Local talent is believed to have been responsible for the work.

**Book Is Reviewed.**  
The Bookseller and Stationer, nationally known magazine, in a current number says the following regarding "Let 'er Buck," Colonel Charles Wellington Furlong's book of the Round-Up: "A story of the passing of the Old West which should set Easterners hurrying westward that they may see all that is left of the romance, and talk with those who have lived bits of this romance. The story of a brave sheriff leaves the reader with a warm feeling round his heart; a tale of the Round-Up leaves him breathless while the 'Tips of the Tenderfoot' and 'Buckers' Own Table' forming the appendices give him a sense of fellowship with the West that is gratifying. Profuse illustrations from photographs portray actual scenes in the life of the author. The book might well be called the Drama of the Cowboy."
