**FORD CARS SELLING FOR LOWEST PRICES IN THEIR HISTORY**

Production of More Than Hundred Thousand Month Cause of Third Cut Within Year.

Mr. Edsel B. Ford, President of the Ford Motor Company, makes the following announcement:

"We have another reduction in the prices of Ford cars and Ford trucks, which went into effect Sept. 1. The new prices average \$10.00 under the former prices, and are the lowest at which Ford cars and trucks have ever been sold.

"This is the third price cut during the past twelve months. On September 22, 1920, the price of the Ford touring car was reduced from \$575 to \$419; June 7th to \$415, and now to \$335, making total reductions in this type of \$220, or 35 percent. The same proportionate reductions have been made in all other types. One year ago the price of the Ford Sedan was \$275; today it lists at \$259 with the same equipment.

"We are taking advantage of every economy in the manufacture of our products in order that we may give them to the public at the lowest possible price, and by doing that, we feel that we are doing the one big thing that will help this country into more prosperous times. People are interested in prices, and are buying when prices are right.

"The production of Ford cars and trucks for August again broke all previous high records with the total reaching 117,696. This is the fourth consecutive month in which our output has gone over the hundred thousand mark, the total for the four months being 463,874, which has gone a long way in making possible the present reductions. June this year, with an output of 117,247, was the previous record month.

"One noteworthy feature of our sales is the increased demand for Ford trucks and cars for sale. This class of commercial business has been gradually increasing the past sixty days and we interpret it as a very good sign of improvement in general business.

"No reduction has been made in the price of the Fordson Tractor, and none is contemplated."

**DENVER MECHANIC SAYS CAN HARNESS GRAVITY**

BY MICHAEL P. DACEY  
(International News Service Staff Correspondent.)

DENVER, Sept. 10.—Invention of a machine that will "harness gravitation" is the claim of W. F. Garbe, Denver mechanic and shopkeeper.

A working model of the new invention, which is on display in Garbe's North Denver shop, is attracting wide attention.

The machine comprises a system of wheels, around which link chains operate—there being a weight affixed to the center right portion of the machine, which contains the axis wheel, also rigid. The weight, instead of dropping like that of a clock, revolves and thereby, Garbe declares, counterbalances the slack and produces gravitation which forms the force of the machine and which it harnesses, ready for man to use.

Garbe asserts that, with his machine perfected and built to suit all purposes, it will run any kind of machinery and will eliminate the necessity of fuel in producing power.

"Will Run Indefinitely"  
"Some might call my machine perpetual motion, but there is no such thing as perpetual motion," Garbe declares. "My machine, however, will run indefinitely.

"I realize that it has been universally taught that harnessing gravitation is an impossibility, but I'm confident that I have solved the problem.

"I do not claim to know what the force of gravitation is, nor does the electrical expert know the composition or force of electricity, nor the physician the force behind radium, but for more than thirty years I have been interested in the study of harnessing gravitation, having studied it from every angle, and my machine is based upon mathematics.

"Force We Cannot Understand."  
"We know that it is gravitation that holds the unnumbered worlds together—a force that we cannot understand.

"In Ezekiel there is mention of a 'wheel within a wheel,' and of the 'spirit of the machine,' and it is the combination of these that I have worked out. I have assembled my machine on the planetary system, with mathematical precision, and 'the spirit of the machine' is that unknown force.

"I am a practical machinist, and I am convinced that I have solved the problem of harnessing gravitation. I am perfectly willing to give demonstrations to the skeptical.

"I know with my machine I can increase or decrease power; that in my working model I can demonstrate this power, and, as it operates itself and has its own power in operation, there is no need for coal or other fuel.

With this machine I can run a sewing machine or operate a great industry."

**\$24.85**  
TRADE-IN PRICE on this Genuine Prest-O-Lite Battery

Your Saving: **\$13.45**  
Over 1920 Price

**Prest-O-Lite BATTERY**

**Prest-O-Lite Reduces Again!**  
The Price: \$24.85 The Saving: \$13.60

For a Genuine Prest-O-Lite Battery, too!

**HERE'S** big news for the owners of Fords, Chevrolets, Overlands, certain models of Buick, and 27 other cars and trucks: You can now get a genuine Prest-O-Lite Battery for \$24.85. This is \$13.60 lower than the 1920 price (more than 30% saving); and \$5.55 lower than Prest-O-Lite's first reduction. In September, 1920, the price of this battery was \$30.45; in December it was revised downward to \$30.40.

Now you can get this same powerful, long-lived, quality Prest-O-Lite for \$24.85, in exchange for your old battery, no matter what its make. This is back to pre-war prices—yes, better than pre-war prices—for a better battery, too.

Drive around and get this best battery bargain on the market. Come today. Tell your friends.
