 September 19-24—Northwest Grain and Hay Show.
 September 22, 23, 24—Annual Pendleton Round-Up.
 October 7-8—Seventh Annual Dairy and Hog Show, at Hermiston.

Is Feeling Better.

J. P. Walker who has been in the hospital for a couple of days on account of illness is able to be at his work again.

Railroads to Ask Rate Change.

The railroads have given notice of their intention to file an application with the Interstate Commerce Commission for permission to secure the benefits of the long and short haul, a message from the Intermediate Rate Association to the Pendleton Commercial Association discloses. The local organization has assisted in the fight against increases in rates which have been waged by the interior

country. A series of hearings on wool rates was recently held in the intermountain country.

Wants Data on Foxes.

A request from a resident of Walla Walla, Oregon, has been received at the offices of the Pendleton Commercial Association for information about fox farms which the writer declares he understands are in operation near here.

Queen Candidates Work Hard.

A change in the standing of the candidates for the honor of representing Pendleton in the Labor Day celebration at La Grande is shown in the report that was made today by A. W. Lundell, chairman of the committee which is in charge of the contest. Miss Bessie Elkins now has 6,969 votes, Miss Frieda Green, 6,500, Miss Gertrude Jones 6,500 and Miss Nettie Pourrier 4,800. Miss Elkins has climbed from third to first, and Miss Green has climbed the ladder. The contest will close promptly at 11 o'clock Thursday night at the dance to be given in Union Hall, and no one except the members of the committee in charge will know the standing of the contestants.

To Overhaul House.

A building permit has been granted H. M. Sloan for the overhauling of his house at 115 Beauregard street. The estimated cost of the work is given at \$500.

County Schools Ready

All is in readiness for the beginning of the terms of the county schools. The certificates and contracts which have been held by the clerks of the different districts have been turned over to the county superintendent of schools. Practically all of the schools have teachers, and a majority of the teachers are experienced and specially trained. Some of the schools will open on Monday, and others will not open until Tuesday September 6.

Arby Hess Dies

Arby Hess, 18 years old son of Mr. and Mrs. Geo. Hess of Walla Walla, died Tuesday night after an illness of about a week from infantile paralysis. Funeral services will be held Thursday morning at 10 o'clock at Walla Walla. Besides his parents he leaves two brothers and three sisters, William Hess of Walla Walla, Elmer Hess, Pendleton, Mrs. Ray Colbert, Walla Walla, Mrs. Henry Molstrom, Pendleton and Mrs. Dena Larkin, Portland.

Examinations Sept. 1 and 2.

Eighth grade examinations for those who failed to pass the tests early in the summer, will be held tomorrow and Thursday in this county. The tests for Pendleton students will be held at Hawthorne school, beginning each morning at 9 o'clock. Very few students failed in this county, says W. W. Green, county school superintendent. The papers will be graded in time to permit successful applicants for state certificates to enter high school this term.

Term Opens September 5.

Studies at St. Joseph's Academy will be resumed on Monday, September 5, and present indications are that the attendance this year will be at least as good as last year, and from the many inquiries that have been received, the school authorities are expecting an increased attendance. The enrollment last year was 260. The list of books to be used can be secured from the academy before school opens, and in this way students may purchase their books and avoid the rush.

Tickets Bought for Journal Special.

Two hundred and fifty tickets for the Happy Canyon show for members who will compose the annual special party brought to Pendleton for the Round-Up by The Oregon Journal were ordered reserved this morning by H. W. Hicks, traveling passenger agent of the O. W. R. & N. There is a prospect that another delegation of 100 from Portland will be on hands, but no definite reservation will be made for a few days yet. The Journal party will attend Happy Canyon on Friday and Saturday nights. Accompanying Hicks on his trip here is Dan Clark, livestock agent.

Want More Boys in High School

The situation regarding attendance at high school was discussed before the Rotary Club today by Superintendent H. E. Inlow who urged community cooperation in trying to induce more boys and girls to enter high school and stay with the work permanently. The superintendent said there is too much disparity between attendance at the grade schools and in the high school. The boys committee of the Rotary club was directed to aid in a plan for helping the situation out. E. J. Murphy told of a visit to Spokane and of the oil excitement there. Willard Bond was called upon for a talk about his Alaska trip. Two new members, Howard Sheehan and Carl Hoff were elected to the club today.

Wants Road to Grant County.

