Buying Drive Sends Shorts to Cover

NEW YORK, Sept. 8.—(A. P.)—

Trading in the stock market yesterday was characterized by another vigorous drive against shorts, who again covered urgently as the buying movement attained broader dimensions.

Most of the day's happenings were helpful to the constructive side, embracing such factors as easier call and time money rates, stronger indications of industrial revival and a sharp recovery in the leading foreign exchanges.

Oils featured the dealings, but demand for steels, equipments, motors and rails was sufficiently large to strengthen the impression that various bull pools had re-entered the market.

Mexican Petroleum registered a gross advance of 6 1/2 points to a level nearly 30 points over its recent minimum price and affiliated stocks, such as Pan-American, Asphalt common and preferred, Houston and Royal Dutch gained 1 1/2 to three points.

Other strong features comprised Gulf States, Crucible and United States steels, American and Baldwin locomotives, Railway Steel Spring American Car, General Electric, Chandler, leading sugars and tobaccos and junior transportation, especially "Soo" and the western and southwestern groups. Sales were 600,000 shares.

Call money opened at 5 1/2 per cent but dropped to five before noon. Time loans were made at 5 1/2 per cent on all industrial collateral, a concession of 1/2 per cent. The only exchanges to manifest heaviness were German and Austrian bills, Dutch and Scandinavian remittances rallying briskly.

Old line investment rails were among the strongest issues of the broad and strong bond market, convertibles also making additional gains.

Leading international were variably higher and the liberty group, almost without exception, showed gains. Sales par value, \$12,500,000.

New High Figure Reached by May Wheat.

CHICAGO, Sept. 8.—(A. P.)—Wheat futures advanced to a new high figure on the present upturn and a new top on the crop for May here.

Trading was active with more outside interest and at the high price prices were up as much as 6 1/2 cents over the early low with heavy buying commission houses and the local element on the way up with stop orders uncovered. May led the advance. Final wheat figures were 2 1/2 to 4 3/4 higher, while corn ruled 1/2 to 1 1/8 up and oats 5/8 to 1 1/2 higher.

Corn advanced 1 1/4 to 1 7/8 from the early low, but did not maintain all of this. An easier tone was shown early, but the market turned strong later in sympathy with wheat. Trading was not large.

Oats followed other grains, declining early only to advance later. The south was credited with being a good buyer at times, the advance in cotton being a factor.

Provisions averaged lower, the feature being the buying of January and March lard by houses with eastern connections, presumably hedging against sales of cottonseed oil.

Hogs Drop and Sheep Go Higher.

OMAHA, Sept. 8.—(U. S. Bureau of Markets.)—Hogs, 6500, bearish news from outside market centers coupled with narrow local demand caused a sharp uneven decline in today's hog trade. In a general way prices were 50 cents lower than Tuesday's average, some early business showing a break of 25 to 35c with close 30 to 75c lower; bulk better grades, \$7.25 to \$8.25; top 18; bulk packing grades, \$8.10 to \$8.55.

Cattle—6200 fed steers steady to 15c lower; top yearlings, \$10.25; westerns steady; she stock steady to strong; kanized.

TELEPHONE EXCHANGE OF BOARDMAN IS SOLD

(East Oregonian Special.)

BOARDMAN, Sept. 8.—The effectiveness of rural marketing cooperation is being demonstrated successfully in connection with the Columbia Basin Hay Growers' Association. Some \$1400 dollars has been saved in bale ties by quantity purchase, and competitive bids have fixed a bailing charge of \$2.35 per ton compared with \$3.00 under the old regime. Boardman district is now 95 per cent organized. Irrigon and Hermiston about 95 or 90 per cent and work is being rapidly pushed in the Echo and Stanfield sections. Three carloads of hay are being shipped as samples to the Atlantic seaboard points via the Panama Canal and all indications point to the establishment of a satisfactory price for this season's crop and develop a stable future market which will not only make farming profitable, but have a stabilizing effect on land values as well.

Another cooperative movement of promise is in connection with a cheese factory. A community meeting is scheduled for Thursday night under the direction of Prof. P. M. Brandt of O. A. C. and County Agent C. C. Callins and the local committee to discuss ways and means. N. Faler and the Stanfield Creamery Co., are both anxious to operate such a factory and an increase in the dairy stock of the district would be a valuable asset.

The Boardman Telephone Exchange has been taken over by A. B. Clifton of Eugene, who exchanged his farm for the business. Mr. Clifton promises improvements and extensions as rapidly as warranted and will also try to extend to Irrigon.

School opened Monday with the largest enrollment since the establishment of Eugene. The faculty consists of M. B. Signs, Principal, Miss Naomi Runnor, English and Latin; Miss Gladys Price, O. A. C. Home Economics; H. H. Crawford, manual training and science; Guy L. Lee, fourth high school, Miss Crescentia Glati, O. A. C. third and fourth grades, with supervision of drawing and Miss Myrtle McNeill, 5th and 6th grades. Music will be taught in all grades and a class in stenography and one in home furnishing and decoration has been organized.

THE LARGEST CHAIN DEPARTMENT STORE ORGANIZATION IN THE WORLD

TORTURE IS EMPLOYED BY BANDITS TO ROB

NEW YORK, Sept. 8.—Torture, reminiscent of methods of the Middle Ages, when such methods frequently were applied by bandits as well as by minions of the law, were utilized by three masked men who robbed Stephen Vassilatos of \$2100 in cash and Liberty Bonds at Coney Island.

Vassilatos conducts a dozen small booths on the boardwalk at Coney Island between the Parkway Baths and Brighton Beach. He sleeps in a room adjoining his office in the rear of one of the soft drink stands. According to his story to the police, he woke up as three men forced their way into his place early yesterday morning. One of them threw him on the bed. While two of them attempted to open the safe in the office, the third man wrapped adhesive tape over Stephen's eyes and mouth.

They were unsuccessful in opening the safe. The concessionaire yelled in

agony as they ripped off the adhesive tape. They poked revolvers in his ribs and under threats of death the victim opened the safe. He then was tied in the bed.

He made a slight movement as the safe was being rifled, and his guard pulled a hair from his mustache. Each time he moved the process was repeated. Before the bandits left practically all the hairs on one side of the mustache had been yanked out.

Stephen was told that to cry out meant certain death. After the three men left Vassilatos succeeded in freeing himself. The police obtained fingerprints and the numbers of the stolen Liberty Bonds.

PENDLETON, OREGON

SEPTEMBER, 22, 23, 24, 1921

In the whole World there is no contest so intensely exciting, and with more thrilling and spectacular climaxes, than the riding of "outlaw" bronchos by cowboys and cowgirls.

Those contests, also the wild horse races, wild steer roping and bulldogging. Indian dances and pow wows are all that remain of the young, wild, vigorous, yet lovable West.
