NO. 9932

County Federation Adopts Scheme to Ascertain What People Think of Proposal.

NO MORE MARKET ROAD MONEY FOR BIG PROJECTS

Senators Will be Asked to Come Here for Conference Regarding McKay Project.

The policy of the county court in the future in spending money for road building will be to use market road money for market roads, and we are opposed to the use of this fund for state highways and the main roads. In other words, we want to use the money where it belongs. That will leave the big roads unprovided for under the scheme, and unless more money is secured from some other source, it is an assured fact that our main roads still unimproved are going to have to wait a number of years before we can get to them.

This statement was made last night by County Commissioner R. E. Bean at a meeting of the county federation of commercial organizations after several representatives of the various organizations had just told of the needs of their communities in the way of new roads.

Animalisment Meets Approval
This statement by the county comraissioner met with hearty approval
from the men who attended the meeting, their statements showed, but when it became evident that to build roads which are even now being clam-ored for by different communities, more money than the small sum socur-ed by taxation must be secured. The question of the advisability of seeking to float a bond issue was raised.

No attempt definitely to authorize such a move was made by the federaa motion was made which authorized each fowns organization to take up the matter of the advisability of launching such a move. The meeting of the federation will be held for the purpose of hearing reports from every community in the county as to the advisability of seeking to float a new lastic.

is a good prospect of the whole Ore-gon Trail being paved before 1925 if the county maintains its interests in MENCHER ASKS FOR TRANSFER. + this is taken as an road building.

The mim of \$127,000 which approximately represents the amount of money available for road work received in the county from taxation is bare-He gave it as his opinion that a bond

issue would carry four to one.

George Drumheller Who Will be Here for Round-Up With Famous Relay String.

George Drumheller, of Walla Walla, is a veteran of the Round-Up racetrack and will bring a string of fast relahorses to the Pendleton show next week. He is accredited with having the finest stables in the Northwest and is in the game not from a professional standpoint has from a pure leve of the sport. One of his horses won the horses to the Pendeton show next week. He is accredited with horses in the Northwest and is the first of the delegates in attendance indicated that they thought a hond issue could be put over. Finally in Omaha and his horses won horses won horses also at faces in Louisiana. He son, Allen Drumheller, is a falone issue could be put over. Finally

OFFICERS SEARCH FOR

Expect Some State Aid

That Umatilla country could expect help from the state if a hond issue is floated was the opinion expressed by D. H. Nelson, one of the most entrempt this section of the state. The high way commission has shown right along that when a country spends money on high programs the commission will do the same thing, Mr. Nelson said. He expressed a belief that the Columbia River Highway from Pendleton west may be may within a comparatively short time by the state, and that there is a first the police were called and method and may be may within a comparatively short time by the state, and that there is a first may be may within a comparatively short time by the state, and that there ne by the state, and that there opened fire but fled after the police + in the bottom of the well. SAN FRANCISCO, Sept. 16 .- (U. P.)- "Fatty" Arbuckle faces charges of first degree murder when his case opens today. District Attorney Brady seems determined to pass up the man-slaughter charge and prosecute on the murder complaint. Arbuckle's attor-ney, after a long conference with the comedian, announced his deferminawhich enlivened the coroner's hearing. Prady is equally as determined to get this evidence into the court records. A crowded court room is expected to witness the first tilts following Arwitness the first that and killing of Folsom chapel. Pall bearers will be beautiful Miss Irginia Rappe.

Attempt to Surpress Statement The defence is making a vigorous fight to prevent Miss Rappe's deathbed statement, in which she is alleged to have accused Arbuckle of causing her death. The statements were made to the nurse at the Wakefield Sanitarium where the girl died. The defense holds them as hearsay, as Arbuckle was not present when the girl uttered them and therefore inadmissible to the records.
