 The monster signs conveying information about the producing ability of Umatilla county are now in the hands of the painter and will be placed in position at the boundary lines of the county by the county court. The sign will be suspended from over the road. Poles, 25 feet in the air with an arch over them, hold the monster sign in place. The board on which the data is painted is 15 feet long and five feet broad. One sign will be placed in position between Frewwater and Walla Walla on the state line, and the other will be suspended between Umatilla and Boardman. On the side of the board seen by tourists as they enter the county will be those words: "You are now entering Umatilla county which produces annually 6,000,000 bushels of wheat and other grains; 1,210,000 pounds of wool; 175,000 tons of hay; \$2,500,000 worth of fruits and vegetables; \$1,300,000 worth of livestock; \$275,000 worth of dairy products; \$122,000 worth of poultry products and \$45,000 worth of honey."
