# SAYS HER RECOVERY IS ALMOST LIKE A MIRACLE

From Helpless Invalid to Complete Restoration of Health, Strength and Happiness Is Wonderful Change Mrs. Root Experienced in Three Weeks—Statement One of Most Remarkable On Record.

MRS. JENNIE ROOT

"Just a week before I started taking Tanlac I was down in bed so crippled up with rheumatism I could not move without help. My son had taken Tanlac, and it had done him a world of good, so one day he brought home a bottle and said, 'Mother, I want you to take this.' When I had finished that bottle, I felt like a different woman, and by the time I had finished my second bottle, I was out in the garden hoeing.

"Tanlac has simply done wonders for me; it almost seems like a miracle." This is the remarkable statement made recently by Mrs. Jennie Root, residing at 1409 Powers St., Portland, Oregon, and is only one of tens of thousands from well-known men and women who are daily testifying to the powers of Tanlac.

Continuing her wonderful statement, Mrs. Root said, "For years I suffered terribly with rheumatism, and would often be down in bed for days at a time. In the last five years there was not a time that I didn't feel those rheumatic pains all through my body. About two months ago I got very much worse and my arms and legs were so bad I was almost helpless, and couldn't even hold a pen to sign my name. I was so weak I could not do any housework. I couldn't even sleep, and had no rest day or night. Even to walk a few steps would tire me out completely. When I tried to walk I would stagger, and when I did walk a little way and sat down I could not get up without some one helping me. I had no appetite and hardly ate enough to keep me alive. I could not stoop over far enough to get my shoes on.

"I never knew what a night's sleep was, and would be awake for hours. At times I would get very cold and would have to get up and sit by the fire huddled up, and my daughters would put hot water bottles all around me. I was treated by four doctors, and took all kinds of medicine. Nothing ever did me any good. I am

just like a different person now. All those terrible aches and pains have left me, and only the other day I was able to walk up four flights of stairs in an office building when the elevator was out of order.

"My appetite is just splendid now, and just today for the first time in years, I felt so hungry that I had to go and eat a piece of pie between meals. In fact, I can't remember the time that I have felt as well as I do now. I have not only regained my health and strength, but I have gained fourteen pounds in weight. To tell you the truth, I wouldn't exchange the benefit I have received from Tanlac for the best ranch in Oregon, and I will praise it as long as I live."

Tanlac is sold in Pendleton by Thompsons Drug Store and by all leading druggists.

WINDING THE CLOCK

When I was but a little lad, my old Grandfather said, "I envied him that little task, and wished that I might be that one to be entrusted with the turning of the key; But year by year the clock was his exclusive bit of care. Until the day the angels came and smoothed his silver hair.

In time Grandfather passed away, and so that duty fell unto my Father who performed the weekly custom well; He held that clock were not to be by careless persons wound And he alone should turn the key or move the hands around.

### SENATE BILL 1072

It looks very much like there will soon be \$75,000,000 of federal money available for road building purposes in cooperation with the states. Of this federal fund it is assumed Oregon may get a total of \$3,000,000. Whether the legislation will actually be enacted at Washington may not be safely predicted but the senate passed the measure on May 16. The same measure as amended by the house passed the house on June 27. With a further amendment the senate passed the house bill on August 19. It therefore only remains for the house to approve the last senate amendment and for the president to sign the bill. Since it is evident both houses are very friendly to the bill its final adoption seems certain, yet this may easily prove an unsafe prophecy.

On the theory that the bill will pass some sections become of particular interest. One of these is section 10 which provides as follows:

Sec. 10—That when any state shall have met the requirements of this act the secretary of the treasury, upon the receipt of certification from the governor of such state to such effect, shall immediately make available to such state, for the purpose set forth in this act, the sum apportioned to such state as herein provided."

This has all the appearance of a "first come, first served" arrangement. It is also provided in the bill that except in certain circumstances federal money shall not be used to pay for more than 50 per cent of the cost of a road project.

We are liable to find a situation where federal aid may be secured on some of our important roads provided the necessary aid can be assured. Since the state aid obtainable will probably be measured by what we do ourselves the decision may finally be in our own hands.

Apparently it will simplify matters considerably if congress acts before we determine upon any road money raising campaign in this county, for we could then arrange our program with the intention of meeting the federal requirements so as to get the maximum amount of government help.

### "BY THEIR CONDUCT"

"We fully appreciate the serious consequences of our decision but these consequences are such as defendants have invoked by their conduct."

The foregoing is from the opinion by the supreme court denying a writ of error for Owens and Rathie. "Invoked by their own conduct" is a phrase that law breakers and would be law breakers should take home to themselves. The law is there but the law asks for no violation. On the contrary, it requests obedience. When the law is violated the criminal by his own act asks for the punishment set forth. Therefore he cannot blame the courts for giving him what is prescribed. For the courts to do otherwise would be for them to engage in a policy of leniency and many believe that leniency breeds crime and is therefore a mistake from the standpoint of society.

The criminal needs to learn that in reality he punishes himself because his crime, which is of his own volition, is the nub of the whole business as far as his punishment is concerned. If he does not want to get burned he should not walk into the fire.

The juvenile judge at Kansas City removed his slipper and proceeded to spank four juvenile offenders who came before him; if the slipper treatment had been applied earlier in life by the boys' parents they would not have been before the juvenile judge.

"Tonight and Thursday fair" sounds good; it is customary for people to smile during the Round-Up and we want Old Sol to set the pace.

There will be more room than before for dancing at Happy Canyon this year and dancing is pleasurable exercise.

If the bootleggers will just make their presence known they will get a hearty welcome—from the police.

Go to Happy Canyon tonight and to the Round-Up tomorrow.

### HIT HER WITH FRYING PAN; BREAKING BLISS

CHICAGO, Sept. 21.—(I. N. S.)—Helping his wife "cook supper" led Fred Wolff, a Chicago salesman, into the divorce court. Wolff, according to his wife, acted like a "wolf" in the kitchen of their home. When he struck her with a frying pan it broke up their five years of marital happiness.

"I heard pots and pans being thrown around," Mrs. Wolff told Judge Lewis. "My husband got so angry that at last he struck me with a frying pan. We never made up after that."

MANUFACTURE BOOZE BELTS

FARMINGTON, W. Va., Sept. 21.—(I. N. S.)—Recent arrest of bootleggers have brought to light the fact that one concern is manufacturing a special kind of leather belt for the carrying of six flasks of moonshine liquor. The receptacles for the flasks are so formed that no difference in the bulk of a person's body can be detected when a suspect is "tricked" by officers.

GOVERNOR TO AID JOBLESS

JEFFERSON CITY, Mo., Sept. 21.—(I. N. S.)—Governor Hyde is taking steps to remedy the unemployment situation in the State of Missouri. The Governor has been holding a series of conferences with State Highway Engineer Alexander Graham on the proposition of finding work in the State Highway Department for former service men who want jobs.
