Liberty Bonds Again Make Strong Showing

NEW YORK, Sept. 17.—(A. P.)—Professional traders again were in undisputed control of the stock market yesterday but the bullish or constructive members of that party encountered frequent opposition from the short interests.

Dealings were much lighter than on Wednesday, when a new high record for several months was reached. The movement, however, embraced almost as many issues.

There were no developments of outstanding importance, dealings being based mainly on increasing signs of reaction in the money market. Call loans eased from 5 to 4 1/2 per cent on the exchange at 4 per cent.

Pools were most active in equities, steel, motors and oil, the latter, however, being most vulnerable to pressure. Gross gains of 1 to 2 1/2 points were much impaired or entirely canceled in the obvious taking of the last hour. Sales amounted to 500,000 shares.

The feature of an otherwise confusing foreign exchange market was a rally of about 6 points in marks. Sterling was firm, but francs hovered

near their recent low quotation, other continental rates showing further irregularity.

Liberty issues imparted additional strength to the bond market, all but the 3 1/2's gaining from 20 to 70 points on the day. Rails also continued to improve, but the foreign group showed mixed gains and losses. Total sales, bar value, \$13,250,000.

Some Strength Developed in Wheat

CHICAGO, Sept. 17.—(A. P.)—Wheat developed a little strength yesterday, helped by word that a new German credit was being arranged. The market closed unsettled, unchanged to 3-4c higher with December \$1.29 to \$1.29 1-2 and May \$1.33 to \$1.33 1-4. Corn finished unchanged to 1-4c lower, and oats unchanged to 1-2c higher. In provisions, there were net gains of 2 1/2-3c to 2c.

At first the wheat market showed considerable weakness, owing largely to a sharp break in sterling exchange. Complete ending of the Argentina drought counted also as a bearish factor. Later, however, sterling turned upward again and more confidence in the foreign financial outlook was

shown. Bullish sentiment was fostered likewise by advices which emphasized rain damage to wheat in shock in the northwest.

Corn was easy throughout the day, the bulk of the crop being safe from frost.

Higher quotations on hogs gave a lift to provisions.

Some Improvement in Business Seen by Bradstreet

NEW YORK, Sept. 17.—(A. P.)—Bradstreet's report says:

"A widening circle of improvement in business and industry is reflected in reports. Part of this, as for instance, the generally more active condition of jobbing distribution, south, west and east, seems along more or less strictly seasonal lines, the apparel trades bulking large in this direction.

"The better tone of the building and related trades, notably lumber and hardware, and the cheerful trend of advices from iron and steel companies and their subsidiaries, notably coke making, are, however, not necessarily seasonal features. The former is a reflection of the growing activity, aided by settlement of many strikes, in construction lines, due to the pressure for new housing, while the strength in iron and the slight but apparently significant advances in steel, copper and lead are regarded as evidences of the increasing exhaustion of stocks on hand of some of these metals."

Hogs and Lambs Strong, Cattle Weak

OMAHA, Sept. 17.—(United States Bureau of Markets.)—Hogs—Receipts, 3500 head. Steady to 15c higher; close weak on packing grades; bulk better grades, \$7@7.75; top, \$8.10; bulk packing grades, \$6.25@6.75.

Cattle—Receipts, 1000 head. Beef steers and she stock weak; no choice fed steers here; bulls and veals steady; stocks and feeders steady to weak.

Sheep—Receipts, 5000 head. Lambs strong; best western lambs here, \$8.90; natives, \$8.75; sheep and feeders steady; ewe top, \$4.40.
