JAPANESE PROFESSOR DECLARES U. S. WANTS TO THROTTLE JAPAN

Asserts Destiny of Nation is Bound up With Coming Disarmament Conference

BY DUKE N. PARRY, International News Service Staff Correspondent.
 TOKIO, Sept. 15.—"The disarmament conference proposed by President Harding forms part of the plan of America to check the development of Japan by organizing the opinion of the world against her policy," declares Dr. Shinkichi Uesugi a professor in the Imperial University, in a serial article contributed to the Nichi Nichi. "The destiny of Japan is completely bound in the settlement of the situation arising from the move of President Harding. Has Japan confidence in her power to emerge from the trial with increased influence and prestige?"
 "The Americans talk of the occupation of Yap Island as though it constituted a menace to their safety, and are seeking with all their powers for the cancellation of the mandate granted Japan over that island."
 "If Yap, under Japanese domination constitutes a menace to American safety then Japan has more reasons for insisting on the withdrawal of America from Guam and the Philippines, since the geographical position of these islands makes them a positive menace to Japan. Japan will not evacuate Yap so long as her evacuation is not compensated by similar concessions on the part of America."
 "Supreme America."
 "What compels us to suspect America is her position in the Shantung question. America has no conceivable interest in this part of the Chinese territory, and has no right whatever to have a say in the matter, and yet Japan has yielded to the American attitude, mainly out of her fear to listen to America might bring stronger pressure to bear on us."
 "The only alternative open to Japan in a situation brought about by the American president is to face the situation bravely and withdraw from the conference if she is satisfied that the free development of her people in China and Siberia is not compatible with the settlement of Far East and Pacific problems."
 "Withdrawal will necessarily mean war with America. This is why I suggest that Japan should be fully prepared for war before going to the conference."

JESS TOOK LAST CHANCE
 "After three years of doctoring for my stomach I became discouraged and swore I wouldn't take anything else. I was bloated with gas all the time. Someone praised May's Wonderful Remedy so highly that I decided to take a last chance. I am now feeling like a new man." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Druggists everywhere.

 Loss of Vitality is loss of the principle of life, and is early indicated by falling appetite and diminishing strength and endurance. Hood's Sarsaparilla is the greatest vitalizer—it acts on all the organs and functions, and builds up the whole system.
