

CHILD TRAINING AT HOME

This is No. 49 of the fourth series of articles issued by the National Kindergarten Association, 5 West 40th Street, New York City. They are appearing weekly in these columns.

CONTROLLING CHILDREN

By Margaret Wright North

The adage that a man is not fit to command others until he can command himself is never more true than in the training of children. A mother who has acquired self-control has more than half won the struggle of controlling her children.

GATES
"QUALITY"

WHY WE ARE OVERSOLD

For the past 30 days the sale of GATES SUPER-TREAD TIRES has exceeded the factory capacity, running 24 hours a day.

The reason is that this tire with its wider, thicker rubber tread is delivering more miles than any other tire we have ever seen on the road. This extra mileage is making a lot of friends for GATES SUPER-TREAD TIRES and we are not surprised that the factory is oversold.

ture that gave me of the mother? I could see her in the afternoon sitting quietly with her mending basket, answering Charles' interminable questions with fact and patience, entering into his "pretends," and making the child feel that his mother was a real pal and playmate.

Then I could see her a little while later, bustling about the kitchen getting supper, Charles still asking questions. After a few half hearted replies, mother turns on Charles with an impatient, "Charles, if you don't stop asking me questions I'll send you to bed, you drive me wild." There is a moment of silence and then another question. "What did I tell you? Now go to another world." Another moment and then a hesitant, "Say, Mother?" "Charles! Go right upstairs, take your clothes off and go to bed!"

Now where was the fault? Was Charles being "most exasperating" or was it just that Mother was not in the mood and lost her patience?

That mother was expecting too much of her child. She wanted him to appreciate the strain that getting supper put upon her mind, body, and nerves. Since cooking was outside his experience, he could not put himself in her position. Even if she had quietly told him that she could not play with him any more, giving the reason, he would not have been able to change his play without her help. He was so filled with one idea that a new suggestion was necessary.

How easy it would have been, when she could not work with his chatter going on, to have suggested that he go to the front window and count the number of white horses going by while she was getting supper; and tell how many windows he could see in the houses across the street; or that he show her how nice a house he could build with his blocks.

Because the mother expected the child to have the self-control which she herself lacked, displeasure and resentment replaced the sympathetic friendliness of the afternoon, and Charles was unjustly punished.

Let us remember that children are very much like rivers, it is impossible to stop them, but comparatively easy to change their course.

Seeds of Civilization

"Now, here stands the world at the parting of the ways. The age of Civilization has reached the cross-roads. Civilization is on the verge of being dominated by science. Science will dominate for Good or Evil.

Good means Progress. Evil means Destruction. Which shall it be?"

Why not begin now to sow the seeds of Civilization for tomorrow? The Kindergarten makes for progress. For information write to the National Kindergarten Association, 5 West 40th Street, New York City.

BEAN-POLE BURGLARS NEWEST

ELKINS, W. Va., Sept. 17.—(L. N. S.)—Experienced pickpockets, or "dips," as they are known to the underworld, generally depend upon the dexterity of their fingers to ply their trade, but some fellow here has introduced a novelty in the manner in which coins may be extracted from the pockets. He uses a long bean pole with two conveniently placed nails in one end. Arnold White, of Job, W. Va., was relieved of \$30 in cash and a gold watch valued at \$40 at Roe Dove's annex. It happened after White went to bed and to sleep. The pickpocket took a ladder, climbed to the second-story window, thrust in his pole and extracted the cash and the watch from White's trouser's pockets.

EXPECT 1,500,000 SACKS SUGAR

SANTA ANA, Cal., Sept. 17.—(L. N. S.)—By the middle of November it is expected that 1,500,000 sacks of sugar will have been produced from the four large plants that are operating in Orange County this season. Best men estimate that the tonnage for the country will be more than 400,000 tons.

While the total county acreage of beets is less than in 1920 the added yield per acre this year will increase the total production, it is said.

SCHOOL CHILDREN GIVE TEACHER SURPRISE PARTY

SUNFLOWER CROP IN CAL.

FULLERTON, Cal., Sept. 17.—(L. N. S.)—Sunflowers which are said to yield the largest that Kansas ever produced are now growing on the Fullerton municipal farm. The stalks range from ten to twenty feet in height and from one to four inches in diameter. How to permanently get rid of the crop is a problem, as a team cannot get through the patch to plow them under.

Fairest in a Thousand!

One thousand beauties passed in review before 150,000 people at the Atlantic City pageant. In that thousand none was more beautiful than Margaret Gorman, of Washington, according to a committee of judges headed by Howard Chandler Christy. She was awarded the Golden Mermaid, a trophy valued at \$5000. She also won the bathing beauty contest.

PAIGE

The Most Beautiful Car in America

At the New Price Where Can You Match Glenbrook Quality?

Just a short while back the Paige five-passenger touring car, Glenbrook 6-44 model, sold for \$1925.

Today, because the price is based on the prevailing costs of the readjusted materials market and the low manufacturing overhead due to our immense facilities, the list price of the Glenbrook is only \$1635.

Surely if a genuine buying opportunity ever knocked at any man's door, the Paige Glenbrook is that very opportunity waiting on your threshold.

Not only is the initial cost absurdly low for such a remarkably fine car, but the Glenbrook is a true economist. Its sturdiness is the despair of the repair man. In the hands of thousands of owners it has shown amazingly satisfactory tire and gasoline mileage.

A pure quality product, the Glenbrook has demonstrated its supreme fitness the country over. New from stem to stern there can be no sudden or unwarranted depreciation. Unquestionably it is the best and safest investment in the light six market today.
