The Fellows Crowd Little Buyers at Portland

(From The Oregon Journal.) The big fellows are at it again in the North Portland market. They had a bunch of low priced hogs in from South Dakota and for the limited force run they were making the small fellow pay bigger prices in order to stop them from competing with them.

The big fellows brought forth 395 head of hogs from South Dakota on contract. On the basis of the day's quotations the eastern stock could be landed here around \$9.50 per hundred pounds. Instead of forcing local prices higher, the big fellows were actually bringing midwest hogs here at lower values. However, to stop the little fellows from seriously competing with them in the fresh pork market, or even in provisions, the price of hogs advanced 45¢ a hundred pounds to \$11.65.

Therefore hogs purchased by the small fellows at North Portland cost them around \$3.15 per hundred pounds more than the big fellows.

Collapse of the cattle market was shown at North Portland at the opening of the week's trade with values at least 25¢ lower than last week's final figures. There was a liberal run of 3000 head compared with 2339 a week ago and 1802 head a year ago. Northern killers had 391 head or 13 cars in the alleys for shipment in their direction.

While there were few hand-tailored cattle in the alleys, considerable top-py stuff was in sight, in fact more than killers cared to purchase except at price concessions.

A few select feeders good enough to kill sold at \$5, but the general run was selling at the lower range.

General cattle market range: Choice steers \$5.50@5.75, Medium to good steers 5.00@5.50, Fair to medium steers 4.50@5.00, Common to fair steers 3.75@4.50, Choice cows and heifers 4.50@5.00, Medium to good cows and heifers 4.00@4.50, Fair to medium cows and heifers 3.00@4.00, Common cows, heifers 2.25@3.25, Canners 1.25@2.25, Bulls 2.25@3.25, Choice feeders 4.00@4.75, Pair to good feeders 3.25@4.25, Choice dairy calves 10.50@11.00, Prime light dairy calves 10.00@10.50.

and lamb trade is available. Developments at the opening of the week's North Portland market indicate that the recent advance in the price was a bluff pure and simple to protect those killers who had a big band of sheep already on hand.

Monday morning the run at North Portland showed a total of 3285 head, compared with 1243 head a week ago and 2173 head a year ago.

Killers were very slow about taking hold in the sheep and lamb division, indicating a lower price range.

General sheep and lamb range: East of mountain lambs \$6.00@6.50, Best valley lambs 5.00@6.25, Fair to good lambs 5.50@6.00, Cull lambs 1.50@3.00, Feeder lambs 4.50@5.00, Light yearlings 4.50@5.00, Heavy yearlings 3.00@4.50, Light wethers 3.50@4.00, Heavy wethers 2.50@3.50, Ewes 1.00@3.00.

High grade rails added nothing to recent gains, being overshadowed by junior issues, but steels, equipments and coppers, together with motors and the cheaper miscellaneous stocks, were better by one to two and a half points. The entire list turned heavy towards the close, offerings of Mexican Petroleum, Baldwin, Reading and Northern Pacific affecting losses of one to three points in those issues and cancelling many gains elsewhere. Sales were 475,000 shares.

Ignoring a 4 1-2 per cent rate for private loans, all call money on the exchange was placed at 5 per cent. Time rates, merchantile paper and bank acceptances were unchanged, brokers reporting a light inquiry.

The fall of German marks to practically .86, or four points under any previous minimum, was accomplished by weakness in Austrian, Polish and other central European remittances. Far-eastern remittances again moved contrarily, the Japanese rate falling about half a cent, while the Chinese quotation rose 1 1-2 cents.

Liberties led to an active and broad bond market to irregularly higher prices and numerous convertible and debenture rails enhanced recent gains. Speedy sale of \$31,000,000 of Pennsylvania railroad equipment certificates testified to the strength of the local investment situation. Total sales, par value, aggregated \$18,385,000.

Wheat Prices Lower When Supply Increases CHICAGO, Sept. 27.—(A. P.)—Accumulating stocks of wheat, together with absence of export business, had much to do yesterday with downturns in the price of wheat. The market closed unsettled 1c to 2 1/4c lower, with December \$1.24 1/4 to \$1.24 3/4 and May \$1.28 1/4 to \$1.28 3/4. Corn lost 1/4c to 3/8c to 1 1/4c and oats 1/4c to 5-8@3-4c. In provisions the outcome was unchanged to 27c down.

It was evident from the start that the United States visible supply total would show a decided increase. The actual enlargement for the week proved to be more than 5,000,000 bushels, and with an even greater increase shown for Canada the effect was naturally depressing to the bulls. Meanwhile exporters asserted cable offers to sell wheat to Europe were met with counter-proposals to resell, and in this connection it was pointed out German marks had sunk to a new low. Rallies due to profit-taking by shorts failed to hold, notwithstanding receipt of persistent crop damage advice from the northwest and despite curtailed estimates of yield in Canada.

Corn and oats declined with wheat, although at first relatively steady owing to talk about corn acreage having perhaps been greatly over estimated. On the other hand, bears stressed the fact that the visible supply of oats is by far the largest known.

Downturns in the value of hogs weakened provisions. Jonathan Apples Move In Primary Markets PORTLAND, Sept. 27.—(A. P.)—Jonathan apples are beginning to move in a larger way in the markets. Other Northwestern District—Jonathan, extra fancy \$1.90, fancy \$1.65@1.75, C grade \$1.35@1.50.

SENATE CONSIDERS REVISED TAX BILL

WASHINGTON, Sept. 27.—(U. P.)—The senate today began consideration of the revised tax bill, designed to raise three and a quarter billion for the present fiscal year. This action shelves the anti-beer bill, which probably will follow the treaties and tax bill for consideration.
