SEEING LIBERTY STATUE IMMIGRANT ARTIST PRAYS

NEW YORK, Sept. 13.—As the steamship Guglielmo Piave passed the Statue of Liberty recently Adenaro Ratti, seventeen, an Italian student of sculpture, fell to his knees and prayed.

The burden of his prayer was that he might create a statue similar to the huge masterpiece of Bartholdi. Adenaro, who already has done several works of note in his native city, Carrara, Italy, yearns to produce "a grand monument of which the motif would be liberty."

MEDICINAL ROOTS, HERBS, BARKS AND BERRIES

And other alteratives, tonics and health-giving ingredients that are recommended in the best medical books, are combined in Hood's Sarsaparilla. It builds up the blood, improves the appetite, invigorates the digestion, tones the stomach and gives nerve strength so as to promote permanent good health. Has merited and held the praise of three generations. You should give it a trial.

As a gentle thorough cathartic many recommend Hood's Pills.

HE IS AS MEAN AS MAN CAN BE YOU'LL AGREE

POPULAR BLUFF, Mo., Sept. 13.—(I. N. S.)—Somebody else has found the meanest man in the world. W. R. Brooks, agent of the Missouri Pacific Railroad at Neelyville, who formerly was opposed to capital punishment, has changed his mind.

This new meanest man in the world cut the screen out of the station window while Brooks was asleep and crept silently away with the station agent's trousers. The outlaw, of course was welcome to the watch and the small change contained in the pockets thereof.

SWAN'S MATING MAY PREVENT EXTINCTION

DENVER, Sept. 13.—(I. N. S.)—What are believed to be the only two North American whistling swans in existence are today cooing about a small pond in Denver City Park.

The birds are valued at \$2,500 each. The male bird is owned by H. O. Jackson, of this city, while the mate is the property of Judge R. M. Barnes, of Laton, Ill.

The most precious thing in the world

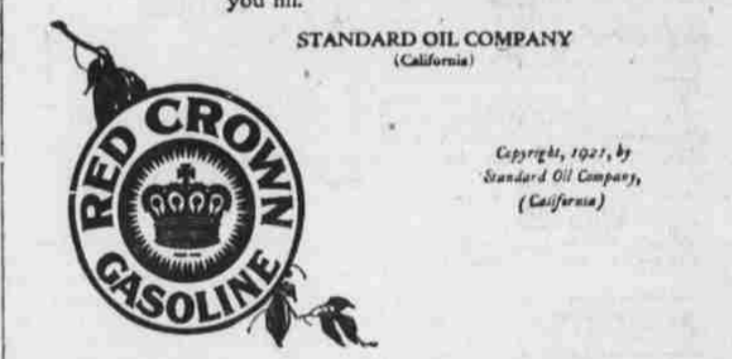

Think what this world would be without confidence that the sun would rise tomorrow!

Without confidence in the order of things, in our fellow men, in our institutions, chaos would reign in the world. There would be no security, no progress, no happiness. Confidence is essential to all that is worth while.

Years of satisfactory experience with Red Crown gasoline have given the motoring public confidence in "Red Crown." They know that with "Red Crown" in the tank they have high-quality motor fuel, and that from it their engine will deliver its maximum power and mileage.

"Red Crown" is available at Standard Oil Service Stations, garages, and at other dealers.

Look for the Red Crown sign before you fill.

The pair will be used for breeding purposes, in an effort to prevent the extermination of this rare specimen of the web-footed bird.

Bird 75 Years Old
The male bird is seventy-five years old and his mate but fifteen. They have black bills and a touch of orange under their eyes; otherwise the pair is pure white.

"Seventy-five years is far from being an advanced age for a swan," Jackson declared. "They live ordinarily to the age of one hundred and fifty years."

"So far as I know these are the only two whistling swans in existence, the last of their line. That's why I am eager that they mate and raise their young. If they do not it means the extermination of this graceful type of swan."

"I have owned the male bird for some time. I searched the country before I found a mate. I am convinced that they are the only two whistling swans now alive. Judge Barnes, of Laton, Ill., sent the female bird to me, and for a time I kept the pair on my private lake. But this lake proved too small for breeding purposes, and it is crowded, also, with swans of other species. So I turned the pair over to the keeping of City Park officials until the young can be raised."

"A peculiarity of this type of swan is the whistling call they use. They do their whistling mostly at mating time."

Whistling swans formerly were common to the Northern United States and Canada, but of recent years they have been practically unknown in these sections.

TO CORRECT MISSTATEMENT OF FACTS PUBLISHED IN SATURDAY'S ISSUE OF EAST OREGONIAN

A local automobile firm made the statement that they sold 21 new automobiles in the month of July, 1921 in Umatilla Co. This is not true, according to the registration figures of the Automobile Record as published by M. O. Wilkins for the month of July, 1921.

We defy any dealer or firm in Umatilla county to prove that they sold and delivered 21 new automobiles of any make, including Fords.

It would be assumed from the Saturday evening ad above referred to that there were sixteen new Chevrolet automobiles sold and registered in Umatilla county in the month of July, while it is a matter of fact there was not a new Chevrolet automobile sold in the month of July in this county.

You can draw your own conclusions as to the truthfulness and value of the balance of their ad.

Yours for honest advertising.