Robert Bond was here today from the Bond Bros. ranch near Ukiah, and he is just one of the many residents of that section of the country who is mighty anxious to see the road connecting Umatilla and Grant counties constructed as soon as possible. There are about 250 carloads of cattle alone shipped from the section from Ukiah south to the county line every year, he declares. This year the value of a carload of cattle has been about \$1500, making a total of about \$375,000 for the value of cattle produced in the section. A majority of the men in that territory already do their banking in Pendleton, according to Bond, but they don't trade here to any extent, though they would like to do so.

The book—LET 'ER BUCK—a story of the Round-Up. Every family should have at least one. Let us sell you one. Price \$2.25.

WOMAN KNOCKS LID OFF COFFIN; WANTS DRINK

LONDON, Aug. 31.—The story of a woman who knocked at the lid of her coffin after it had been prepared and sealed for burial has been revealed in Tokyo by the Japan Times and Mail.

It is stated that the woman apparently died one morning at 5 o'clock and arrangements were immediately made for the funeral. Priests were sent for, and the usual service read over the coffin.

Suddenly the priests and others heard a feeble knocking inside the coffin. The lid was removed and the mourners found that the woman was alive. They called her name. She replied: "I am thirsty. Give me some water." Water was given and she was removed to her bed, but died two days later.

MINE WORKERS TO BE GIVEN GOLD MEDALS

By HARRY WARD.
 International News Service Staff Correspondent.

WASHINGTON, Aug. 31.—The unsung, unheralded hero who performs his deeds of valor thousands of miles from the bullet-swept battlefields, in dark underground crannies, reeking with deadly gases that attend mine explosions and fires, is to be accorded well-merited recognition at the International First Aid and Mine Rescue Meet in St. Louis, Mo., on September 1-4.

Gold medals and diplomas of valor for saving, or doing in the attempt to save, the lives of their fellow miners will be awarded to twelve heroes of mine disasters, or their nearest surviving relatives, by F. Foster Bain, director of the United States Bureau of Mines, on behalf of the Joseph A. Holmes Safety Association. The meet is to be held under the auspices of the Bureau of Mines in cooperation with the American Red Cross, the National Safety Council and various miners' and operators' associations.

Will Award Medals.

Medals will be awarded to K. P. Krueger, Lew E. Ryan, Frank Pierce, Herbert Farlin, George Reichert and John Gregovich, Butte, Mont., miners for their efforts to save the life of a survivor who was overcome by gases from a mine fire in the Leonard Mine. Medals will be presented to the nearest relatives of Francis Henry Murphy and William Ferrington, of Franklin, Kan., who lost their lives in a mine near there in an effort to rescue two miners who were trapped in a coal fire. Medals will also be awarded to the nearest relatives of Lasco Robinson and Clarence Williams, of Degnan, Okla., who died in their attempt to warn miners of an impending explosion from an accumulation of gas within the mine. Before they reached the men to give warning the gas accumulated and the explosion occurred, resulting in the loss of ten lives, including their own.

Alex Ogilvie and Thomas Gold of Lehigh, Oklahoma, will both receive a medal for extraordinary courage and risk worked who accidentally came in contact with an electrically-charged wire. Medals will be presented to the nearest relatives of Lasco Robinson and Clarence Williams, of Degnan, Okla., who died in their attempt to warn miners of an impending explosion from an accumulation of gas within the mine. Before they reached the men to give warning the gas accumulated and the explosion occurred, resulting in the loss of ten lives, including their own.

Will Work for Safety.
 The Joseph A. Holmes Safety Assn.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

Association was founded in 1915 to honor the memory and continue the work of Joseph A. Holmes, the first director of the Bureau of Mines and the popularizer of the slogan "Safety first." The association is completing its plans for the formation of local safety chapters of the national parent organization. The proposed chapters, it is hoped, will be the means of bringing together the miners and mine officials as common workers in the great cause of making safer the operation of the 35,000 mines, quarries and smelters in which a million men do their daily toil.

HEALTH THE KEYNOTE TO BEAUTY

Beauty means so much to women—power, social triumph, admiration and love. Beauty implies good health. Who ever saw a woman racked with pain, struggling with weakness or disease, who could be called beautiful? The woman of today in this high-strung, nervous age is continually overdoing with the result that ill health to her sex develop which, unchecked, will ruin all chances for her happiness. The natural restorative for such ailments is Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been recognized as a standard remedy for women's ills, and has done much to relieve pain and restore good health to women.
