently.

Cody to date has received the following entries: Steve Bushnell, Collie Wheeler, Ted Alonen, Bus Douglas, Jack Pobochanko, Ben Lombard, Dave Fall, Gurtin Carroll, Paul Edwell, Horace Easterday, Everett Fenton, Milton Reed Klepper, Bennie Austin, Walter La Mar, Paschal Howard, Chuck Cody and Mitrie Konowaloff.

No entry will be allowed to compete who is not registered and holds an amateur athletic union card. All contestants will be allowed to have a canoe or boat to follow them, but this craft must keep at least 20 feet away from the swimmer.

The best place from which to witness the race will be from the Hawthorne bridge, where an excellent view may be had of both the start and finish.

## BASEBALL SUMMARY

**National League Standings.**

## MOTION PICTURE NEWS

**ALTA TODAY**  
Is a woman ever justified in shooting and seriously injuring a man?  
This is one of the questions which will hold and thrill audiences when "Man's Plaything," the latest Republic release, starring Grace Davidson and Montague Love, comes to the Alta theatre today.

In this highly dramatic picture it is answered affirmatively. Grace Davidson, who plays the role of Nellie Vaughan, a flower girl at Luffant's, a fancy resort where the idle rich congregate, discovers that she has been used as a bait by a group of human sharks to lure and trap and then separate a millionaire's son from his money. With this knowledge comes a determination to cut the threads which have been used to ensnare Van Tiel, the rich man's son. In doing this, Nellie Vaughan faces Dwin Madox, who has engineered the plot in which both she and Van Tiel have been victims. Madox shows temper, at the same time sneering at the possibility of a woman downing him. In the quick action which follows, Madox is shot by Miss Vaughan. Instead of being jailed, as would seem probable, consequent events so shape themselves that Nellie Vaughan's action is justified.

Madox, the villain, is played with naive power by the admirable Stuart Holmes. Montagu Love is Felten Van Tiel and Grace Davidson is Nellie Vaughan.

her former self. Stripped of money, her nerves shattered by drugs, a wanderer on the Lighthouse streets, she realizes that she must in some way get to America and try to resume her place of power in the theatre. She arrives in New York for the opening of the performance and there on the stage she sees a girl who is the counterpart of what she was before she seared her soul. The girl is her daughter, though neither knows the other. Then follows a climax that for explosive thrill-power his never been equalled on the screen.

**ARCANE TODAY**  
"Reputation," the Universal super-feature in which Priscilla Dean was seen last night at the Arcade Theatre will go down in the memory of playgoers as one of the most dramatic stories ever told on the screen.

The star ascends to dramatic heights and sounds the depths of pathos in this picture. Her spectators were keenly thrilled.

The story was filmed at Universal City by Stuart Paton. It is based upon "False Colors," Edwina Levin's novel and the screen adaptation by Lucien Hubbard and Doris Schroeder.

Playing a dual role, that of mother and daughter, Miss Dean interprets the parts with such sincerity that many doubted that one individual could so completely assume such widely opposed characteristics.

Laura Eklun, the dominant figure in the story, is the reigning beauty on the European stage. She is about to sail for New York to star on Broadway when a party, more dissolute than others which have preceded it, leaves her a wretched, dissipated shadow of

**PASTIME TODAY**  
Buck Jones, the motion picture star who comes to the Pastime Theatre today in the Fox picture, "Get Your Man," was formerly captain of a fire company in his home town of Vincennes, Indiana. He held this coveted position one day.

Inspired by the installation of a neighborhood fire department which boasted a crimson hose wagon, Buck and the other boys in his "gang" immediately organized a fire company of their own. The "hose wagon" consisted of two sets of wheels and a long plank on which were placed buckets of water.

But why a fire company without a fire? Buck, having been elected to the

**GIRLS! LEMONS**  
WHITEN SKIN AND BLEACH FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day. Then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rose-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

## BIG ERUPTION OF VOLCANO IS EXPECTED

HONOLULU, Aug. 26.—(I. N. S.)—Extreme activity during the Autumn months of this year culminating in a tremendous eruption in November is the prediction being made for local volcanologists for Kilauea volcano, the continuously active volcano situated near the city of Hilo, on the island of Hawaii.

Professor T. A. Jaggar, of the U. S. weather bureau, director of the volcano observatory at Kilauea volcano, is said to be among those looking for unusual activity in the crater this fall. During March of this year there was a most spectacular eruption in which the lava overflowed from the fire pit of Halemanuana onto the floor of the main crater. Since that time there has been a gradual subsidence of the lava in the fire pit, but such movements are usually followed by rising and increased activity, Professor Jaggar says.

If the expected activity takes place it will be the signal, not for a panicky flight from the region of the volcano, but for a rush to get there and see the show. For Kilauea is a "tam" volcano and its eruption, while spectacular in the extreme, is not dangerous and may be viewed from very close range.

## STEAM DRIVEN AIRSHIP HAS PROVEN SUCCESSFUL

LONDON, Aug. 26.—(I. N. S.)—Driving an airship by steam is the very latest stunt evolved by a former expert of the Royal Air Force.

Captain W. P. Dornall, who was formerly Staff Captain in the Chief Mechanical and Electrical Engineers Department of the Royal Air Force, claims to have figured out a method by means of which airships can be driven by steam.

According to a very conservative account of the invention, as given out by the Air Ministry, it does away completely with the ordinary boiler, steam being generated by means of internal-combustion power or heat energy.

The superheated steam heat energy is supplied to special steam motors, which are reversible and can be controlled from a central control-station. Heavy oil is used as fuel and it is claimed that the driving machinery can be safely placed inside the frame of the airship instead of in separate gondolas, as at present.

This will bring about a great reduction in air resistance and will therefore reduce the power required for propulsion.

It is claimed that the new system will function at speeds hitherto unobtainable with the ordinary type of internal combustion engine.

**Ford**  
THE UNIVERSAL CAR

The Ford Sedan is the favorite family car, seats five comfortably. While an enclosed car with permanent top, it has large windows, and may in a minute be changed to a most delightful open car with always a top protecting against the sun. In inclement weather it is a closed car, dust-proof, water-proof, cold-proof. Finely upholstered. Equipped with electric starting and lighting system and demountable rims with 3 1/2-inch tires front and rear. A real family car. Won't you come in and look at it? The delights of the electric car with the economy of the Ford.
