**NOT THE ONLY ONE**  
There are other Pendleton people similar situated. Can be any stronger proof offered than the evidence of Pendleton residents? After you have read the following, quietly answer the question. Harry T. Buchan, farmer, Route 1, Box 62 E. Pendleton, says: "Many years of hard work on the farm weakened my kidneys and caused lame back some few years ago. When I tried to lift anything a terrible pain would catch me in the small of my back and I couldn't get straightened for over a month. The doctor said I had lumbago. My kidneys acted frequently, causing me to get up many times during the night to pass the secretions which were highly colored. I read about Donan's Kidney Pills and two boxes from Koepfen's Drug Store relieved the lumbago from my back and corrected the kidney action."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Donan's Kidney Pills—the same that Mr. Buchan had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

### IDEAS FOR HOUSEWIVES HOME DEMONSTRATION

- Do Not Let Fat Burn in Cooking
- The unpopularity of fried food
- in many families is due entirely to the fact that the fat has been burned in cooking. Fat when heated to too high a temperature splits up and forms substances which have an irritating effect on the throat and may cause digestive disturbances.
- Fat in itself is a very valuable food and if it is not scorched should prove a healthful rather than an objectionable article of diet.—E. V. D.

CHICAGO, Sept. 15.—Wheat showed weakness early in the day, completely recovered its loss later and then declined sharply at the close to a new low for the season. Sentiment was quite bearish not because of any important change in conditions but due to the temporary absence of exporters from the market and lack of outside support in futures. The weakness in foreign exchange had much to do with creating the idea that exporters would hold off for the time being. The Pacific coast reported 150,000 bushels worked late yesterday and it was intimated that some business might consummate at the Atlantic on today's late decline. Although the latter report lacked confirmation. All cash markets were firm and local handlers said milling demand in Chicago today was seen. County offerings to arrive were light. We cannot see any change in conditions to justify the expectations of permanently lower prices and believe pronounced strength will develop coincident with the publication of any bullish news.

Oats—There was considerable selling in this market during the forenoon which was thought to be in the nature of liquidation, the support encountered on the decline was exceptionally good. Cash prices were only a fractionally lower and trading basis strong. Country offerings to arrive light.
